One platform to *run and grow* your business.

SupplierAdvisor® is the supply-chain operating system with a verified trade and trust layer. Suppliers, customers, orders, stock, money and compliance live in one company workspace, with counterparties you can check and score.

B2B

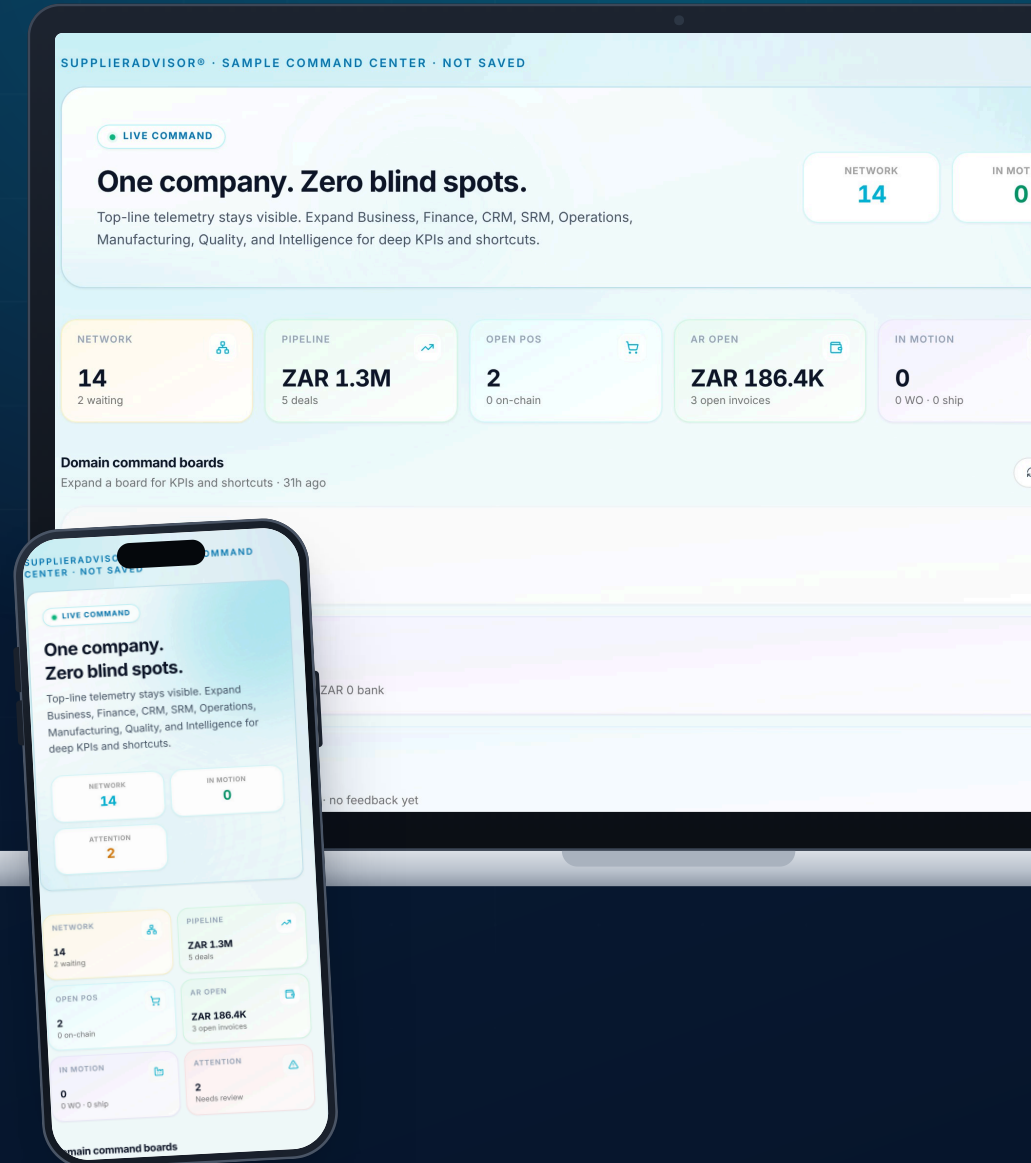

Manufacturers, distributors, brands and trades

B2G

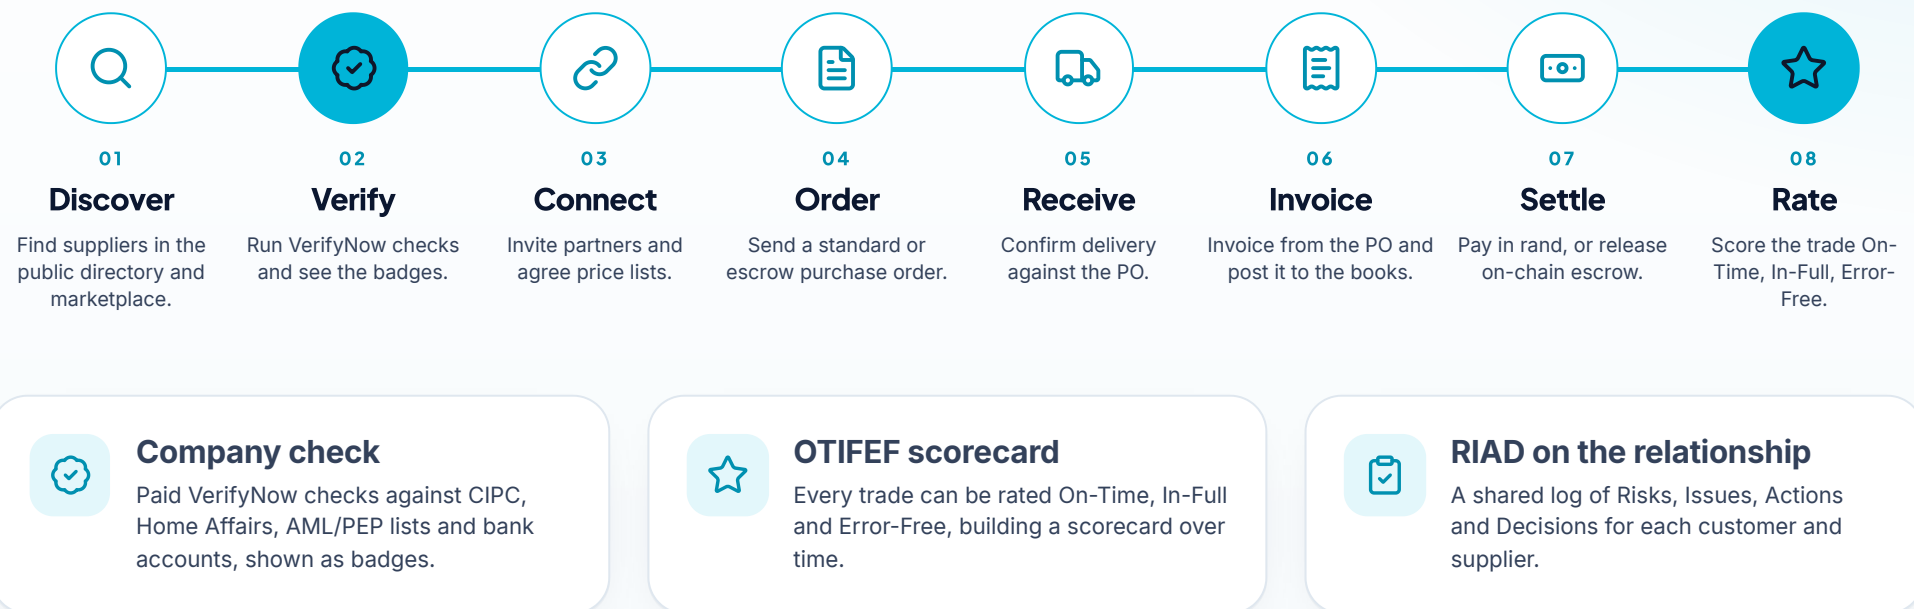

Government programmes with audit-ready packs

B2C

Industry apps, storefronts and tills

The whole trade loop on one workspace, *with trust built in.*

Everything a company needs, *in every plan.*

Every company gets the same core operating system on the base plan. It's priced per company, not per seat, so the whole team is in.

Profile and verification

A company profile buyers trust, with VerifyNow badges, team roles and several workspaces under one login.

Network and connections

Invite the partners you trade with, agree price lists, and earn referral fees on their subscriptions.

Suppliers and marketplace

A supplier book with dossiers, contracts, ratings and RIAD, plus a public directory and marketplace.

Purchase orders and escrow

Standard or escrow POs, a buyer portal, and an inbound inbox where sellers accept or decline.

Inventory

Raw materials, finished goods, lots, warehouses, transfers, counts, scanning and GS1 data.

Accounting and finance

Bank reconciliation, live management accounts, VAT, P&L, balance sheet, cash flow and AFS.

Customers and credit

Leads, quotes, orders and invoices, credit applications, AR aging and reminders.

SHEQ and quality

QA inspections, holds and release, OH&S and NCR/CAPA on the same books.

Intelligence and SAM

Pulse insights, scorecards and forecasts, and SAM, the assistant that shows you how.

Buy from suppliers *you can prove.*

Find suppliers in the public directory, check their badges and ratings, then send a purchase order from their catalogue. They accept it in their inbound inbox, and you track it to delivery.

Directory and marketplace

Search by industry, city and country, shortlist suppliers and open a full profile dossier.

Supplier book (SRM)

Documents, contracts, performance, ratings and the RIAD log in one place.

