One platform to *run and grow* your business.

SupplierAdvisor® is the supply-chain operating system with a verified trade and trust layer. Suppliers, customers, orders, stock, money and compliance live in one company workspace, with counterparties you can check and score.

B2B

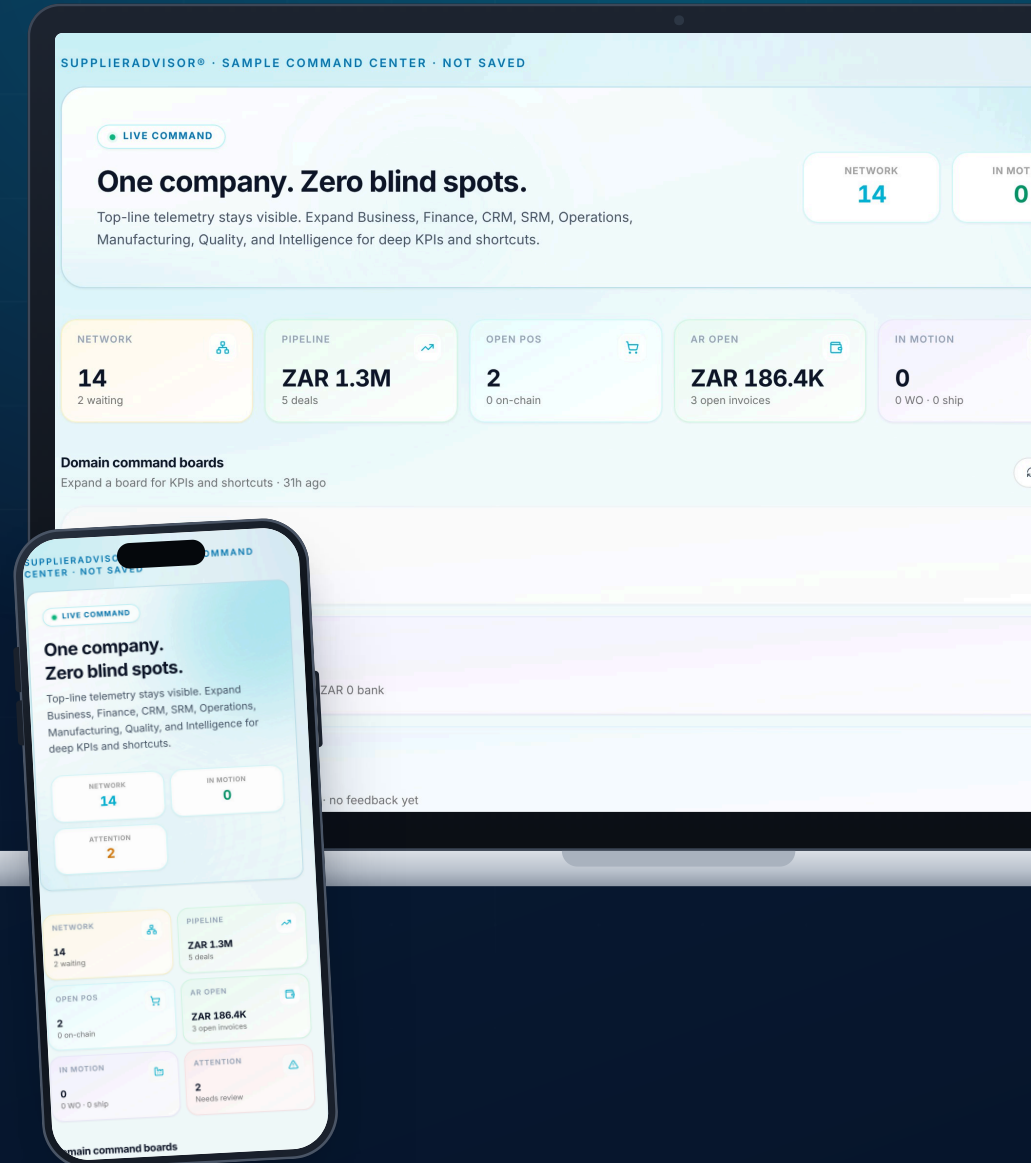

Manufacturers, distributors, brands and trades

B2G

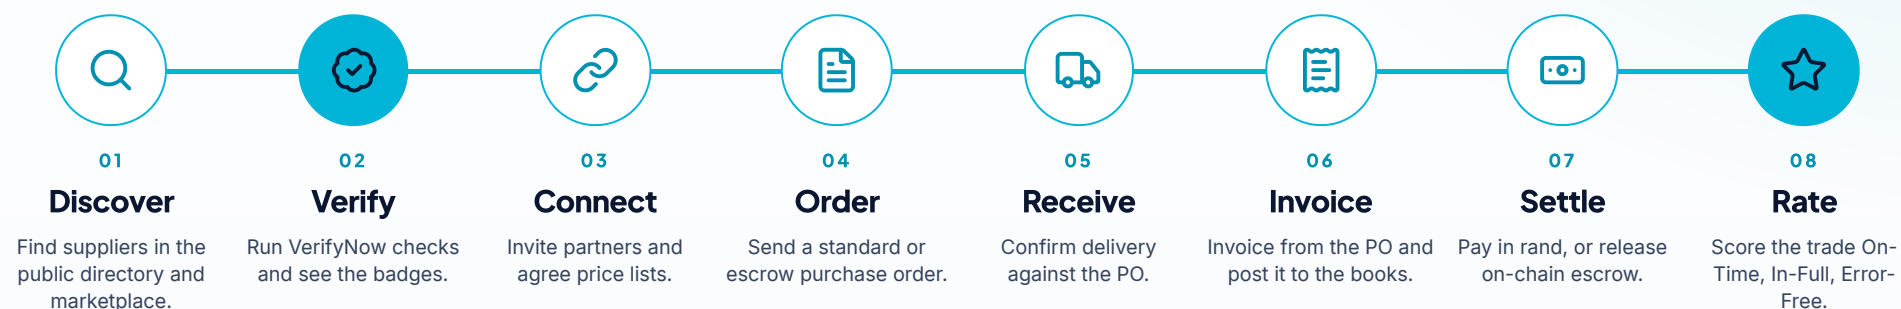

Government programmes with audit-ready packs

B2C

Industry apps, storefronts and tills

The whole trade loop on one workspace, *with trust built in.*

Company check

Paid VerifyNow checks against CIPC, Home Affairs, AML/PEP lists and bank accounts, shown as badges.

OTIFEF scorecard

Every trade can be rated On-Time, In-Full and Error-Free, building a scorecard over time.

RIAD on the relationship

A shared log of Risks, Issues, Actions and Decisions for each customer and supplier.

Everything a company needs, *in every plan.*

Every company gets the same core operating system on the base plan. It's priced per company, not per seat, so the whole team is in.

Profile and verification

A company profile buyers trust, with VerifyNow badges, team roles and several workspaces under one login.

Network and connections

Invite the partners you trade with, agree price lists, and earn referral fees on their subscriptions.

Suppliers and marketplace

A supplier book with dossiers, contracts, ratings and RIAD, plus a public directory and marketplace.

Purchase orders and escrow

Standard or escrow POs, a buyer portal, and an inbound inbox where sellers accept or decline.

Inventory

Raw materials, finished goods, lots, warehouses, transfers, counts, scanning and GS1 data.

Accounting and finance

Bank reconciliation, live management accounts, VAT, P&L, balance sheet, cash flow and AFS.

Customers and credit

Leads, quotes, orders and invoices, credit applications, AR aging and reminders.

SHEQ and quality

QA inspections, holds and release, OH&S and NCR/CAPA on the same books.

Intelligence and SAM

Pulse insights, scorecards and forecasts, and SAM, the assistant that shows you how.

Buy from suppliers *you can prove.*

Find suppliers in the public directory, check their badges and ratings, then send a purchase order from their catalogue. They accept it in their inbound inbox, and you track it to delivery.

