One platform to *run and grow* your business.

SupplierAdvisor® is the supply-chain operating system with a verified trade and trust layer. Suppliers, customers, orders, stock, money and compliance live in one company workspace, with counterparties you can check and score.

B2B

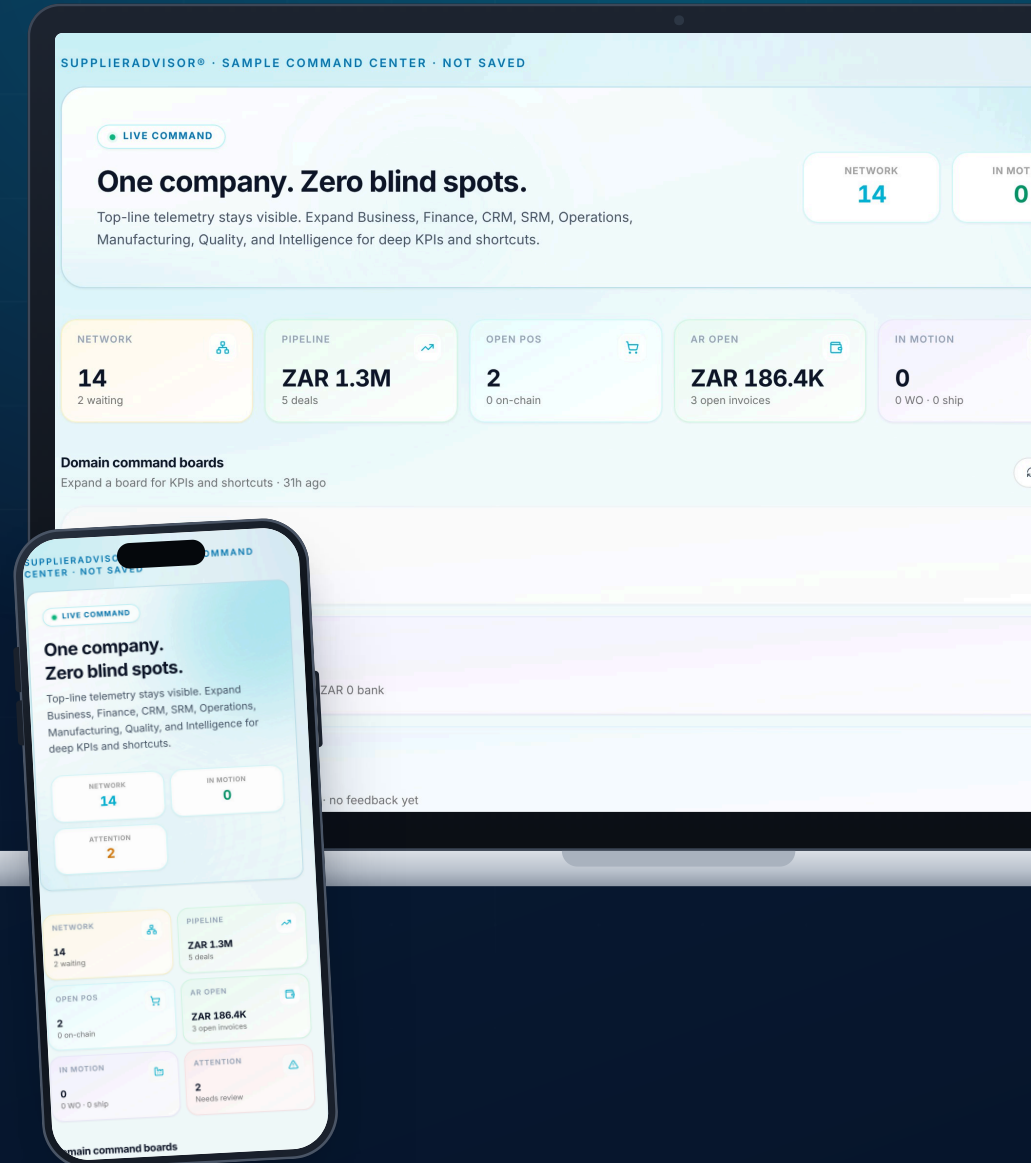

Manufacturers, distributors, brands and trades

B2G

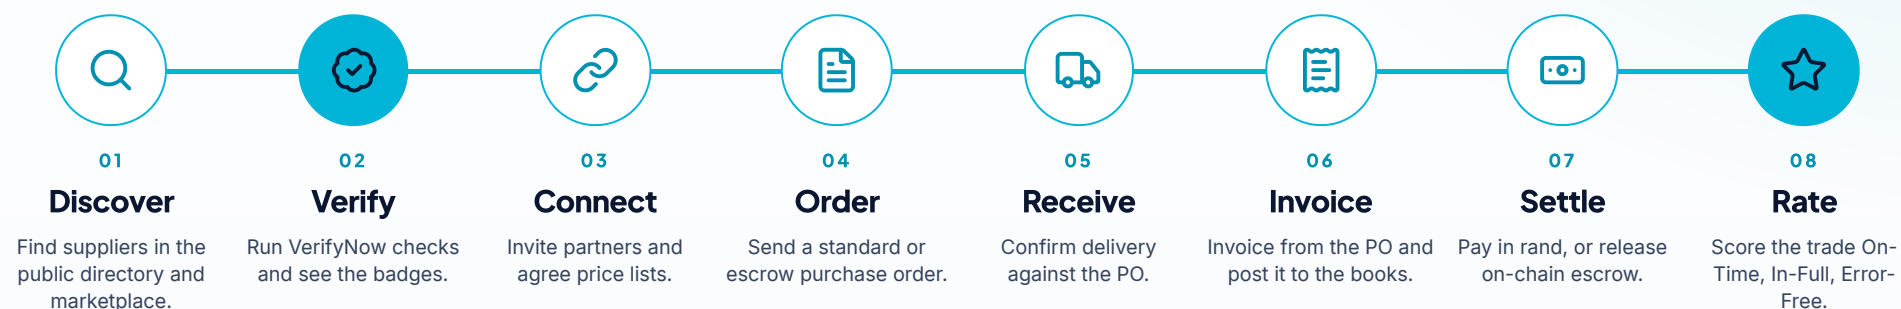

Government programmes with audit-ready packs

B2C

Industry apps, storefronts and tills

The whole trade loop on one workspace, *with trust built in.*

Company check

Paid VerifyNow checks against CIPC, Home Affairs, AML/PEP lists and bank accounts, shown as badges.

OTIFEF scorecard

Every trade can be rated On-Time, In-Full and Error-Free, building a scorecard over time.

RIAD on the relationship

A shared log of Risks, Issues, Actions and Decisions for each customer and supplier.

Everything a company needs, *in every plan.*

Every company gets the same core operating system on the base plan. It's priced per company, not per seat, so the whole team is in.

Profile and verification

A company profile buyers trust, with VerifyNow badges, team roles and several workspaces under one login.

Network and connections

Invite the partners you trade with, agree price lists, and earn referral fees on their subscriptions.

Suppliers and marketplace

A supplier book with dossiers, contracts, ratings and RIAD, plus a public directory and marketplace.

Purchase orders and escrow

Standard or escrow POs, a buyer portal, and an inbound inbox where sellers accept or decline.

Inventory

Raw materials, finished goods, lots, warehouses, transfers, counts, scanning and GS1 data.

Accounting and finance

Bank reconciliation, live management accounts, VAT, P&L, balance sheet, cash flow and AFS.

Customers and credit

Leads, quotes, orders and invoices, credit applications, AR aging and reminders.

SHEQ and quality

QA inspections, holds and release, OH&S and NCR/CAPA on the same books.

Intelligence and SAM

Pulse insights, scorecards and forecasts, and SAM, the assistant that shows you how.

Buy from suppliers *you can prove.*

Find suppliers in the public directory, check their badges and ratings, then send a purchase order from their catalogue. They accept it in their inbound inbox, and you track it to delivery.

Directory and marketplace

Search by industry, city and country, shortlist suppliers and open a full profile dossier.

Supplier book (SRM)

Documents, contracts, performance, ratings and the RIAD log in one place.