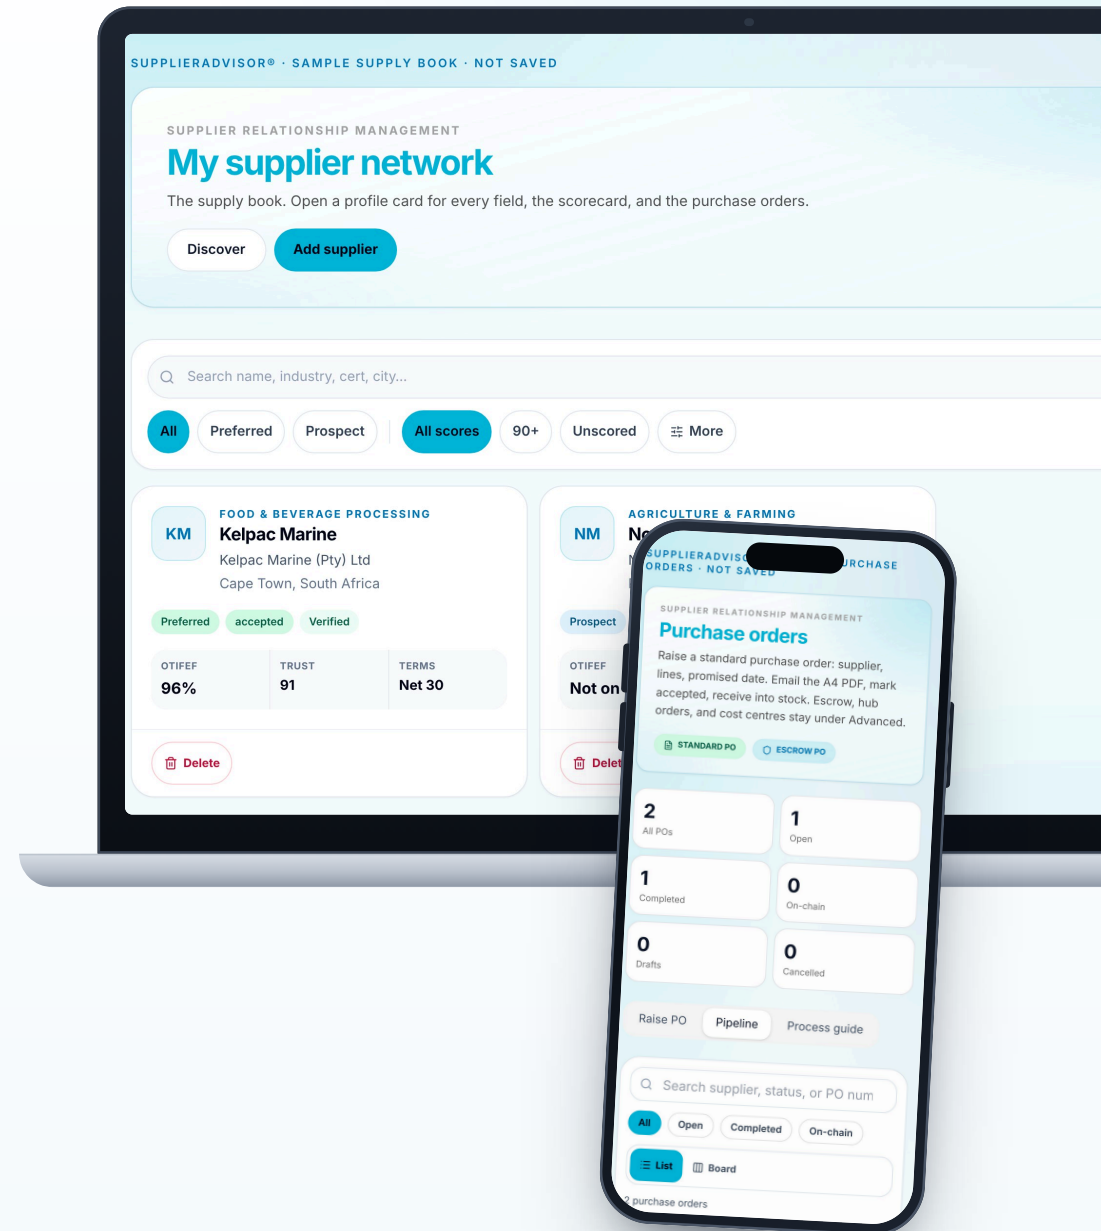

Standard or escrow PO

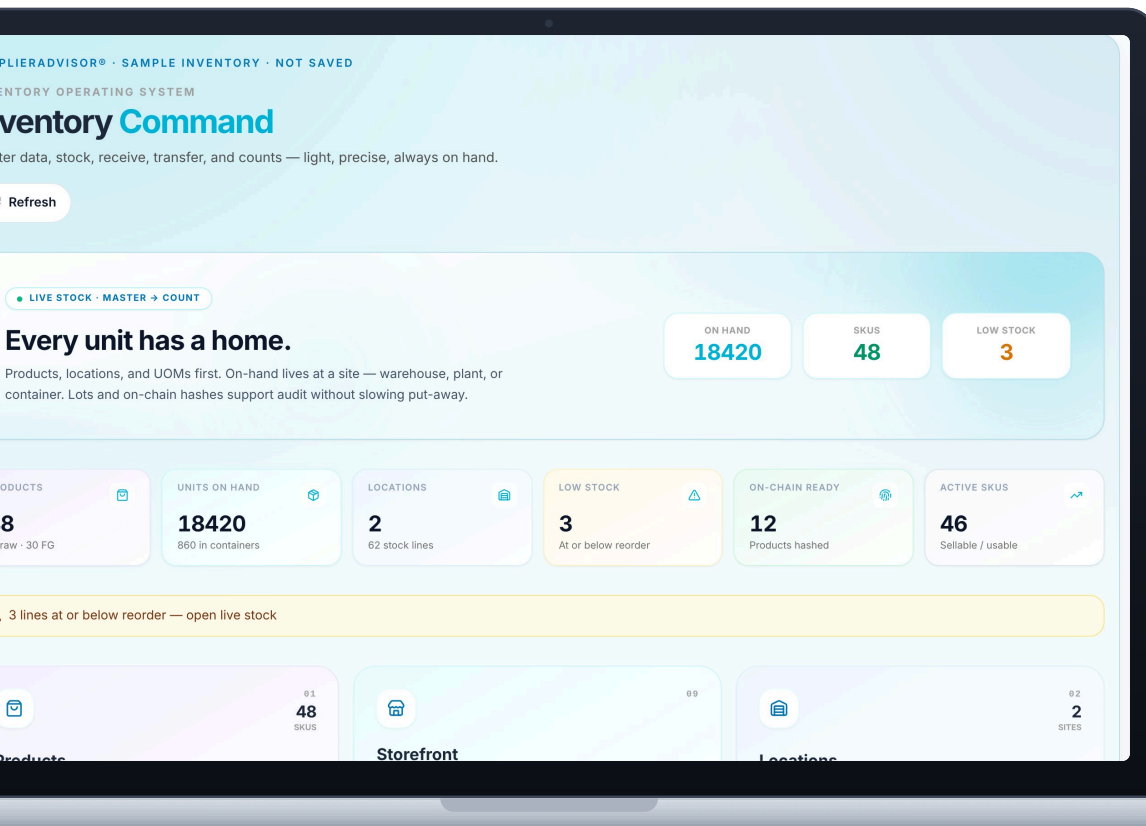

Lines from the supplier's catalogue or agreed price list, with a promised date.

Email and push alerts

Inbound, accepted, invoiced and fulfilment events reach the right people.

INVENTORY

Stock that *follows the trade.*

Goods land in warehouses by lot when a purchase order is received, and move out on sales, transfers and production. Every movement has a place in the books.

Inventory by lot and warehouse

Products, locations and units first, then on-hand by site, lot and container.

Counts and scanning

Transfers, stock takes, cycle counts, barcode scanning, EDI and GS1 helpers.

Purchase orders to stock

Receive against the PO, and the supplier invoice posts to accounts payable.

Cost of sales in the ledger

Stock costs flow to cost of sales, so gross profit in the reports is real.

Know your numbers *today, not at month-end.*

Sales, purchases, stock and the bank all post to one general ledger, so the management accounts are live for any period you pick: revenue through gross profit to operating profit, with the bank beside it.

Bank and reconciliation

Live management reports

VAT and the VAT return

Financial statements

- ✓ Period P&L bridge, expense mix and budget vs actual
- ✓ Ratios: margins, current and quick ratio, debt to equity, ROA and ROE
- ✓ Forecasts, AR and AP aging, and a management cash flow against budget
- ✓ One click to a management pack PDF for the board or the bank

SUPPLIERADVISOR® · ACCOUNTING

Management accounts

Period P&L from posted journals, live for any period you pick. Budget vs actual appears when a 12-month budget exists. Download the management pack as a PDF.

BANK INTEGRATION AND RECONCILIATION

The bank, *coded for you.*

SupplierAdvisor® is connected with FNB. FNB transactions and imported statement lines land in one allocation queue.

Proposals learn from how you post journals and VAT, then you post or change the account.

Statement import

Bring in bank statements as PDF, CSV or OFX, for as many accounts as you run.

Auto-match

Scores unallocated lines against open invoices, bills and your rules.

Settle AR and AP in one step

A matched receipt or payment clears the invoice and posts to the ledger.

Bank vs ledger, always visible

Set statement balances any time and see what is still unallocated.

Connected with FNB

FNB transactions come into the same allocation queue, ready to reconcile.

CONNECTED BANKS

FNB

● **Connected**

Other banks to follow. Until then, import statements.

PAYMENTS IN

Apple Pay

● **Live**

Clients pay issued invoices through Paystack.

VAT you can *stand* behind.

Invoices, bills and bank lines carry a South African VAT code, so the VAT return box builds itself for the period you choose: output VAT, input VAT and the amount payable to SARS or the refund due.

- South African VAT codes**
Standard rate 15%, zero-rated, exempt and out of scope, set up for you.
- VAT return box**
Standard-rated sales and purchases, zero-rated and exempt supplies, and net VAT: the figures for your VAT201.
- Find and fix wrong codes**
Filter every VAT line by type and reallocate a wrong code before you file.
- Submit the VAT201 to SARS eFiling**

LAUNCHING SOON

File the return from SupplierAdvisor®.

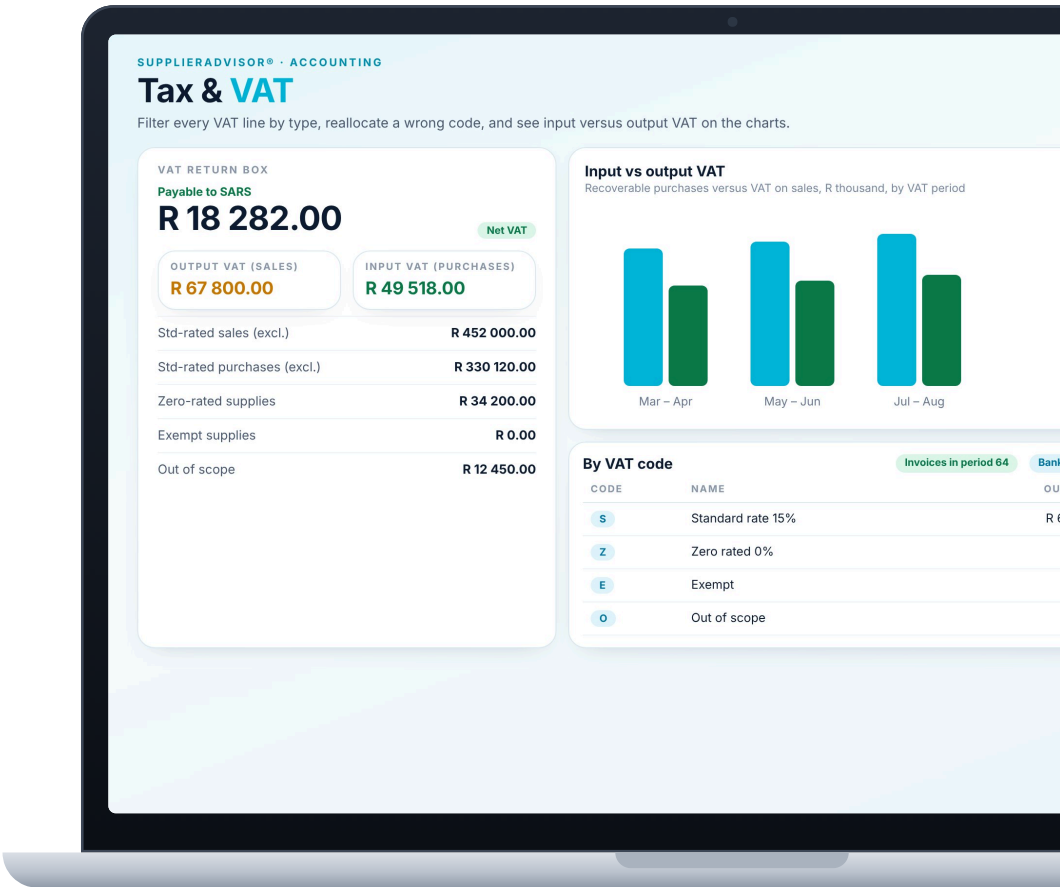

ILLUSTRATION · SAMPLE DATA

Year-end, *without the scramble.*

The statements come straight from posted journals, so they are ready when your accountant asks.

Profit or loss

Revenue through net profit, for any period, with comparatives.

Balance sheet

IAS 1 statement of financial position at the period end, with working capital.

Cash flow

IAS 7 direct method from the cash and bank ledger, with the reconciliation of profit to operating cash.

Annual financial statements

An IFRS-oriented AFS pack: financial position, profit or loss and OCI, changes in equity, cash flows, notes and policies.

Also in the box: trial balance, period locks, year-end close to retained earnings, IFRS 9 credit-loss allowance and multi-entity books. Statements are marked unaudited; your auditor signs off.

ILLUSTRATION · SAMPLE DATA

Sell more, *collect faster.*

Leads, quotes, orders and invoices sit on one customer record. Trade credit and overdue reminders keep cash moving, and SAM is on hand when you're stuck.

CRM with a 360° view

Leads, enquiries, quotes, orders, contracts, claims, loyalty and ratings for each customer.

Trade credit applications

From draft to approved or declined. Approval sets the customer's credit limit.

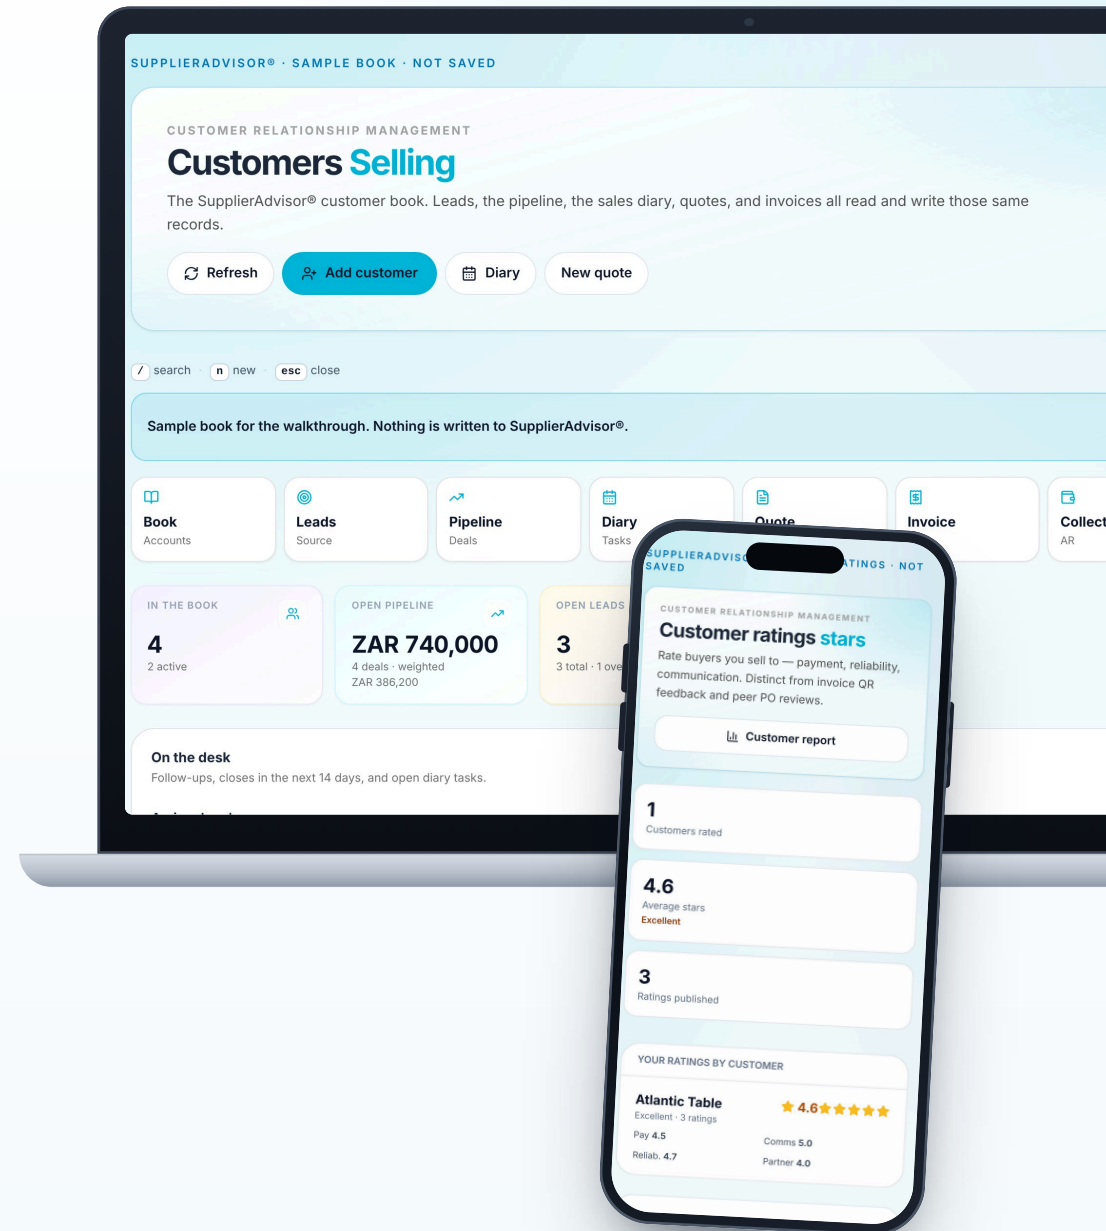

AR aging and reminders

From current to 90+ days, partial payments, and reminders by email or WhatsApp.