Directory and marketplace

Search by industry, city and country, shortlist suppliers and open a full profile dossier.

Supplier book (SRM)

Documents, contracts, performance, ratings and the RIAD log in one place.

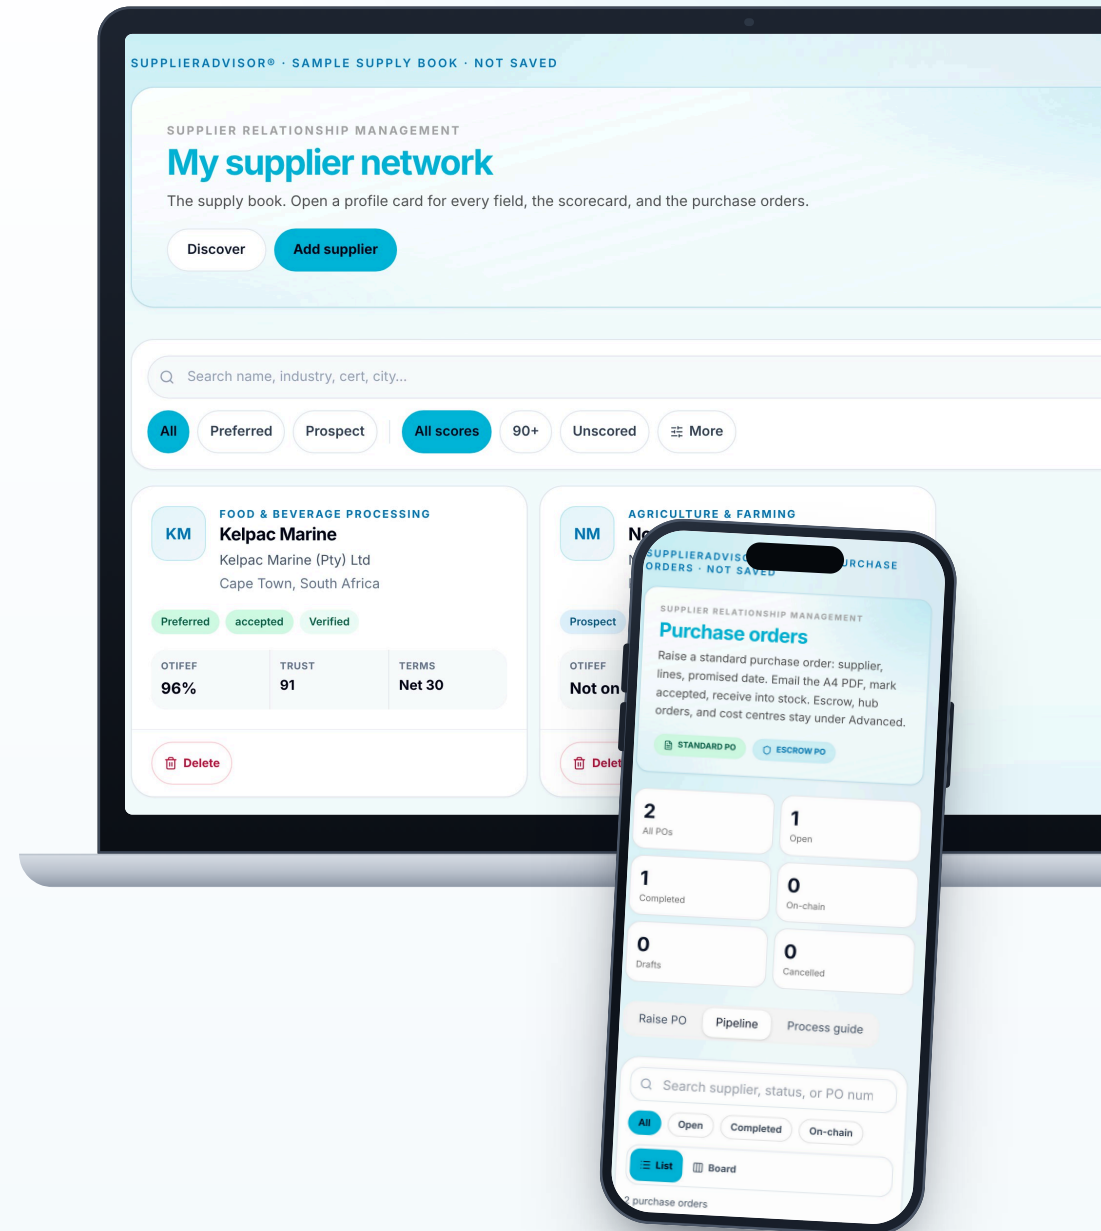