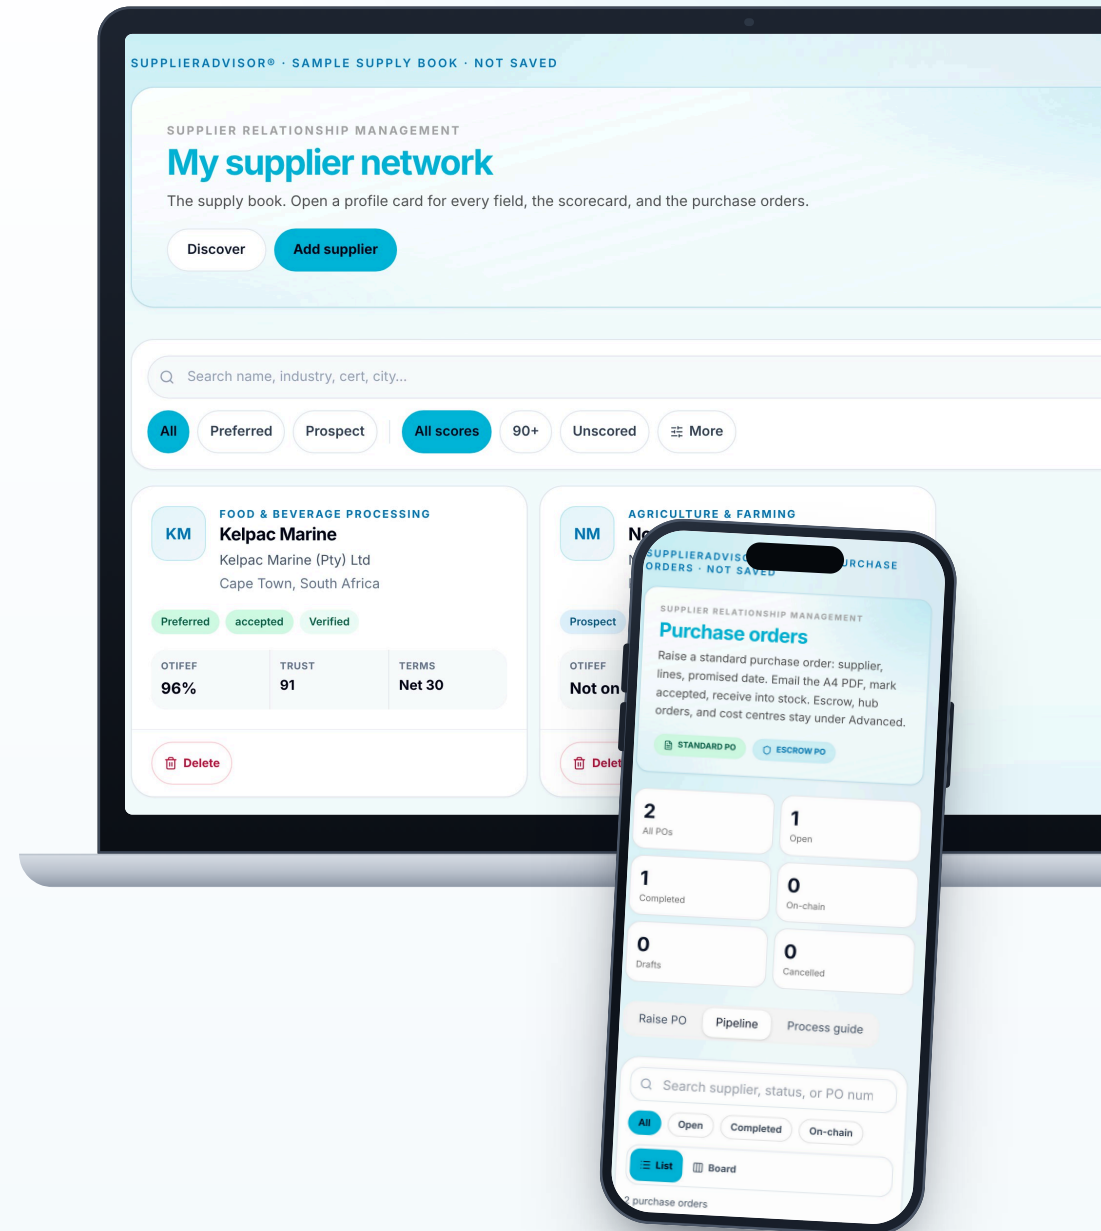

Standard or escrow PO

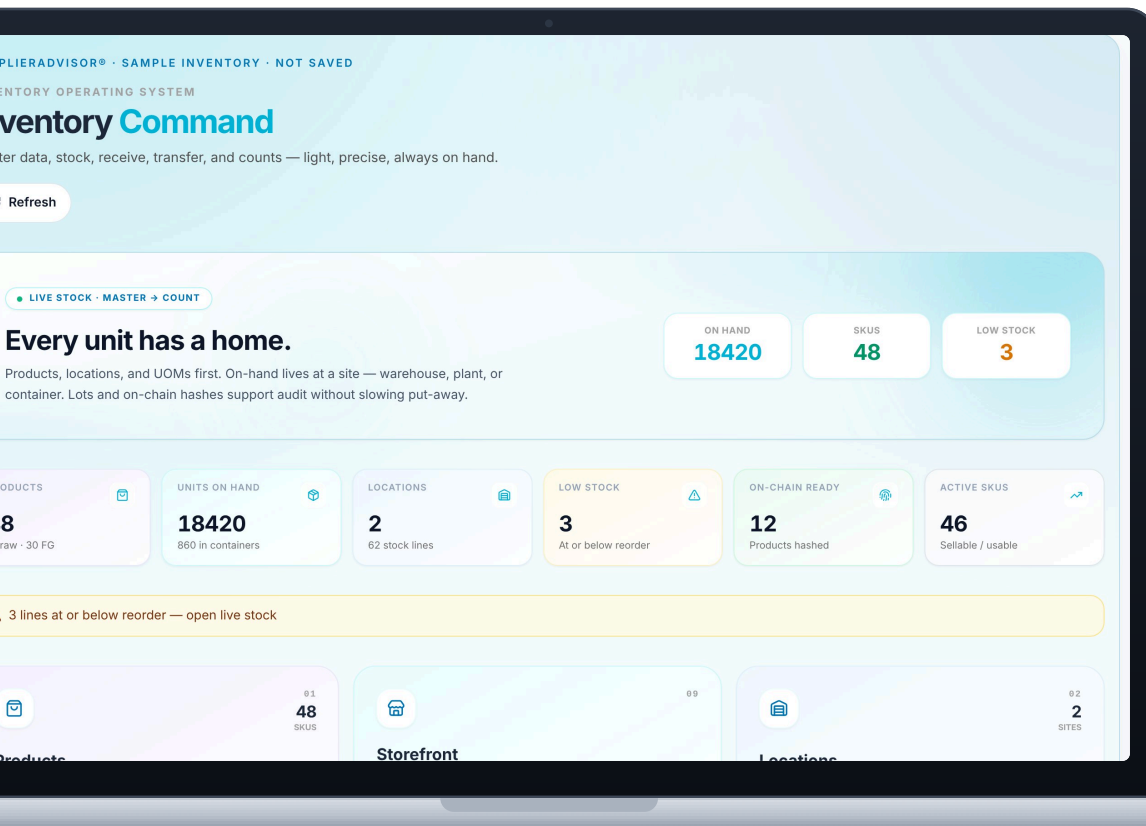

Lines from the supplier's catalogue or agreed price list, with a promised date.

Email and push alerts

Inbound, accepted, invoiced and fulfilment events reach the right people.

INVENTORY

Stock that *follows the trade.*

Goods land in warehouses by lot when a purchase order is received, and move out on sales, transfers and production. Every movement has a place in the books.

Inventory by lot and warehouse

Products, locations and units first, then on-hand by site, lot and container.

Counts and scanning

Transfers, stock takes, cycle counts, barcode scanning, EDI and GS1 helpers.

Purchase orders to stock

Receive against the PO, and the supplier invoice posts to accounts payable.

Cost of sales in the ledger

Stock costs flow to cost of sales, so gross profit in the reports is real.

Know your numbers *today, not at month-end.*

Sales, purchases, stock and the bank all post to one general ledger, so the management accounts are live for any period you pick: revenue through gross profit to operating profit, with the bank beside it.

Bank and reconciliation

Live management reports

VAT and the VAT return

Financial statements

- ✓ Period P&L bridge, expense mix and budget vs actual