SAM assistant and insights

Rule-based insights with clear thresholds. SAM answers how-to questions and links to the right screen.

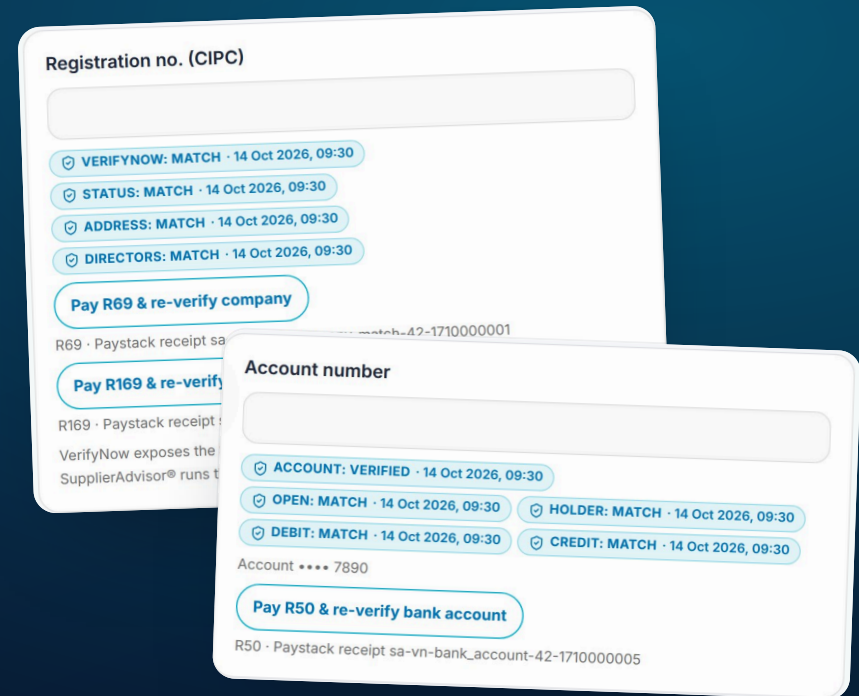

Trust you can *show*.

SupplierAdvisor® uses VerifyNow, a South African verification provider. You pay per check through Paystack, the check runs, and the badge and receipt are saved on the profile.

CIPC company match	Name, registration status, address and directors	R69
CIPC director search	Directors on record; VAT cross-check	R69
Director SA ID	Home Affairs check of a South African ID	R15
AML, PEP and sanctions	Screens a name against watch lists	R15
Company bank account	Account open, holder, accepts debits and credits	R50
Capitec Business / Mercantile	Business bank check by signed callback	R55
Supplier Bundle	Company + directors + AML/PEP + bank (list R203)	R169
Supplier Bundle, Capitec bank	As above with the Capitec check (list R208)	R179

Prices are VAT inclusive, per check. Personal checks (ID, AML/PEP) need recorded POPIA consent first.

Verified badges with their Paystack receipts on a company profile.

Two ways to move money, *both on the record.*

Paystack, in rand

- ✓ Subscriptions and prepaid terms
- ✓ VerifyNow checks, paid one at a time
- ✓ Invoice pay links that clients open in the industry apps
- ✓ Paystack's signature is checked before any action

Optional on-chain escrow

- ✓ Chosen per purchase order: send an escrow PO
- ✓ USDC, a dollar stablecoin, held by a smart contract
- ✓ The supplier is paid when the buyer confirms delivery
- ✓ Rand settlement stays the default for South African trade

THE ESCROW PURCHASE ORDER, IN FIVE STEPS

Buyer creates the PO

It works like a trust account run by code: every step leaves a tamper-evident record.

Your business, *on their home screen.*

Industry packs come with installable web apps (PWAs). No app store: open the link and add it to the home screen. Each one reads from the same company books.

TradeAdvisor®

Owner, technician and client apps. Clients follow the job, sign quotes and pay invoices.

GymAdvisor®

Member app: classes, progress and account.

Clinic packs

Patient apps to book, see the diary, and follow rehab, charts, records or pets.

RetailAdvisor®

Shoppers pay at the till by QR or tap on the SA Member app.

ApparelAdvisor®

A buyer app for wholesale ranges and available-to-sell stock.

ConstructionAdvisor®

Owner, workers and client apps. Clients follow the plan and certified payments.

FleetAdvisor®

Owner desk in the browser today; installable owner, driver and customer apps are launching soon.

Clients pay invoices in the app.

The TradeAdvisor® client app shows the statement balance and every invoice, and clients pay issued invoices in the app with Apple Pay, card or EFT through Paystack.

TradeAdvisor® client and owner apps · sample book, fictional business

Locked down *by design.*

Security is layered, so no single control carries the load. Every request passes each layer before it touches company data.

Edge and transport HTTPS, an enforced Content-Security-Policy and rate limits on sensitive APIs.

Identity Privy sign-in by email, Google, Apple or wallet. Every API call carries a verified token.

Tenancy Company membership is checked on the server, and every query is scoped to that company.

Role permissions Eight roles, from owner to sales contractor. Critical writes need named roles.

Database Row-level security on every table. Browser keys get no direct access.

Audit and monitoring Sensitive actions go to an activity log, with health checks for operations.

Built for POPIA

The Protection of Personal Information Act asks that personal data is processed lawfully, kept secure and seen only by the right people.

Consent

Personal checks will not run without recorded POPIA consent.

Need to know

Company-scoped data, a role matrix, and Finance limited to owner and finance roles.

Minimal exposure

Only a short list of public routes answers without sign-in.

Safeguards

Signed webhooks and share links, server-only keys, and rate limits.

Sector depth, *same core.*

Switch on a pack from Company → Modules for +R199 a month each. Government programmes are set up by administrators. Practice and trade fees stay with your business.

02

PART 2

FleetAdvisor® *for fleets.*

The full showcase: the problems it solves, the owner desk, every feature that is live today, what is launching soon, and what it costs.

Trucks on the road.

Costs in the dark.

Most fleets keep the register in one spreadsheet, the licence disc dates in a diary and the fuel slips in a drawer. FleetAdvisor® puts vehicles, drivers, jobs and cost per kilometre on one system.

“Licence discs and driver dates live in a diary.”

THE FIX An expiry date on every vehicle and driver, with due badges on the Command desk.

“We don’t know what a kilometre really costs us.”

THE FIX A cost-per-kilometre engine: running, standing, capital and overhead into one headline figure.

“What rate do we quote to break even?”

THE FIX Breakeven per loaded kilometre, and the required rate at your own margin.

“Jobs sit in WhatsApp messages.”

THE FIX A job list with customer, stops, cargo, vehicle and driver.

“Fuel slips never get captured against the truck.”

THE FIX A cost ledger per vehicle: fuel with litres and odometer, tolls, maintenance and tyres.

“Everyone can see everything.”

THE FIX Role views: dispatchers work the register and jobs and never see costs.

From the register to *cost per km*, on one system.

FleetAdvisor® is the fleet and transport desk inside SupplierAdvisor®: register vehicles and drivers, watch expiry dates, hold jobs and stops, and see your own cost per kilometre, target and breakeven rate from your own entries.

Register

Vehicles, drivers and the dates that matter.

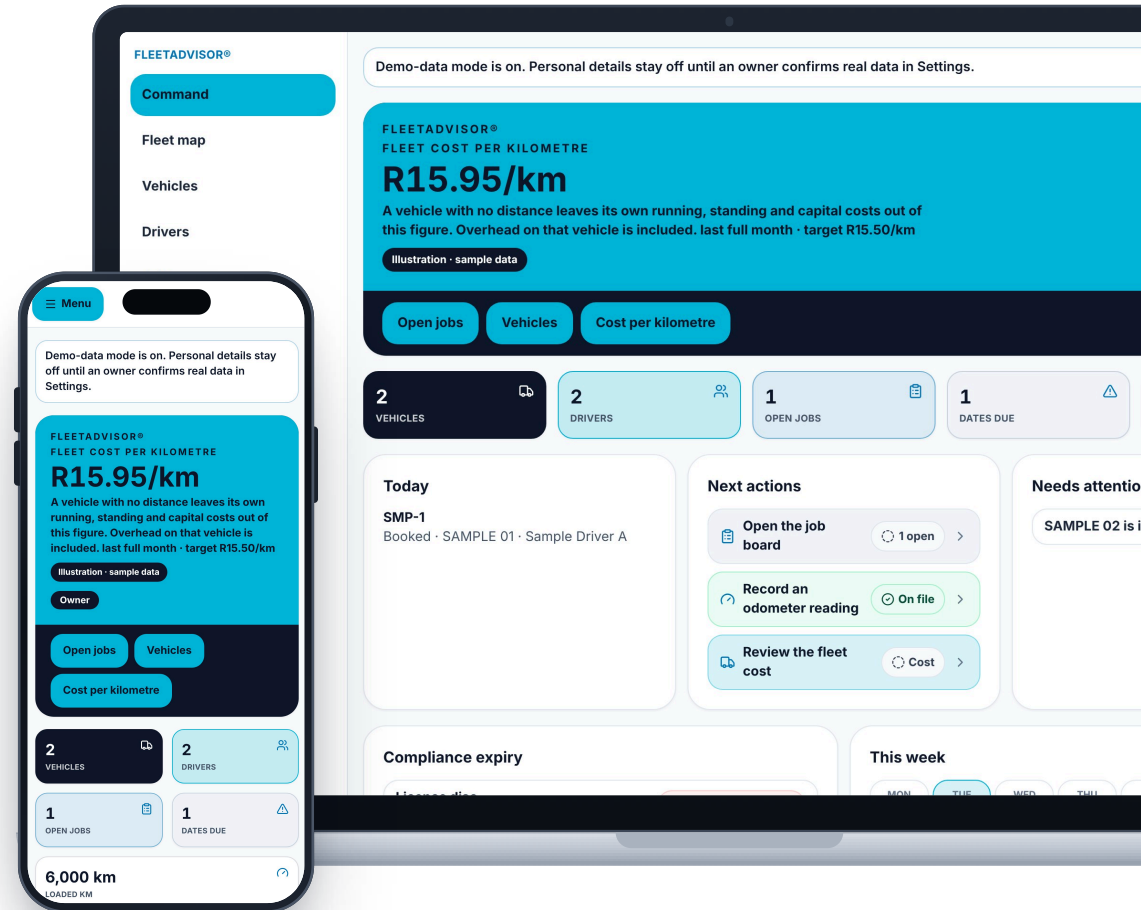

Work

Jobs with customer, stops, cargo, vehicle and driver.

Cost

Odometer, cost profiles and the CPK engine.

R199 /month

FleetAdvisor® pack on top of the SupplierAdvisor® core plan

7 desk screens

Command, Fleet map, Vehicles, Drivers, Jobs, CPK and Settings

4 cost layers

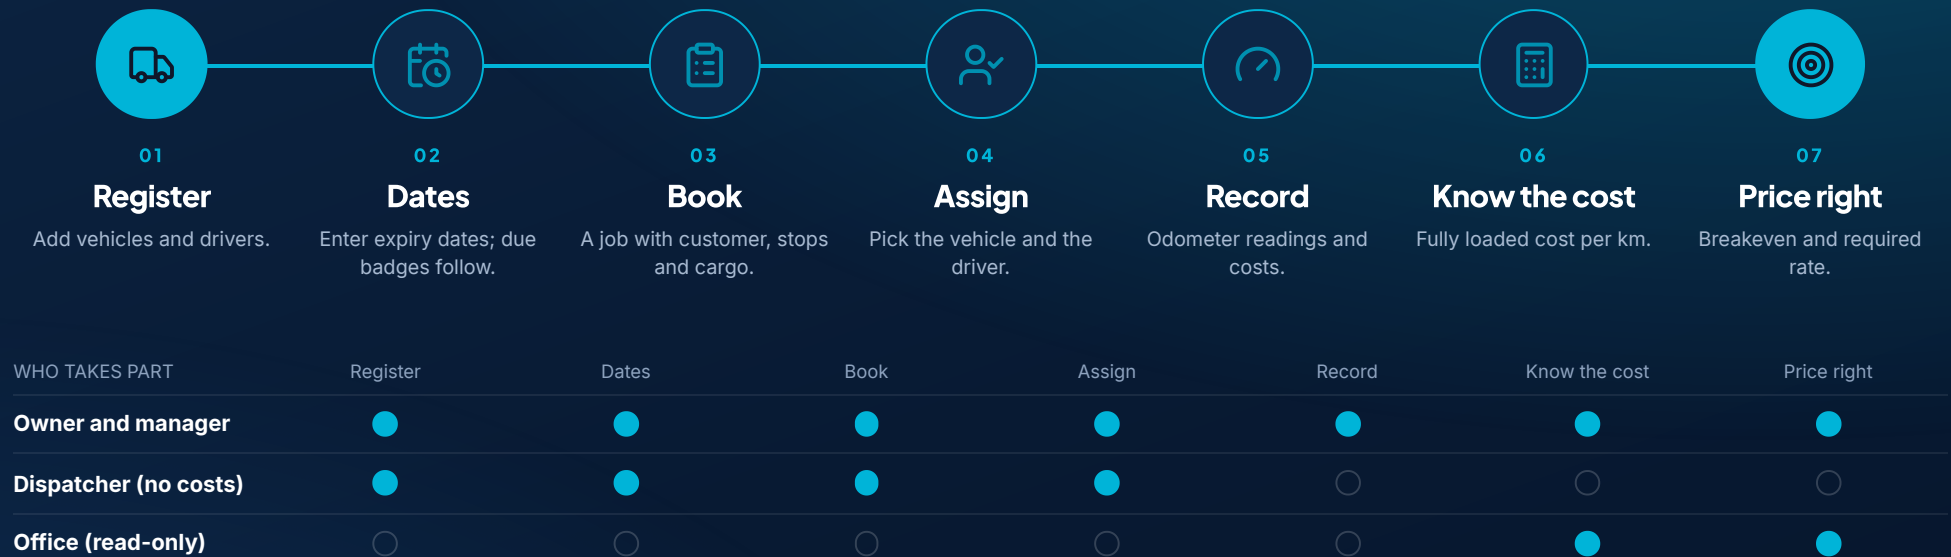

Running, standing, capital and overhead

∞ users

Priced per company, so every dispatcher is included

Seven steps. *One* fleet record.