Standard or escrow PO

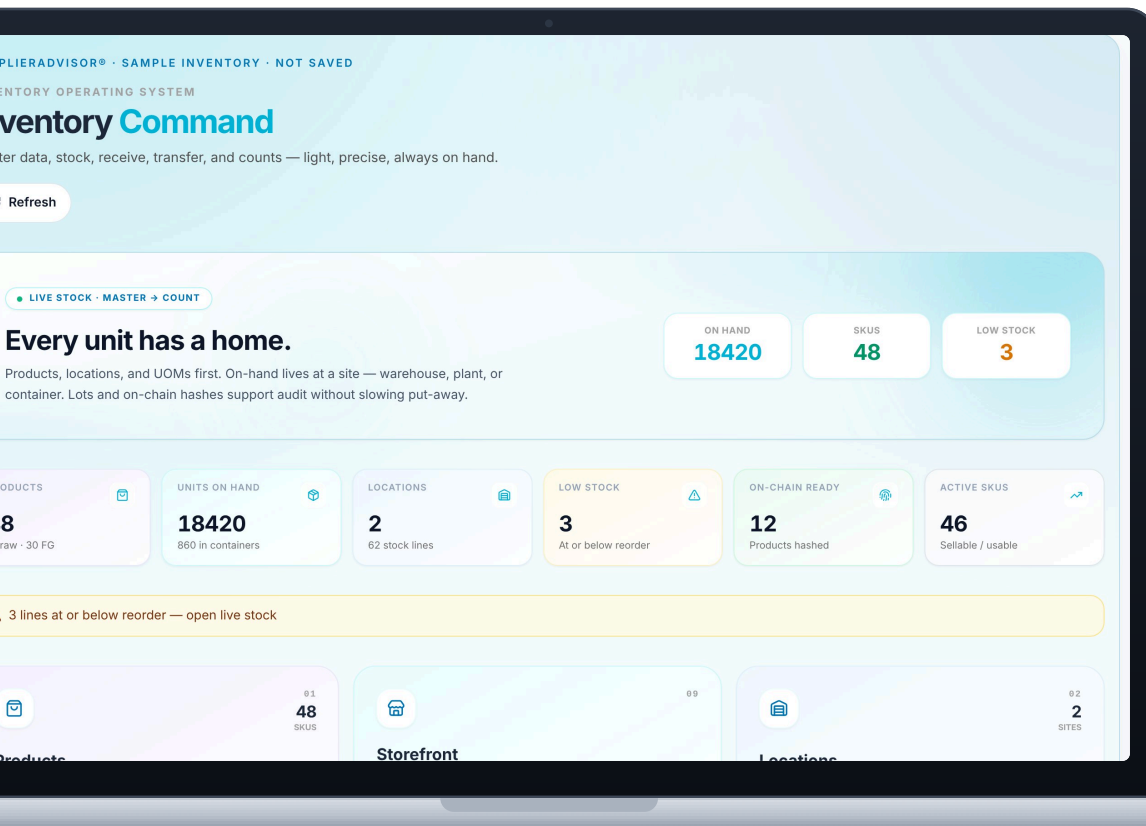

Lines from the supplier's catalogue or agreed price list, with a promised date.

Email and push alerts

Inbound, accepted, invoiced and fulfilment events reach the right people.