- ✓ Ratios: margins, current and quick ratio, debt to equity, ROA and ROE
- ✓ Forecasts, AR and AP aging, and a management cash flow against budget
- ✓ One click to a management pack PDF for the board or the bank

SUPPLIERADVISOR® · ACCOUNTING

ILLUSTRATION · SAMPLE DATA

BANK INTEGRATION AND RECONCILIATION

The bank, *coded for you.*

SupplierAdvisor® is connected with FNB. FNB transactions and imported statement lines land in one allocation queue.

Proposals learn from how you post journals and VAT, then you post or change the account.

Statement import

Bring in bank statements as PDF, CSV or OFX, for as many accounts as you run.

Auto-match

Scores unallocated lines against open invoices, bills and your rules.

Settle AR and AP in one step

A matched receipt or payment clears the invoice and posts to the ledger.

Bank vs ledger, always visible

Set statement balances any time and see what is still unallocated.

Connected with FNB

FNB transactions come into the same allocation queue, ready to reconcile.

CONNECTED BANKS

FNB

● **Connected**

Other banks to follow. Until then, import statements.

VAT you can *stand* behind.

Invoices, bills and bank lines carry a South African VAT code, so the VAT return box builds itself for the period you choose: output VAT, input VAT and the amount payable to SARS or the refund due.