Every vehicle, driver and job lives on the same record. The owner, the dispatcher and the office each see their part, from the role they hold in SupplierAdvisor®.

Your fleet, *on one screen.*

Command opens on cost per kilometre: the fleet figure, your target and what needs doing today. Due badges, next actions, a weekly strip and setup progress come from rows already in your book.

Cost per km, up top

The fleet headline for the last full month, with your target beside it.

Due badges

Licence discs, PrDPs and other dates, expired or expiring in the window you set.

Next actions and needs attention

Open the job list, record an odometer reading, review the fleet cost. Workshop vehicles and jobs without stops are listed.

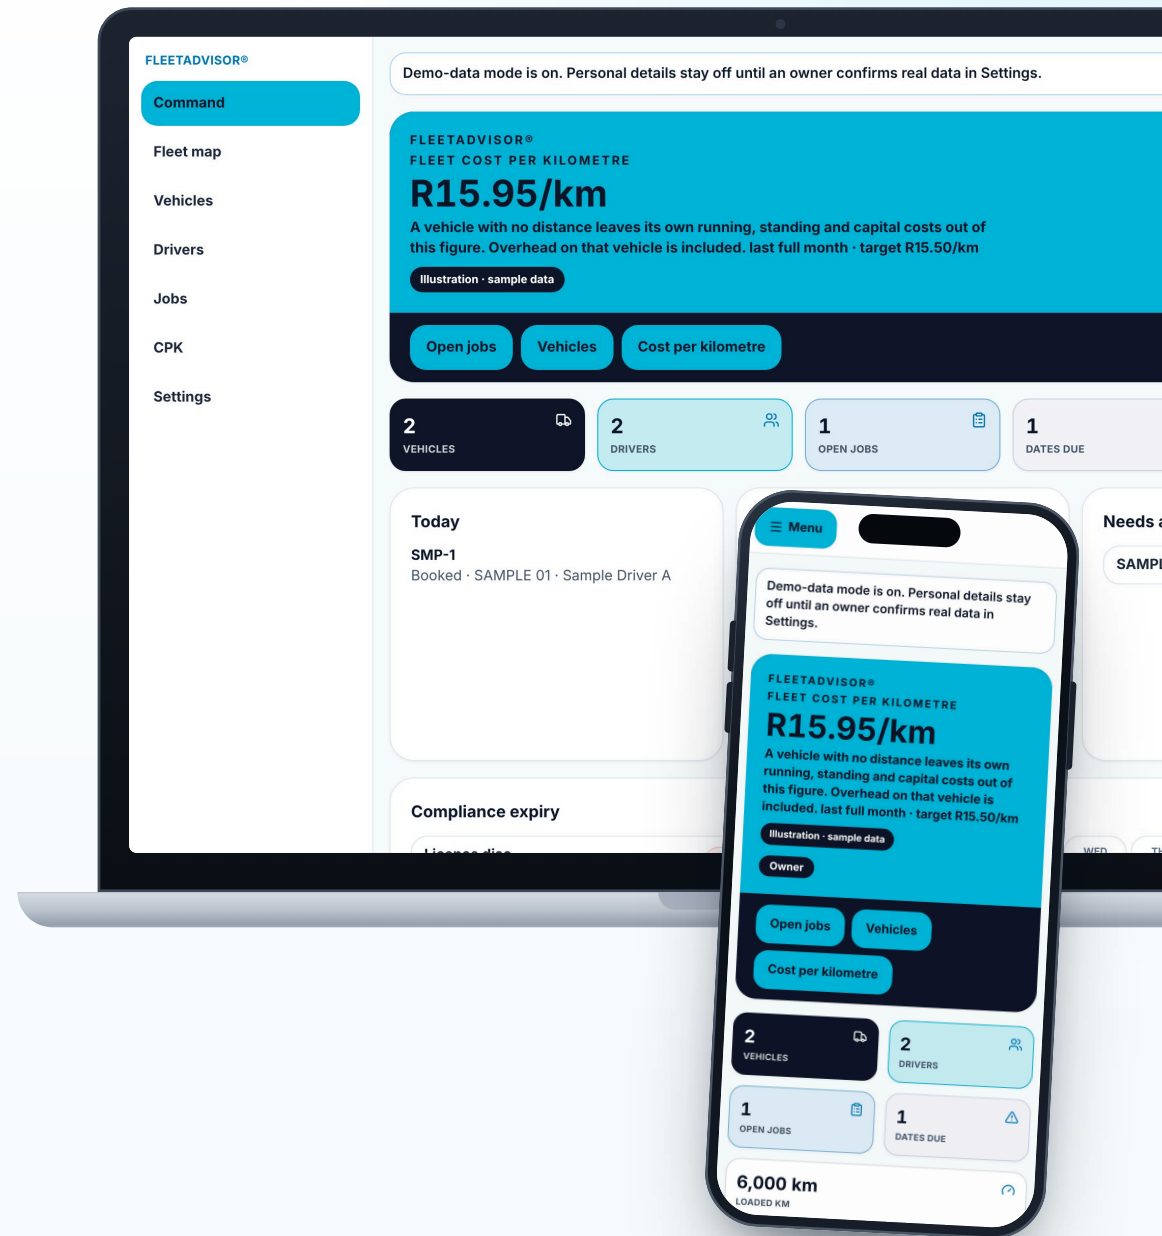

Weekly strip and setup progress

Job windows and expiry dates on the week, and a seven-step setup checklist.

In the core sidebar

One expandable FleetAdvisor® group on desktop, and a menu on mobile.

One register, *every date on it.*

Each vehicle has a registration, kind, status, ownership and last odometer. Expiry dates show as expired, expiring or valid. FleetAdvisor® records the dates you enter and warns you; it never tells you a vehicle is legal.

Vehicle register

Rigid, tractor, trailer, tipper or van; owned, leased or subcontractor.

Expiry dates

Licence disc, roadworthy, operator card, insurance and permits.

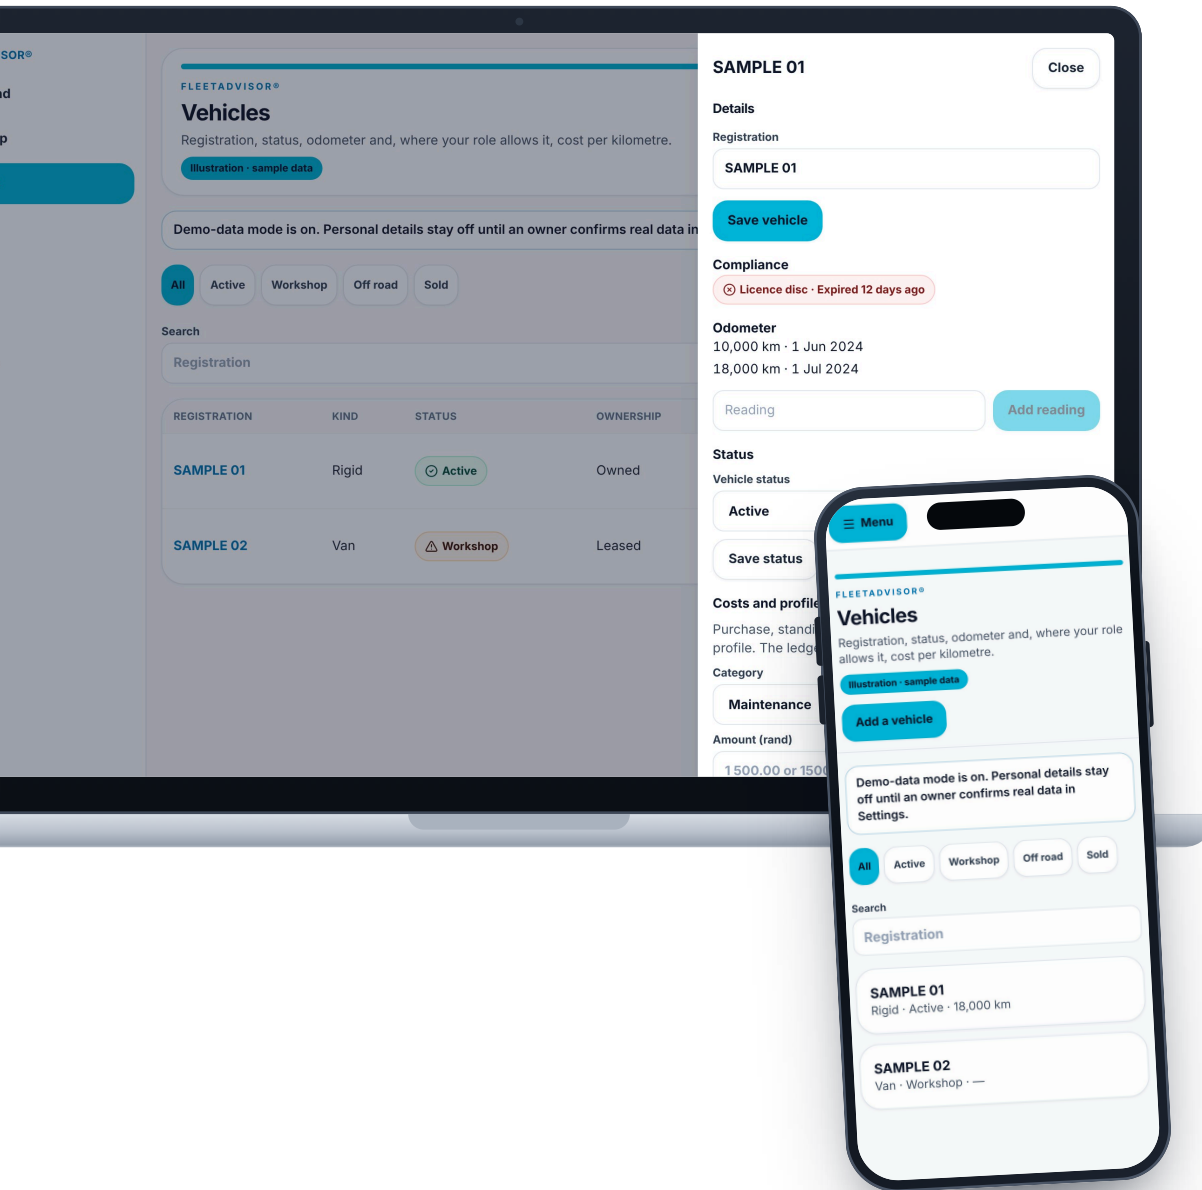

Valid, expiring, expired

Worked out in South African time from the date you enter.

Status and audit

Active, workshop, off road or sold. Each status change is recorded.

Every kilometre and rand, *against the truck.*

Add odometer readings and cost entries to each vehicle. A cost profile holds purchase price, life, finance, insurance, licences, tracker and driver cost, so standing and capital costs accrue without a slip.

Odometer readings

A history per vehicle. A reading that goes backwards is left out and flagged.

Fuel, tolls, maintenance and tyres

One ledger per vehicle. Fuel carries litres, the odometer and full tank.