INVENTORY

Stock that *follows the trade.*

Goods land in warehouses by lot when a purchase order is received, and move out on sales, transfers and production. Every movement has a place in the books.

Inventory by lot and warehouse

Products, locations and units first, then on-hand by site, lot and container.

Counts and scanning

Transfers, stock takes, cycle counts, barcode scanning, EDI and GS1 helpers.

Purchase orders to stock

Receive against the PO, and the supplier invoice posts to accounts payable.

Cost of sales in the ledger

Stock costs flow to cost of sales, so gross profit in the reports is real.

Know your numbers *today, not at month-end.*

Sales, purchases, stock and the bank all post to one general ledger, so the management accounts are live for any period you pick: revenue through gross profit to operating profit, with the bank beside it.

Bank and reconciliation

Live management reports

VAT and the VAT return

Financial statements

- ✓ Period P&L bridge, expense mix and budget vs actual
- ✓ Ratios: margins, current and quick ratio, debt to equity, ROA and ROE
- ✓ Forecasts, AR and AP aging, and a management cash flow against budget
- ✓ One click to a management pack PDF for the board or the bank

BANK INTEGRATION AND RECONCILIATION

The bank, *coded for you.*

SupplierAdvisor® is connected with FNB. FNB transactions and imported statement lines land in one allocation queue.

Proposals learn from how you post journals and VAT, then you post or change the account.

Statement import

Bring in bank statements as PDF, CSV or OFX, for as many accounts as you run.

Auto-match

Scores unallocated lines against open invoices, bills and your rules.

Settle AR and AP in one step

A matched receipt or payment clears the invoice and posts to the ledger.

Bank vs ledger, always visible

Set statement balances any time and see what is still unallocated.

Connected with FNB

FNB transactions come into the same allocation queue, ready to reconcile.

CONNECTED BANKS

FNB

● **Connected**

Other banks to follow. Until then, import statements.

VAT you can *stand* behind.

Invoices, bills and bank lines carry a South African VAT code, so the VAT return box builds itself for the period you choose: output VAT, input VAT and the amount payable to SARS or the refund due.

- South African VAT codes**
Standard rate 15%, zero-rated, exempt and out of scope, set up for you.
- VAT return box**
Standard-rated sales and purchases, zero-rated and exempt supplies, and net VAT: the figures for your VAT201.
- Find and fix wrong codes**
Filter every VAT line by type and reallocate a wrong code before you file.
- Submit the VAT201 to SARS eFiling**

LAUNCHING SOON

File the return from SupplierAdvisor®.