- South African VAT codes**

Standard rate 15%, zero-rated, exempt and out of scope, set up for you.
- VAT return box**

Standard-rated sales and purchases, zero-rated and exempt supplies, and net VAT: the figures for your VAT201.
- Find and fix wrong codes**

Filter every VAT line by type and reallocate a wrong code before you file.
- Submit the VAT201 to SARS eFiling**

LAUNCHING SOON

File the return from SupplierAdvisor®.

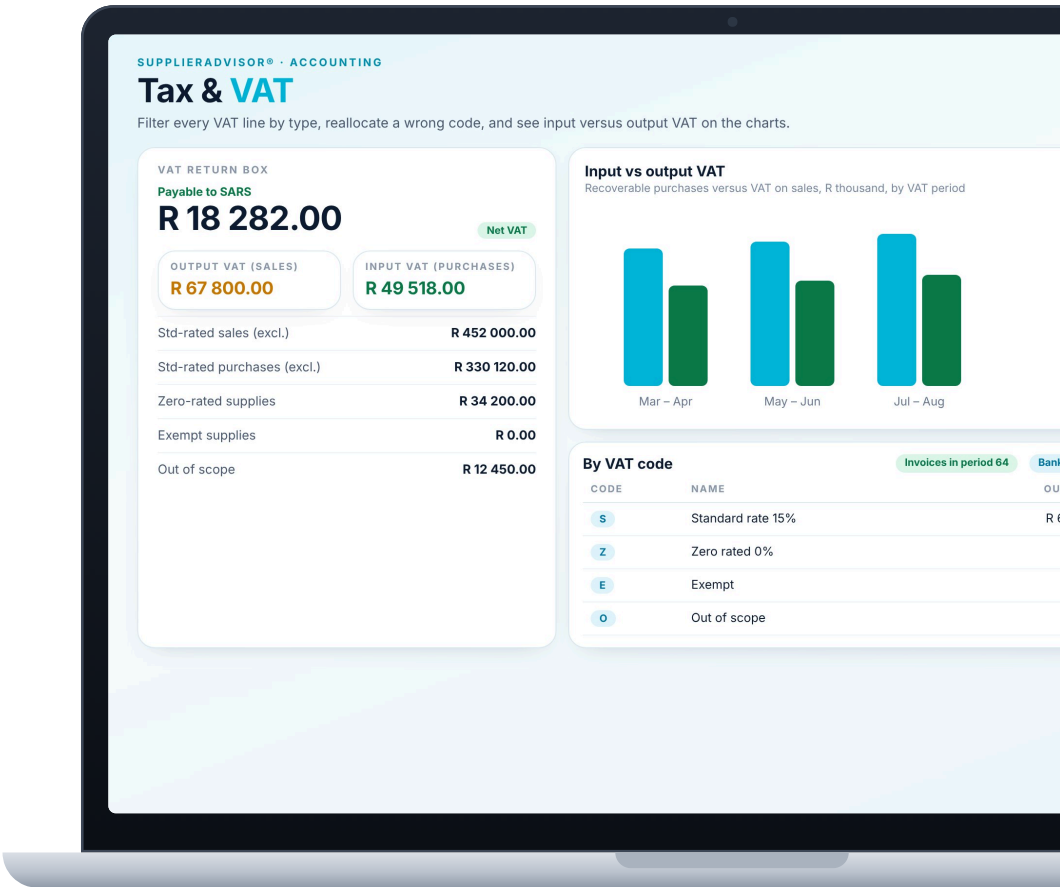

ILLUSTRATION · SAMPLE DATA

Year-end, *without the scramble.*

The statements come straight from posted journals, so they are ready when your accountant asks.

Profit or loss

Revenue through net profit, for any period, with comparatives.

Balance sheet

IAS 1 statement of financial position at the period end, with working capital.

Cash flow

IAS 7 direct method from the cash and bank ledger, with the reconciliation of profit to operating cash.

Annual financial statements

An IFRS-oriented AFS pack: financial position, profit or loss and OCI, changes in equity, cash flows, notes and policies.

Also in the box: trial balance, period locks, year-end close to retained earnings, IFRS 9 credit-loss allowance and multi-entity books. Statements are marked unaudited; your auditor signs off.

Illustration · sample data from a fictional company.

Sell more, *collect faster.*

Leads, quotes, orders and invoices sit on one customer record. Trade credit and overdue reminders keep cash moving, and SAM is on hand when you're stuck.

CRM with a 360° view

Leads, enquiries, quotes, orders, contracts, claims, loyalty and ratings for each customer.

Trade credit applications

From draft to approved or declined. Approval sets the customer's credit limit.