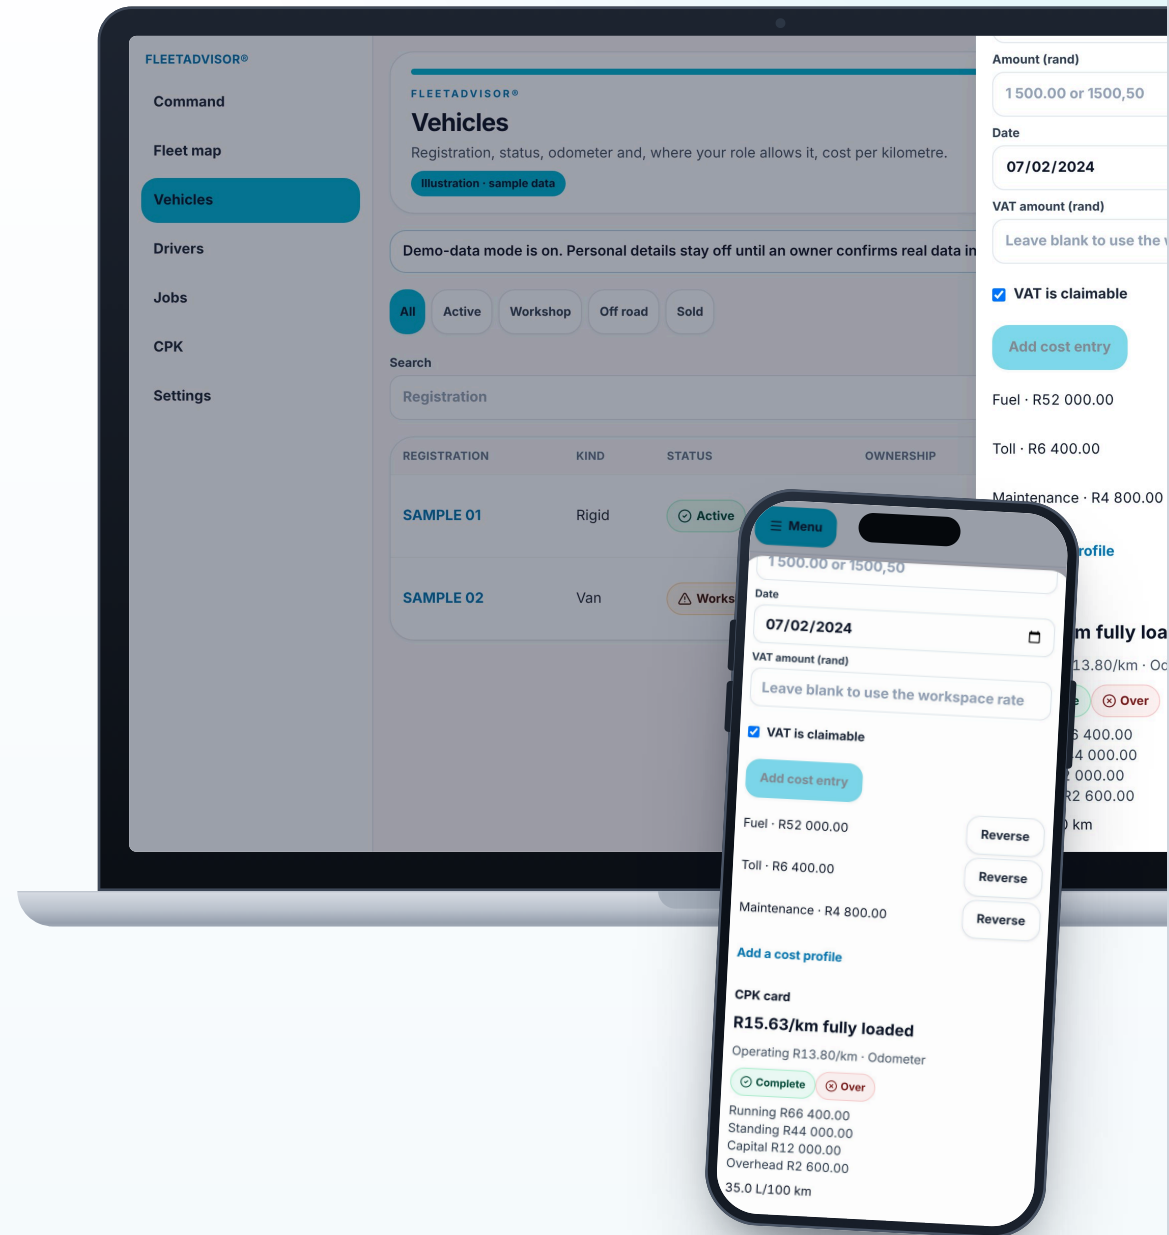

VAT, claimable or not

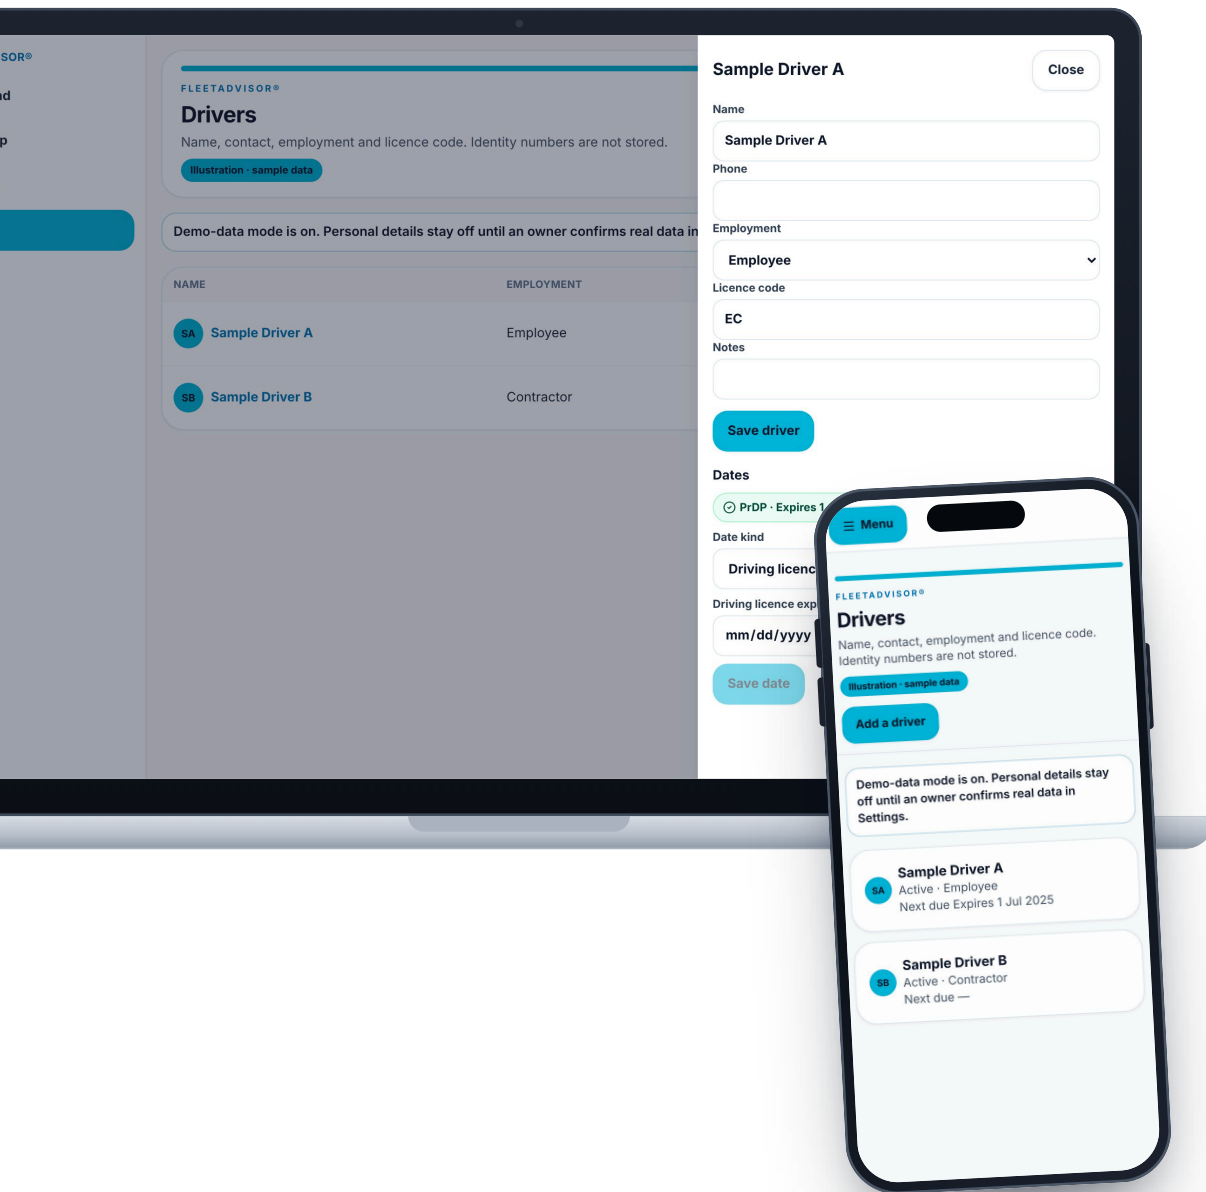

Claimable VAT stays out of the cost. Leave VAT blank to use the workspace rate, 15% unless you change it.

Reverse, never delete

A wrong entry is reversed with a new row, so the ledger keeps its history.

FEATURE 04 · DRIVERS AND DATES

Drivers on file, *dates* on the desk.

A driver record holds name, phone, email, employment, licence code and status. Licence, PrDP with its category, medical and induction dates carry the same due badges. FleetAdvisor® stores no ID, passport or licence numbers.

Driver register

Employee, contractor or owner-operator; active, on leave or inactive.

Dates that matter

Driving licence, PrDP with category, medical and induction.

No identity numbers

Name, contact, licence code and dates only, in line with POPIA.

Personal details stay off

Demo-data mode keeps contact details out until an owner confirms real data.

A job has a customer, *stops and cargo*.

Create a job for a customer from your own customer book, add pickup, delivery and via stops, then pick a vehicle and a driver. Dispatch board and proof of delivery are launching soon.

Customer from your book

Pick a SupplierAdvisor® customer, or add one on the job.

Stops in order

Pickup, delivery and via stops, moved up or down.

Cargo and flags

Cargo, weight, dangerous goods, abnormal load and cross-border.

Vehicle and driver

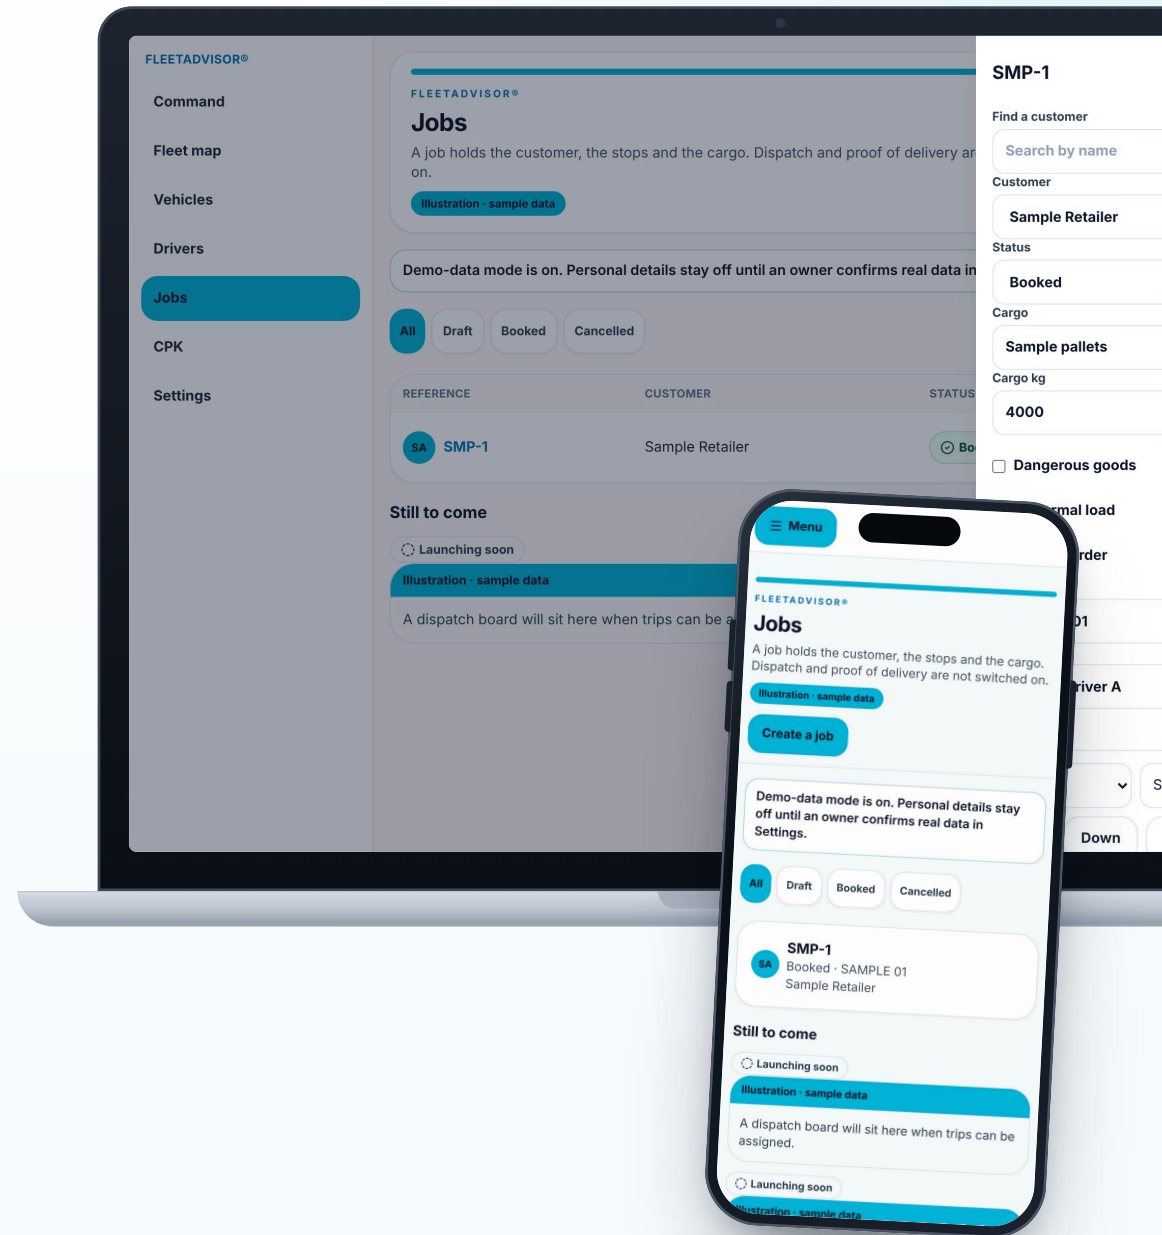

Assign them on the job. A price shows only to roles that may see prices.