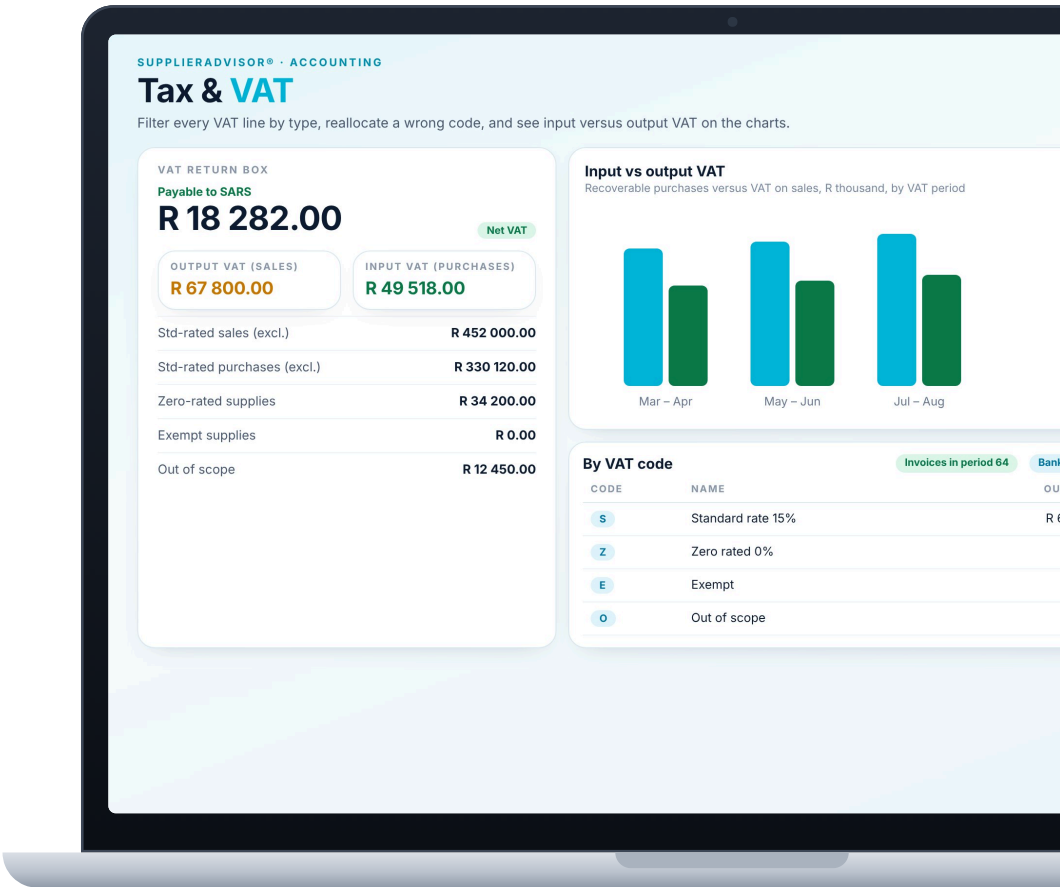

ILLUSTRATION · SAMPLE DATA

Year-end, *without the scramble.*

The statements come straight from posted journals, so they are ready when your accountant asks.

Profit or loss

Revenue through net profit, for any period, with comparatives.

Balance sheet

IAS 1 statement of financial position at the period end, with working capital.

Cash flow

IAS 7 direct method from the cash and bank ledger, with the reconciliation of profit to operating cash.

Annual financial statements

An IFRS-oriented AFS pack: financial position, profit or loss and OCI, changes in equity, cash flows, notes and policies.

Also in the box: trial balance, period locks, year-end close to retained earnings, IFRS 9 credit-loss allowance and multi-entity books. Statements are marked unaudited; your auditor signs off.

Locked down *by design.*

Security is layered, so no single control carries the load. Every request passes each layer before it touches company data.

Edge and transport HTTPS, an enforced Content-Security-Policy and rate limits on sensitive APIs.

Identity Privy sign-in by email, Google, Apple or wallet. Every API call carries a verified token.

Tenancy Company membership is checked on the server, and every query is scoped to that company.

Role permissions Eight roles, from owner to sales contractor. Critical writes need named roles.

Database Row-level security on every table. Browser keys get no direct access.

Audit and monitoring Sensitive actions go to an activity log, with health checks for operations.

Built for POPIA

The Protection of Personal Information Act asks that personal data is processed lawfully, kept secure and seen only by the right people.

Consent

Personal checks will not run without recorded POPIA consent.

Need to know

Company-scoped data, a role matrix, and Finance limited to owner and finance roles.

Minimal exposure

Only a short list of public routes answers without sign-in.

Safeguards

Signed webhooks and share links, server-only keys, and rate limits.

PART 2

GymAdvisor® *for gyms.*

The full showcase: the problems it solves, every feature, the member and coach apps, a day on the floor, and what it costs.

Great coaching. *Messy* admin.

Most gyms run on a membership spreadsheet, a WhatsApp group and a whiteboard. GymAdvisor® puts the floor, the people and the money on one system.

“The membership list lives in a spreadsheet nobody trusts.”

THE FIX One people book for members and private clients, with classes, freezes, packs and the debit bank on each profile.

“Classes are full, but people still don’t show.”

THE FIX Bookings with capacity, a waitlist that fills open places, and check-ins by QR so the roll call is real.

“Every member is in one huge WhatsApp group.”

THE FIX In-app messages, class groups and comms to all members, in their own gym app.