AR aging and reminders

From current to 90+ days, partial payments, and reminders by email or WhatsApp.

SAM assistant and insights

Rule-based insights with clear thresholds. SAM answers how-to questions and links to the right screen.

Trust you can *show*.

SupplierAdvisor® uses VerifyNow, a South African verification provider. You pay per check through Paystack, the check runs, and the badge and receipt are saved on the profile.

CIPC company match	Name, registration status, address and directors	R69
CIPC director search	Directors on record; VAT cross-check	R69
Director SA ID	Home Affairs check of a South African ID	R15
AML, PEP and sanctions	Screens a name against watch lists	R15
Company bank account	Account open, holder, accepts debits and credits	R50
Capitec Business / Mercantile	Business bank check by signed callback	R55
Supplier Bundle	Company + directors + AML/PEP + bank (list R203)	R169
Supplier Bundle, Capitec bank	As above with the Capitec check (list R208)	R179

Prices are VAT inclusive, per check. Personal checks (ID, AML/PEP) need recorded POPIA consent first.

Verified badges with their Paystack receipts on a company profile.

Two ways to move money, *both on the record.*

Paystack, in rand

- ✓ Subscriptions and prepaid terms
- ✓ VerifyNow checks, paid one at a time
- ✓ Invoice pay links that clients open in the industry apps
- ✓ Paystack's signature is checked before any action

Optional on-chain escrow

- ✓ Chosen per purchase order: send an escrow PO
- ✓ USDC, a dollar stablecoin, held by a smart contract
- ✓ The supplier is paid when the buyer confirms delivery
- ✓ Rand settlement stays the default for South African trade

THE ESCROW PURCHASE ORDER, IN FIVE STEPS

Buyer creates the PO

PO and amount

Buyer funds it

It works like a trust account run by code: every step leaves a tamper-evident record.

Your business, *on their home screen.*

Industry packs come with installable web apps (PWAs). No app store: open the link and add it to the home screen. Each one reads from the same company books.

TradeAdvisor®

Owner, technician and client apps. Clients follow the job, sign quotes and pay invoices.

GymAdvisor®

Member app: classes, progress and account.

Clinic packs

Patient apps to book, see the diary, and follow rehab, charts, records or pets.

RetailAdvisor®

Shoppers pay at the till by QR or tap on the SA Member app.

ApparelAdvisor®

A buyer app for wholesale ranges and available-to-sell stock.

Clients pay invoices in the app.

The TradeAdvisor® client app shows the statement balance and every invoice, and clients pay issued invoices in the app with Apple Pay, card or EFT through Paystack.

TradeAdvisor® client and owner apps · sample book, fictional business

Locked down *by design.*

Security is layered, so no single control carries the load. Every request passes each layer before it touches company data.

Edge and transport HTTPS, an enforced Content-Security-Policy and rate limits on sensitive APIs.

Identity Privy sign-in by email, Google, Apple or wallet. Every API call carries a verified token.

Tenancy Company membership is checked on the server, and every query is scoped to that company.

Role permissions Eight roles, from owner to sales contractor. Critical writes need named roles.

Database Row-level security on every table. Browser keys get no direct access.

Audit and monitoring Sensitive actions go to an activity log, with health checks for operations.

Built for POPIA

The Protection of Personal Information Act asks that personal data is processed lawfully, kept secure and seen only by the right people.

Consent

Personal checks will not run without recorded POPIA consent.

Need to know

Company-scoped data, a role matrix, and Finance limited to owner and finance roles.

Minimal exposure

Only a short list of public routes answers without sign-in.

Safeguards

Signed webhooks and share links, server-only keys, and rate limits.

Sector depth, *same core.*

Switch on a pack from Company → Modules for +R199 a month each. Government programmes are set up by administrators. Practice and trade fees stay with your business.

02

PART 2

CropAdvisor® *for farms and estates.*

The full showcase: the problems it solves, every feature, a day in the farm office, and what it costs.

Good seasons. *Messy* spreadsheets.

Most farm offices run the season in Excel, the fuel in a logbook and the supplier book on WhatsApp. CropAdvisor® puts the field, the season and the buyer on one system.

“There’s no shared field book across the farm office.”

THE FIX One field and agronomic register reused by estimates, harvest, inputs, fleet, labour and regen.

“Season plans and fleet costs are buried in Excel.”

THE FIX A harvest planner that projects cut dates, and fleet fuel and R/km per vehicle.

“Our supplier book is informal and POs get lost.”

THE FIX Verified suppliers and purchase orders on the SupplierAdvisor® core.