Dispatch board and proof of delivery

LAUNCHING SOON

A day and week board, waybills and signed proof.

Your real cost per km, *from your own entries.*

The CPK page turns odometer readings, cost entries, profiles and overhead into one fully loaded rand-per-kilometre figure, a per-vehicle table and a target you set. No outside benchmark.

Four cost layers

Running, standing, capital and overhead.

Pick the period

Month to date, last full month or trailing days.

Target and breakeven

Your own R/km target, the variance, breakeven per loaded km and the required rate.

Completeness, not guesses

A partial figure names what is missing. "Not enough data" says what to add next.

HOW THE HEADLINE IS BUILT

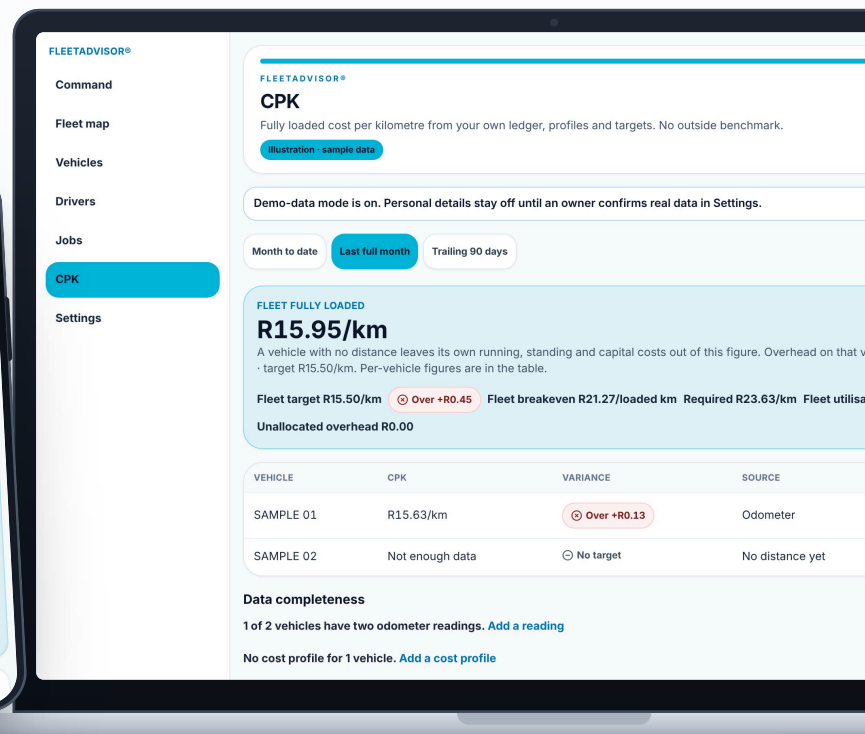

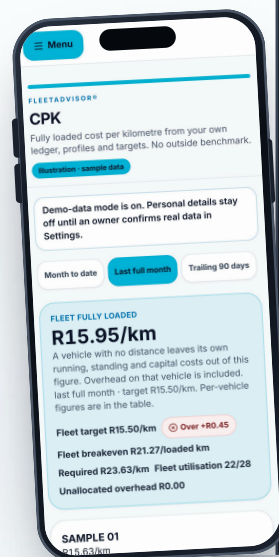

ILLUSTRATION · SAMPLE DATA

R15.95/km fully loaded · target R15.50 · over by R0.45

Running R8.30/km
Standing R5.50/km
Capital R1.50/km
Overhead R0.65/km

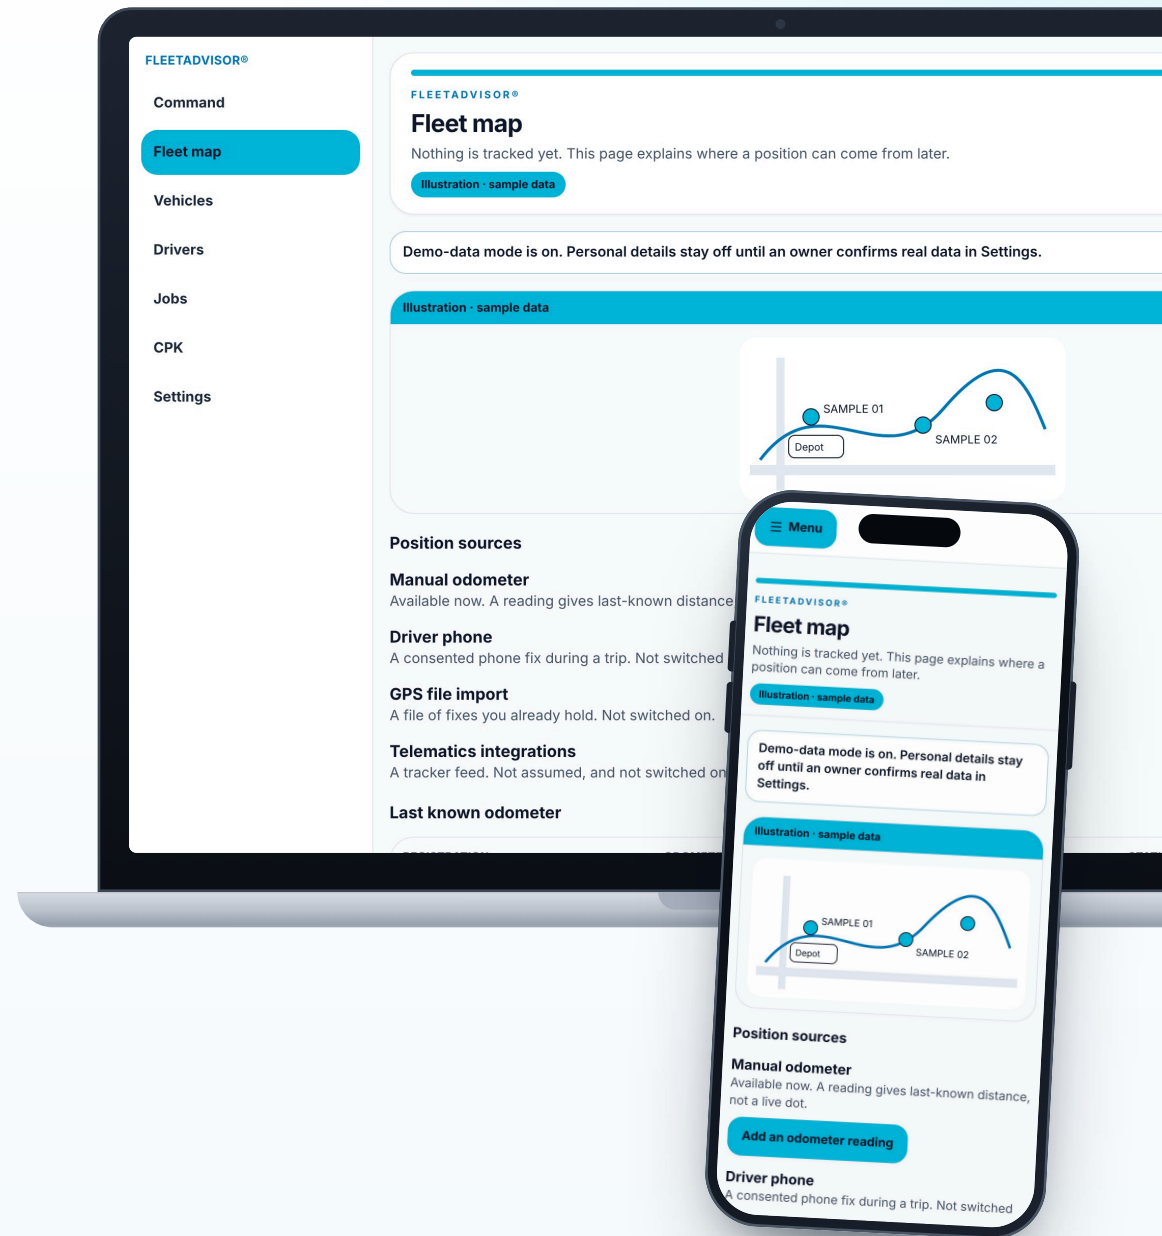

Breakeven R21.27 per loaded km · required rate R23.63 per km at a 10% margin.

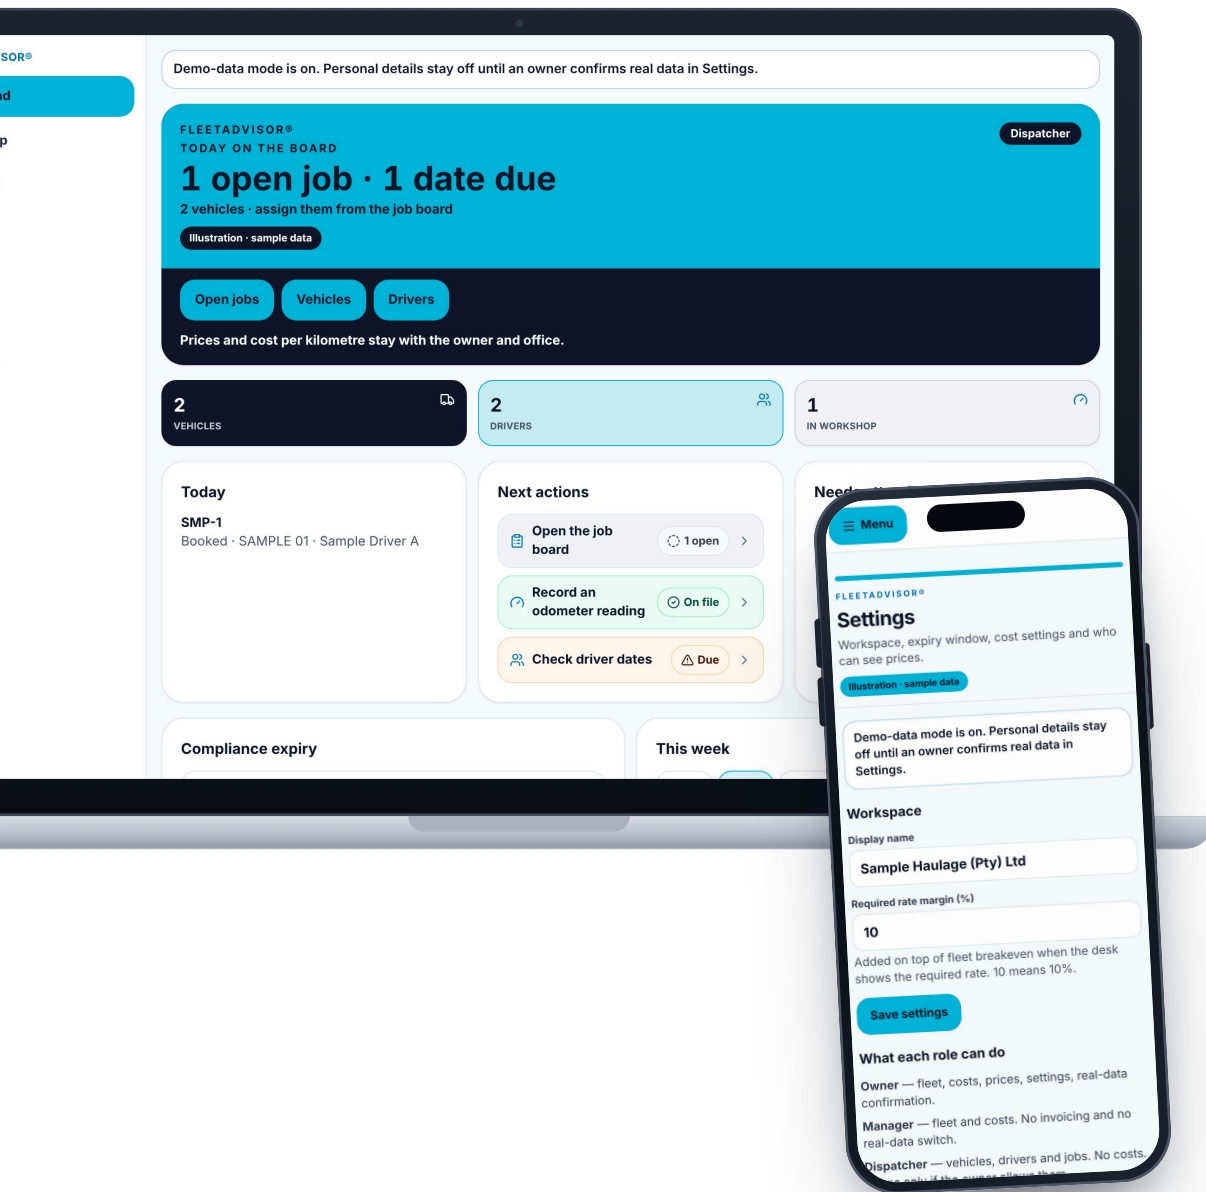

Honest about *tracking.*

Nothing is tracked yet, and the Fleet map says so. It explains where a position can come from, lists each vehicle's last known odometer, and marks every live source as launching soon.

- 
Manual odometer
 Available now: last known distance, not a live dot.
- 
Driver phone LAUNCHING SOON
 A consented phone fix during a trip.
- 
GPS file import LAUNCHING SOON
 A file of fixes you already hold.
- 
Telematics integrations LAUNCHING SOON
 A tracker feed. The provider is not yet chosen.