“I don’t know who’s quietly stopped coming.”

THE FIX Re-engagement lists members with no class in about 45 days, so the desk can call them first.

“Coach contracts and rates are in someone’s inbox.”

THE FIX Coaches as contract or permanent, with rates, tenure, contract PDFs and leave that blocks the diary.

“Debit orders, EFTs and cash never reconcile.”

THE FIX Charges on each member account, debit-order lines to copy, and receipts that post to the books.

From the first class to *paid*, on one floor.

GymAdvisor® is the gym desk inside SupplierAdvisor®. Coaches run their day from a phone, members book and track progress in the gym app, and the money lands in your books.

People

Coaches with contracts and rates, and one book for members and private clients.

The floor

Classes, rooms, bookings, waitlist, check-ins and feedback after class.

Money

Memberships, PT packs, programmes and debit-order lines, posted to the ledger.

R199 /month

2520

movements in the library, each with a still and a 5-second clip

2 apps

member app and coach app, installable from the browser

∞ users

Priced per company, so every coach is included

Seven steps. *One* member record.

Every member runs on the same record, from the invite to the payment. Coaches, the desk and the member all see the same thing.

A full diary, *without the double-bookings.*

The gym calendar shows every class and private session by room and coach. Click a class to open it; the waitlist and the day's counts sit on the same screen.

Week, day and room view

Studios, courts, spin and rack rooms as diary resources, so you see where each session runs.

Waitlist that fills itself

Members waiting on a full class, shown with the diary counts.

Gym hours and closed days

Columns follow your working days and hours. Closed days stay hidden.

Coach leave blocks the diary

Leave on a coach's profile stops them being booked.

One book for every member *and every PT client.*

Members and private clients live in one people book. Tick their classes, freeze a membership, issue a PT pack, and open a profile for injuries, the debit bank and family.

Member, private or both

Toggle the type, tick classes and save. Import the list from a spreadsheet.

Freezes and PT packs

Pause a membership, or issue a pack of private sessions.

Injury notes for coaches

Coaches see what to avoid before the session starts.

Re-engagement and care

Members with no class in about 45 days, and care tools for members who are cooling off.

Sell training plans, *then see who follows them.*

Build a week-by-week programme from the 2 520-movement library. Sell it on the gym shop or assign it, and see how every client feels after each day.

Movement library

2 520 exercises, each with a still and a 5-second clip. Add your own on top.

Week-by-week builder

Drop sessions on the calendar and add movements and coaching notes.

Sell or assign

Buying a programme on the shop enrolls the client automatically.

Feeling and effort

Clients log feeling and RPE after each day, so you see follow-through.

FEATURE 04 · LEADERBOARD

Benchmarks that *keep members coming back.*

Set the gym's official activities and benchmark scores for men and women in each age group. Coaches pin them on classes, and members log scores and see their rank.

Your gym standard

Squat, row, run and Hyrox stations, with scores per age group and sex.

Pinned to classes

Coaches add an activity to a class so members know what to log.

Fair rankings

Members are ranked in their own age group and sex, picked up from their profile.

In the member app

Scores and rank live in Progress, next to their programme.

Know who is on the floor, *and who has paid.*

Members check in at the desk or by scanning the gym's QR code on their phone. Unpaid or frozen memberships are flagged so the desk can act on the floor.

Phone QR check-in

A unique gym QR: members scan to check in.

Unpaid and frozen alerts

Flagged at check-in, not at month-end.

Tasks for the floor

Create, assign, repeat and close floor work.

Feedback after class

Members and coaches log feeling, intensity (RPE), enjoyment and comments.

Memberships that *reconcile themselves.*

Raise charges on member accounts and allocate cash, EFT or debit orders against them. Copy the debit-order lines for your bank, and every receipt posts to your books.

Charges on every account

Memberships, PT packs and shop sales on one statement.

Debit-order lines

Members submit their bank details; you copy the lines and run the debit order at your bank.

Pay at the desk

Present a QR or NFC tap so the member pays on the free SA Member app.