“We never score deliveries after harvest.”

THE FIX OTIFEFF on deliveries to mills, silos and verified buyers.

“Buyers ask for regen proof and we don’t have it.”

THE FIX Soil organic carbon, cover, moisture and water use by field.

“Our software only understands cane.”

THE FIX Multi-crop: cane, grain, oilseed, fruit and more on the same field book.

From the field book to *the buyer*, on one system.

CropAdvisor® is the primary-production OS inside SupplierAdvisor®: shared field and agronomic data, an estimate manager, a harvest planner and vehicle management, plus inputs, labour, regen and farm-to-buyer trade.

Core agri

Fields, estimates, harvest planner and vehicles.

Season ops

Inputs, labour and rates, and regen metrics.

Network

Trade to mills, silos and verified buyers, with OTIFE.

R199 /month

CropAdvisor® pack on top of the SupplierAdvisor® core plan

Multi-crop

Not cane-only: grain, oilseed, fruit and more

3 fleet KPIs

L/h, L/km and R/km

∞ users

Priced per company, so the whole farm office is included

Seven steps. *One* season record.

Every season runs on the same field record, from planting to the buyer's settlement.

One field book *for the whole farm.*

Core field information is the single source of truth for estimates, harvest planning, inputs, fleet, labour and regen. Variety, ratoon, irrigation, soil, plant date and mill group are reused automatically.

Every field

Farm, crop, variety and hectares.

Irrigation and soil

Recorded once, reused everywhere.

Multi-crop

Not cane-only.

Across seasons

Yield and quality per field.

FEATURE 02 · ESTIMATES

Estimates you can *stand behind.*

Create, revise and submit field-level estimates, with mill-group-style submissions and revision history. Pair them with actuals for yield graphs across seasons.

Field-level estimates

Create and revise per field.

Revision history

Every version kept.

Submissions

Mill-group-style submissions.

Estimate vs actual

Decision support within and across seasons.

The whole season's harvest, *dated.*

Given your cutting sequence, field estimates and daily allocation, CropAdvisor® calculates expected cut start and end dates for each field, for a mill, silo or buyer.

Cutting sequence

The order drives the projection.

Daily allocation

Tonnes per day for the season.

Cut start and end

A full-season harvest calendar.

Multi-crop destinations

Mill, silo or buyer.

FEATURE 04 · INPUTS

Know what went *on* every hectare.

Field applications with N-P-K per hectare for fertiliser, chemicals and seed, tracking cost and nutrient intensity for yield and regen decisions.

Applications

Fertiliser, chemicals and seed.

N-P-K per hectare

Nutrient intensity by field.

Cost per hectare

What each field costs to grow.

From verified suppliers

Purchase orders on the core.

Fuel, kilometres and *every gang's day.*

Key metrics per vehicle: fuel utilisation (L/h, L/km) and cost per kilometre (R/km). Register gangs with permanent, temporary and contractor rates and log daily field labour by gang and field.

Tractors, haulers, harvesters

With R/h, R/km and fuel price.

Fuel utilisation

L/h and L/km.

Gangs and rates

Permanent, temporary and contractor.

Pair with People

For full payroll on the core.

FEATURE 06 · REGEN METRICS

Proof for buyers, *not another spreadsheet.*

Soil organic carbon, cover, moisture and water use by field: proof for buyers and ESG packs, recorded on the same field book.

-  **Soil organic carbon**
By field and season.
-  **Cover**
Share of hectares covered.
-  **Moisture and water use**
Per field.
-  **ESG packs**
Evidence buyers can trust.

From harvest *to a verified buyer.*

Harvest destinations connect to mills, silos and verified buyers on the SupplierAdvisor® network, with OTIFEF, settlement and origin lots.

Mills, silos and buyers

Verified on the network.

OTIFEF

On-Time, In-Full, Error-Free deliveries.

Origin lots

From field to buyer.

Settle

Payment on the core.

The season *on one desk.*

Filter by season, crop, farm, mill group, field and employment type. Yield, harvest, fleet fuel, labour cost, inputs and regen on one report.

Yield by season and crop
And field detail.

Harvest plan
Sliced by filter.

Fleet and labour
Cost to date.

Inputs and regen
On the same page.

A Tuesday at Valley Farms.

An illustrative day with CropAdvisor®. Valley Farms is a fictional estate with cane, maize, soya and citrus across three farms.