— FEATURE 08 · ROLES AND SETTINGS

The right view *for each person.*

Roles come from your SupplierAdvisor® permission matrix: owner, manager, dispatcher, office and viewer. Dispatchers work the register and jobs without seeing costs. Settings hold your workspace, margin and owner switches.

Five role views

Owner, manager, dispatcher, office and viewer, from the company roles.

Costs stay with the right roles

The server removes costs, cost profiles and CPK from a dispatcher's data.

Owner switches

Show prices to dispatchers, set a holding period, and leave demo-data mode.

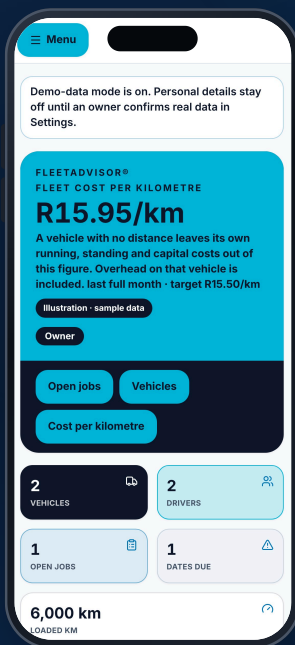

Audit trail

Every change is written to an append-only audit log.

One fleet. *Everyone* on it.

The plan is three role-based apps, one for the owner, one for drivers and one for customers, all reading the same company books. Today the owner desk runs in any browser, on desktop and phone. The installable apps, and the driver and customer apps, are launching soon.

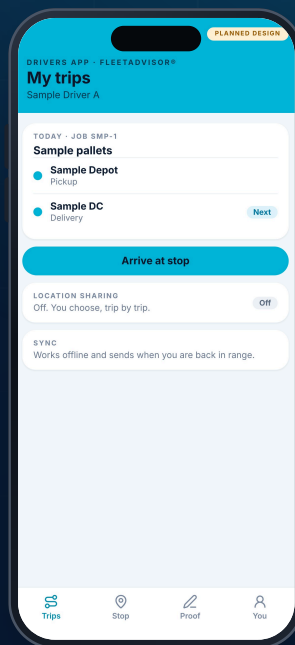

OWNER APP

The fleet owner's desk

Cost per km, due dates, jobs and the register on your phone. Works in the browser today; the installable app is launching soon.

LIVE IN BROWSER · APP LAUNCHING SOON

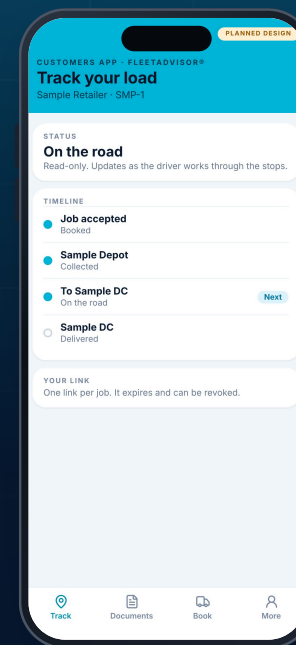

DRIVERS APP

The driver's trip

Today's trip stop by stop, proof of delivery with signature and photo, and an offline queue.

LAUNCHING SOON

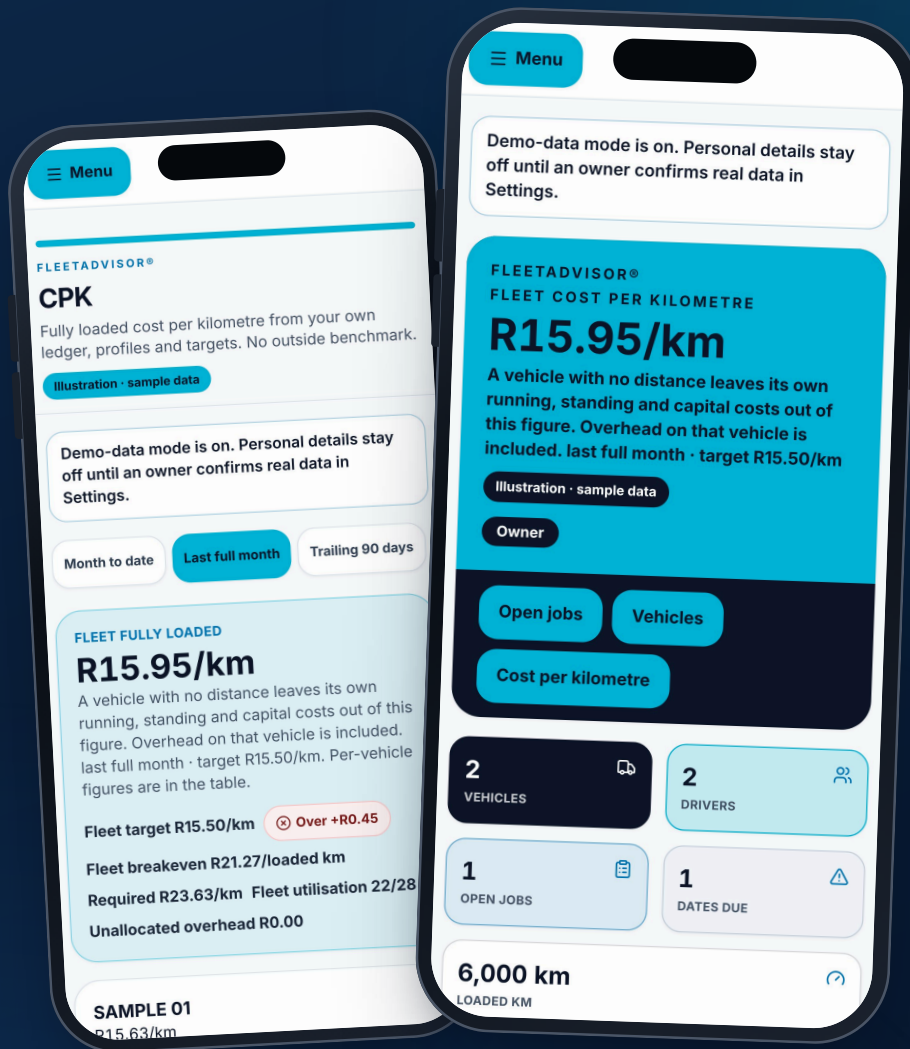

CUSTOMERS APP

The consignor's view

Track a load on one link, see proof of delivery and invoices, and accept quotes or book work.

LAUNCHING SOON

OWNER APP

The whole fleet, *between depot visits.*

For the owner and the office. The owner desk already works on a phone in the browser, at 375 pixels wide, with the same figures as the desktop. The installable app is launching soon.

Cost per km in your pocket

The fleet headline, your target and the period, on the phone today.

Due badges

Expired and expiring dates for vehicles and drivers on Command.

Jobs and next actions

Open the job list, record an odometer reading, review the fleet cost.

Install from the browser **LAUNCHING SOON**

An installable owner app with its own icon.

Fleet map and CPK tiles in the app **LAUNCHING SOON**

For the roles allowed to see them.

DRIVERS APP

LAUNCHING SOON

The driver's trip, *in one pocket.*

Planned for the people behind the wheel: open the link, see today's trip and work through it stop by stop. The Drivers app is not available yet.

My trips

Today's trip and its stops, in order.

Proof of delivery

Receiver signature and a photo on the phone.

Offline queue

Work without signal and send when back in range.

Stop by stop

Arrive, load or deliver, and move to the next stop.

Exceptions

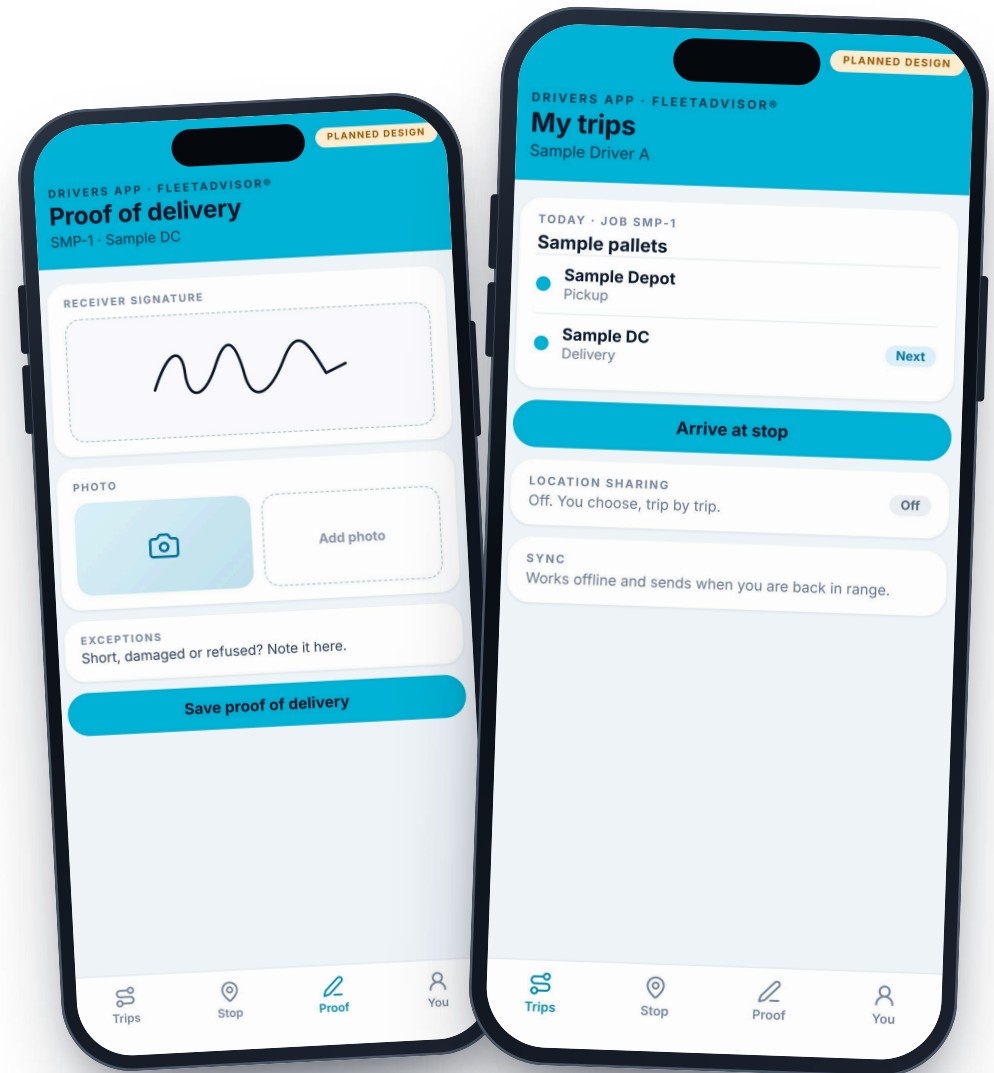

Short, damaged or refused, noted at the stop.

Location only by consent

Sharing is the driver's choice, trip by trip.

Planned design. The screens at the right are illustrations and details may change before launch.

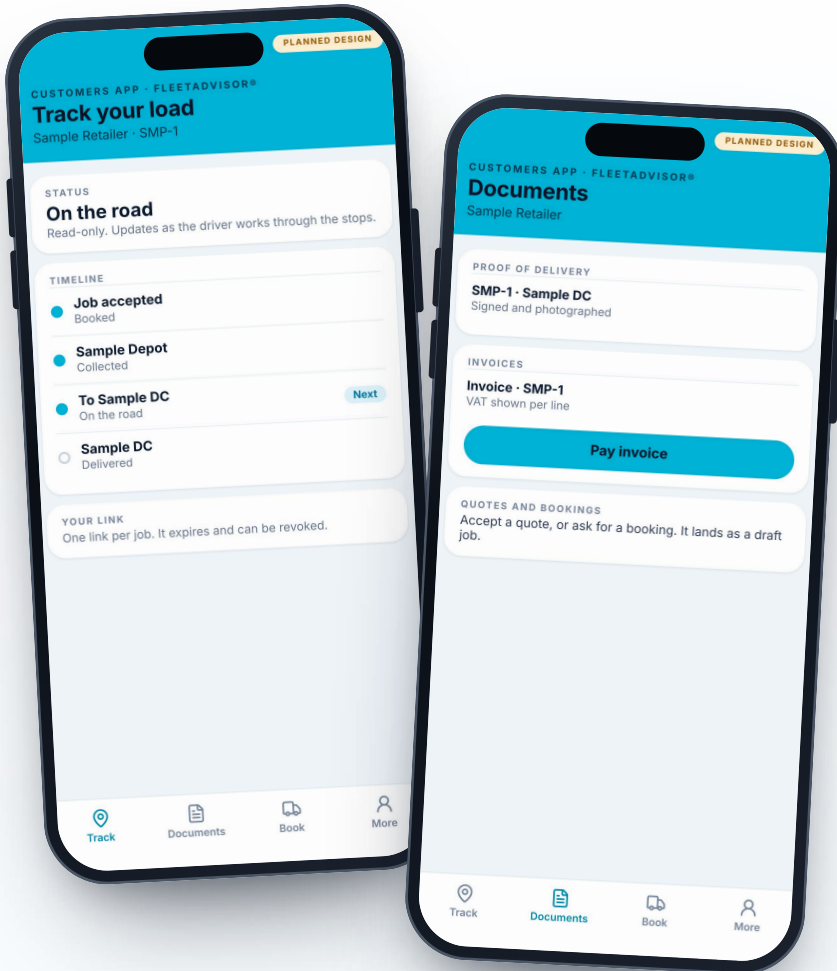

CUSTOMERS APP

LAUNCHING SOON

Customers who can see the load *stop phoning you.*

Tracking link per job

A read-only timeline for the consignee, on one expiring link.