Straight to the ledger

Invoices, VAT and receipts land in SupplierAdvisor® accounting, ready for bank matching.

Run the gym on numbers, *not gut feel.*

One slicer, tabs of reports with a graph above each list, and an A4 PDF pack. Then publish your schedule on your website and reach every member from Comms.

Slice-and-dice reports

Attendance, class fill, subscriptions, plan vs actual and trends.

Comms to every member

Push notices, ads and offers to the gym app.

Website, door QR and embed

Publish the public gym site and class schedule, and list on the marketplace.

A4 PDF pack

The management pack for owners and partners.

One gym. *Everyone* in sync.

Each app opens in the browser and installs on the home screen as a progressive web app. No app store, nothing to set up for your members.

MEMBER APP

A Wednesday at *Northside Strength.*

An illustrative day with GymAdvisor®. Northside Strength is a fictional gym with four coaches and a front desk.

- 05:45** ● **Thabo, coach**
Opens Today on his phone: HIIT 45 has 18 booked and two on the waitlist. Siphos knee note is on the roll call.
- 06:00** ○ **Check-in**
Members scan the door QR. Lwazi is flagged as unpaid, so the desk has a quiet word.
- 06:50** ○ **Feedback**
Members rate the class and log effort. The outcomes card moves to RPE 7.1.
- 09:00** ○ **Desk**
The re-engagement list shows 14 members with no class in about 45 days. Three calls, two bookings.
- 12:00** ○ **Private PT**
Thabo coaches Siphos on week 3 of his programme and logs the session.
- 15:00** ○ **Owner**
Publishes an 8-week Hyrox Starter on the shop. Aisha buys it and is enrolled automatically.
- 17:30** ○ **Strength**
A member cancels, and the first person on the waitlist gets the place.
- 20:00** ● **Home**
The owner checks Reports: class fill at 78%, and the debit-order lines are ready for the 1st.

Illustrative story. The business, people and amounts are fictional sample data, not a real customer.

Built for South African gyms, *on a real business system.*

A booking app stops at the class. GymAdvisor® also runs your coaches, members, money and books on SupplierAdvisor®.

Real accounting underneath

Invoices, VAT and receipts post to the ledger, with bank matching, VAT and financial statements.

Debit orders, the SA way

Members submit bank details and you run the debit order at your own bank.

Pay at the desk

QR or NFC so the member pays on the free SA Member app.

Two apps included

A member app and a coach app, with no app store.

2 520 movements

A video movement library for programmes, ready on day one.

Leaderboards by age and sex

Benchmarks that are fair, so every member has a rank to chase.

Q Do members have to download an app?

No. The member app opens from a link and installs on the home screen. Members get an email invite to their portal.

Q Can members pay at the desk?

Yes. Raise the bill and present a QR or NFC tap, and the member pays on the free SA Member app.

Q Can we import our members?

Yes. Import members from a spreadsheet (.xlsx), then tick their classes.

Q Can we sell programmes online?

Yes. Programmes can be sold on the gym shop, and buying one enrolls the client automatically.

Q Do I need SupplierAdvisor® as well?

Yes. GymAdvisor® is an industry pack on the SupplierAdvisor® core plan, which also gives you accounting, suppliers and the SAM assistant.

Q Can GymAdvisor® run our debit orders?

Members submit their debit-order bank details on their profile and you copy the lines. You set up the debit order at your own bank; it is not Apple Pay or Paystack.

Q We have no front desk. Will it work?

Yes. GymAdvisor® asks whether you run with a front desk or coach-to-member only, and coaches can run the day from their app.

Q What do coaches see?

Their coach app: Today, Diary, People and Inbox, with the day's classes, roll calls, client notes and messages.

Q Is it on our website?

Publish the public gym site, class schedule, door QR and an embed, and list on the marketplace.

Q Is member data safe?

Every API call checks your sign-in and company role on the server, and the database refuses direct browser access. Personal data is handled with POPIA in mind.

Your next class: booked, checked in and *paid*, on one system.