- 06:00** ● **Farm manager**
Checks the harvest calendar: F-13 finishes cutting today and F-14 starts tomorrow.
- 07:00** ○ **Gangs**
Cutting gangs A and B are logged for the day against F-13.
- 09:00** ○ **Inputs**
LAN is applied on the maize. N-P-K per hectare and cost are recorded on F-21.
- 10:30** ○ **Estimates**
The maize estimate is revised to 612 t; the history keeps version 1.
- 12:00** ○ **Fleet**
Hauler HL-07 shows 0.61 L/km and R 16.40/km for the week.
- 14:00** ○ **Trade**
A cane delivery to the mill is scored On-Time and In-Full.
- 15:30** ○ **Regen**
Soil carbon results for six fields are added for the buyer's ESG pack.
- 17:00** ● **Owner**
The management report shows 84.2 t/ha and 53% of the season harvested.

Illustrative story. The business, people and amounts are fictional sample data, not a real customer.

From Excel and logbooks *to one system.*

	Before: Excel, logbooks, WhatsApp	With CropAdvisor®
Field book	✗ One spreadsheet per person	✓ A shared field and agronomic register
Estimates	✗ Emailed versions	✓ Revisions with history and submissions
Harvest plan	✗ A wall chart	✓ Projected cut dates per field
Inputs	✗ Invoices in a file	✓ N-P-K and cost per hectare
Fleet	✗ A fuel logbook	✓ L/h, L/km and R/km
Labour	✗ Gang sheets	✓ Daily labour by gang and field
Regen	✗ Lab PDFs	✓ Soil carbon, cover and water by field
Buyers	✗ Phone calls	✓ Verified buyers with OTIFEF and origin lots

Built for South African farms, *on a real business system.*

Cane software stops at the mill. CropAdvisor® is multi-crop and runs your field book, season, fleet, buyers and books on SupplierAdvisor®.

Real accounting underneath

Bank matching, VAT and financial statements on the core.

Multi-crop

Cane, grain, oilseed, fruit and more.

Harvest planner

Projected cut dates for the season.

Fleet KPIs

L/h, L/km and R/km.

Regen metrics

Proof for buyers and ESG packs.

Verified buyers

Mills, silos and buyers on the network.

OTIFEF

Scored deliveries after harvest.

Priced per company

Unlimited users. The whole farm office is included.

See it on your own data.

CROPADVISOR® INDUSTRY PACK

+R199

 /month

On top of the core plan. Prepaid terms discount the pack by the same percentage.

Together: R498 a month

That is about R16.60 a day for the whole company, with no per-seat fees.

30-day free trial · no card

What R199 a month replaces

- ✓ The field-book spreadsheet
- ✓ Emailed estimate versions
- ✓ A harvest wall chart
- ✓ The fuel logbook
- ✓ Gang sheets
- ✓ Regen results in PDFs
- ✓ An informal supplier book

VerifyNow checks are paid per check (R15 to R179, VAT inclusive) and are not part of the subscription. Prices from www.supplieradvisor.com/pricing, October 2026.

Try both free for 30 days.

Full access to SupplierAdvisor® and CropAdvisor®. No card needed to start.

Start your 30-day free trial →

Good questions, *straight answers.*

Book a demo 

Start free trial →

Q Is it only for sugarcane?

No. CropAdvisor® is multi-crop: cane, grain, oilseed, fruit and more on the same field book.

Q Can we submit estimates?

Yes. Create, revise and submit field-level estimates, with mill-group-style submissions and revision history.

Q Can we record regen data?

Yes. Soil organic carbon, cover, moisture and water use by field.

Q Does it do payroll?

Labour and rates log daily field labour by gang. Pair it with People on the core for full payroll.

Q Do I need SupplierAdvisor® as well?

Yes. CropAdvisor® is an industry pack on the SupplierAdvisor® core plan, which also gives you accounting, suppliers, inventory and SAM.

Q How does the harvest planner work?

It walks your cutting sequence: each field's estimate tonnes ÷ daily allocation = days on cut, giving a full-season calendar.

Q Which fleet metrics are there?

Fuel utilisation in L/h and L/km, and cost per kilometre in R/km, per vehicle.

Q Who can we sell to?

Mills, silos and verified buyers on the SupplierAdvisor® network, with OTIFEF, settlement and origin lots.

Q Is there a mobile app?

CropAdvisor® runs in the browser on the SupplierAdvisor® workspace.

Q Is our data safe?

Every API call checks your sign-in and company role on the server, and the database refuses direct browser access.

Your next season: planned, harvested and *sold*, on one system.

Start a 30-day free trial with full access, no card needed. Switch on CropAdvisor® from Company → Modules and load your first field today.