Proof of delivery

The signed and photographed proof, once the load is delivered.

Invoices and a pay link

VAT per line, and a Paystack link to pay in rand.

Quotes and bookings

Accept a quote, or request a booking that lands as a draft job.

Only their own jobs

Never your costs, rates, other customers or other trips.

Planned design, not available yet. Details may change before launch.

Built next, *in this order.*

Everything on this page is launching soon and is not available yet. The order and the details may change before launch.

LAUNCHING SOON

Quotes and dispatch board

Quotes with VAT per line, a day and week board to assign vehicles and drivers, and trips that record odometer readings.

LAUNCHING SOON

Waybills, proof of delivery and tracking links

Waybill numbers and PDFs, signature and photo proof of delivery, and a read-only tracking link for each consignee.

LAUNCHING SOON

Live fleet map and GPS import

Last known positions with their time and source, and CSV or GPX import of fixes you already hold.

LAUNCHING SOON

Maintenance, tyres, fuel, tolls and fines

Service plans, tyre positions, a fuel log with litres per 100 km, toll lines and a fines register.

LAUNCHING SOON

CPK command centre

Cost per kilometre by route, customer and driver, with trend, utilisation, trip profitability and driver scorecards.

LAUNCHING SOON

Finance and invoicing

Invoice delivered jobs through core invoices with VAT per line, a Paystack pay link, and FNB bank allocation per invoice.

LAUNCHING SOON

Installable apps

Owner, driver and customer apps that install from the browser, with no app store.

LAUNCHING SOON

Telematics integrations

Tracker feeds, engine-on idle time and stop dwell. The provider is not yet chosen.

LAUNCHING SOON

Consignor self-service

Quote acceptance, booking requests that become draft jobs, and request status for your customers.

LAUNCHING SOON

Compliance centre and reminders

Every vehicle and driver date in one view, CSV import, permits and email or push reminders.

Live today: the owner desk, Fleet map shell, Vehicles, Drivers, Jobs, CPK and Settings, on desktop and mobile.

From the odometer today, *to a live map next.*

Nothing is tracked yet, and FleetAdvisor® says so on the Fleet map page. A position will always show when it was taken and where it came from. Each source below is switched on in its own time.

Manual odometer

AVAILABLE NOW

Available now. A reading gives last known distance, not a live dot.

Driver phone

LAUNCHING SOON

A consented phone fix during a trip.

GPS file import

LAUNCHING SOON

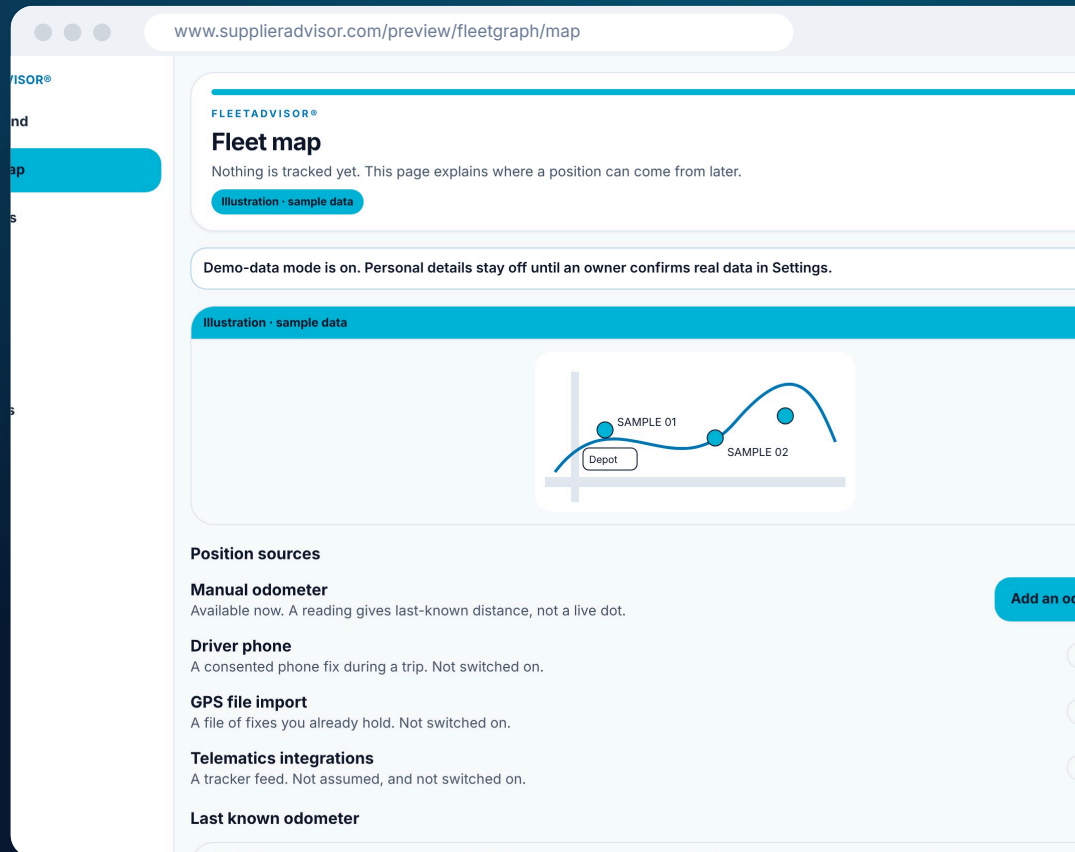

A file of fixes you already hold.

Telematics integrations

LAUNCHING SOON

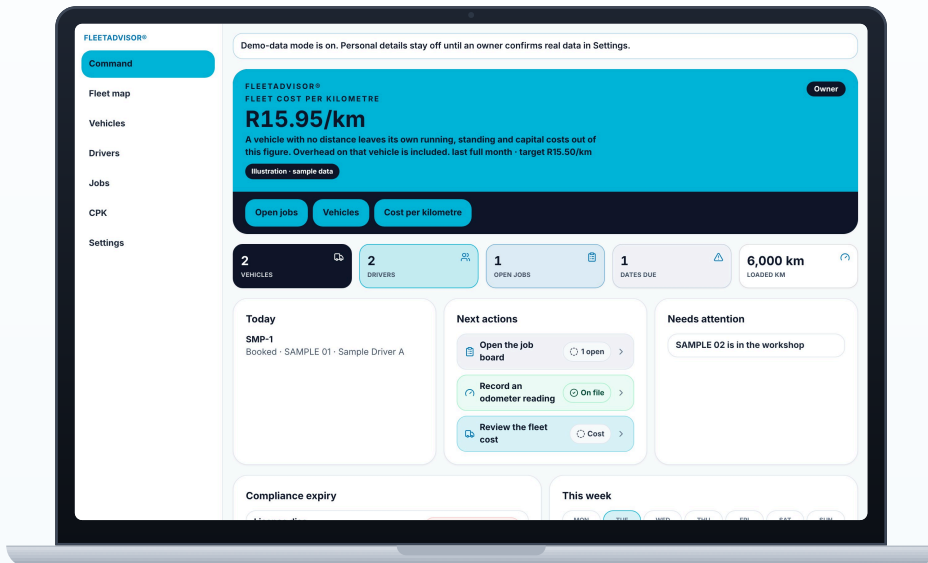

A tracker feed. The provider is not yet chosen.

The Fleet map page today: a labelled sketch with sample markers, the source list, and the last known odometer of each vehicle. No map tiles and no third-party request.

A Thursday at *Sample Haulage.*

An illustrative day with FleetAdvisor®. Sample Haulage is a fictional haulier, and everything it does in this story is already built.

06:30

Owner desk

Command shows a licence disc on SAMPLE 01 as expired. The owner sees the due badge on the desk, not at the next stop.

07:30

Jobs

SMP-1 is booked: sample pallets from Sample Depot to Sample DC, with SAMPLE 01 and Sample Driver A on it.

09:00

Drivers

Sample Driver A's PrDP expiry is on file with its category, and shows a green badge.

11:00

Odometer

A new odometer reading goes onto SAMPLE 01. The kilometres feed the cost per km.

13:00

Costs

A fuel entry is added with litres and the odometer at the fill. Claimable VAT stays out of the cost.

15:00

CPK

The CPK page shows R15.95 per km for the fleet against a R15.50 target, over by R0.45.

16:30

Needs attention

SAMPLE 02 is in the workshop, so Command lists it as needing attention.

17:30

Owner on the phone

Command opens in the phone browser with the same figures. No installable app is needed.

Illustrative story. The business, people and amounts are fictional sample data, not a real customer.

From spreadsheets and diaries *to one system.*

	Before: spreadsheets, diaries, WhatsApp	With FleetAdvisor®
Vehicles	✗ A spreadsheet per fleet	✓ One register with status, ownership and odometer
Dates	✗ A diary and sticky notes	✓ Expiry dates with due badges on Command
Jobs	✗ WhatsApp messages	✓ Jobs with customer, stops, cargo, vehicle and driver
Costs	✗ Slips in a drawer	✓ Fuel, tolls, maintenance and tyres on each vehicle
Cost per km	✗ A guess, or a month-end sheet	✓ A fully loaded R/km from your own entries
Rates	✗ A rule of thumb	✓ Breakeven per loaded km and the rate for your margin
Access	✗ Everyone sees everything	✓ Role views: dispatchers never see costs
Getting started	✗ A blank sheet	✓ A setup checklist, and "Not enough data" instead of a guess

Built for South African fleets, *on a real business system.*

A tracker app stops at the dot on the map. FleetAdvisor® starts from what a kilometre costs, and sits beside your customers, books and suppliers on SupplierAdvisor®.

A business system around it

Customers, books, bank matching and VAT live in the same workspace.

Honest cost per km

Partial figures say what is missing. No outside benchmark.

It never guesses

"Not enough data" beats a number. Planned kilometres are never used.

Role-filtered

The server removes costs from dispatchers, not just the screen.

Personal data stays off

Demo-data mode first. No ID, passport or licence numbers stored.

Desktop and phone

Works at 375 pixels. Installable apps are launching soon.

Honest about tracking

Nothing is tracked yet. Every live source is marked launching soon.

Priced per company

Unlimited users. Add a dispatcher without paying for a seat.

See it on sample data.

Open the live FleetAdvisor® preview at supplieradvisor.com/preview/fleetgraph, then start a 30-day free trial.

Not another app. *Part of your business system.*

FleetAdvisor® runs inside your SupplierAdvisor® company workspace: one login, one team, one set of roles, one set of books.

— Connected - - - - Same workspace

Made for the people *who* *move freight.*

From a haulier with a handful of trucks to an in-house transport department.

Hauliers

Register, dates and cost per km.

Couriers

Jobs, stops and vehicles on one list.

Bulk and tipper operators

Tippers and rigids with their own status.

In-house transport

A fleet inside a manufacturer or retailer.

Fleet managers

Dates, odometer and the cost of each vehicle.

Dispatchers

Jobs, vehicles and drivers, without costs.

Transport owners

Your cost per km and breakeven rate.

Office and finance

Read costs and prices. Driver pay stays hidden.

Try it on sample data.

FLEETADVISOR® INDUSTRY PACK

+R199

 /month

On top of the core plan. Prepaid terms discount the pack by the same percentage.

Together: R498 a month

That is about R16.60 a day for the whole company, with no per-seat fees.

30-day free trial · no card

What R199 a month starts to replace

- ✓ A vehicle register spreadsheet
- ✓ A diary of licence disc and driver dates
- ✓ Fuel and toll slips with no home
- ✓ A month-end cost-per-km sheet
- ✓ A job list in WhatsApp

VerifyNow checks are paid per check (R15 to R179, VAT inclusive) and are not part of the subscription. Prices from www.supplieradvisor.com/pricing, October 2026.

Try both free for 30 days.

Full access to SupplierAdvisor® and FleetAdvisor®. No card needed to start.

[Start free trial](#) →

Q What is cost per kilometre?

Running, standing, capital and overhead costs from your own entries, divided by the kilometres driven. Each figure shows whether it is complete or partial.

Q Is vehicle tracking live?

No. The Fleet map explains the position sources. A manual odometer is available now; driver phone, GPS import and telematics are launching soon.

Q Do you store driver ID or licence numbers?

No. A driver has a name, contact details, a licence code and dates. Personal details stay off until an owner leaves demo-data mode.

Q Are dispatch, waybills and invoicing included?

Not yet. Quotes, the dispatch board, waybills, proof of delivery, tracking links and invoicing are launching soon.

Q Do I need SupplierAdvisor® as well?

Yes. FleetAdvisor® is an industry pack on the SupplierAdvisor® core plan, which also gives you accounting, suppliers, SHEQ and SAM.

Q Where do the kilometres come from?

From odometer readings today. Planned kilometres are never used, and the screen says “Not enough data” until there is a real distance.

Q Can dispatchers see costs?

No. Dispatchers see vehicles, drivers and jobs. Prices show only if the owner turns that on, and costs and CPK are removed on the server.

Q Which dates are tracked?

Vehicles: licence disc, roadworthy, operator card, insurance and permits. Drivers: licence, PrDP with category, medical and induction. FleetAdvisor® warns about dates you enter; it is not legal advice.

Q Which apps are there?

The owner desk works in the browser on desktop and phone today. Installable owner, driver and customer apps are launching soon.

Q Is our data safe?

Every staff call checks your sign-in and company role on the server. Fleet tables have row-level security and no direct browser access, and every change is audit logged.

Your next kilometre: *costed*, on one system.
