One platform to *run and grow* your business.

SupplierAdvisor® is the supply-chain operating system with a verified trade and trust layer. Suppliers, customers, orders, stock, money and compliance live in one company workspace, with counterparties you can check and score.

B2B

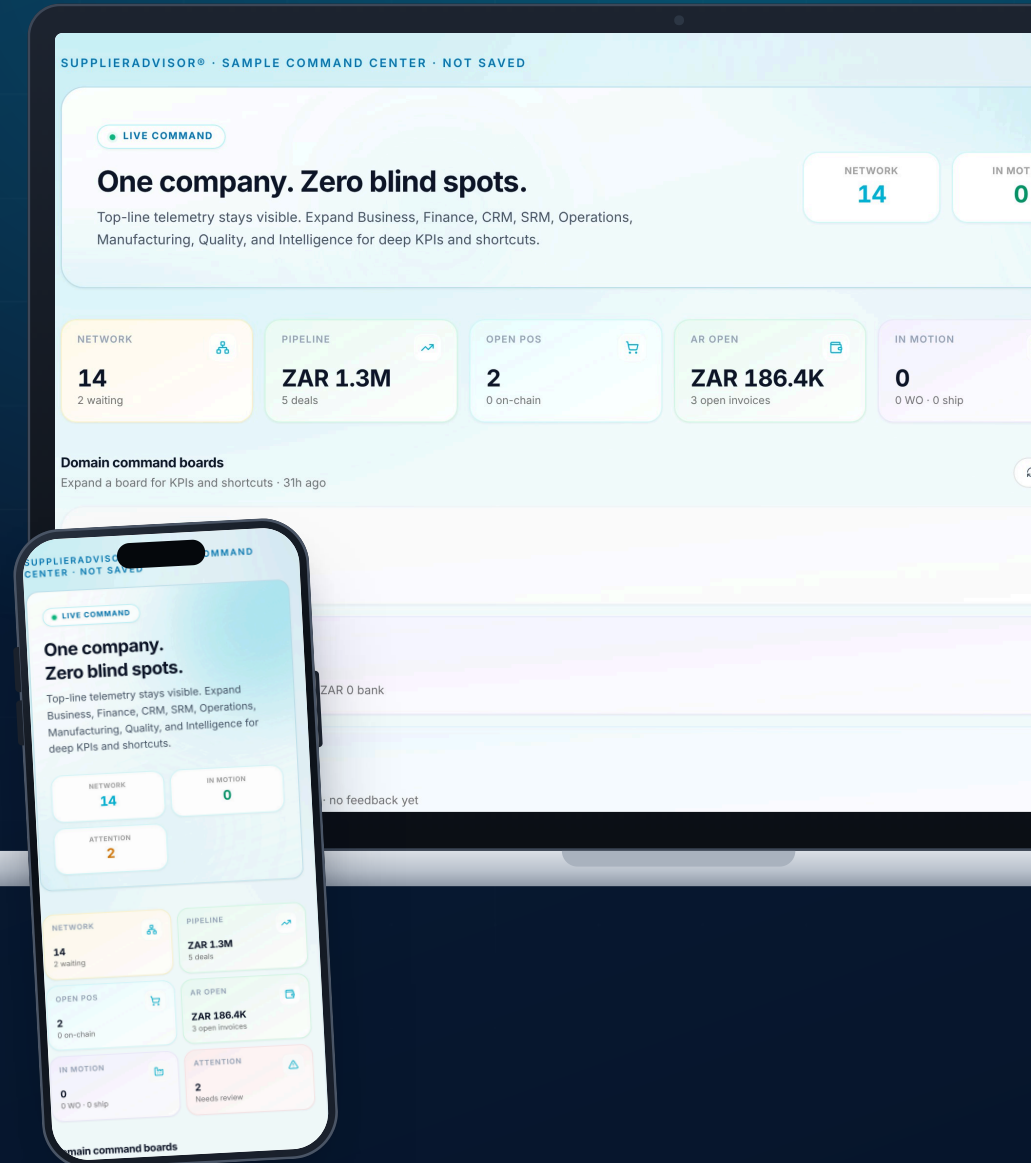

Manufacturers, distributors, brands and trades

B2G

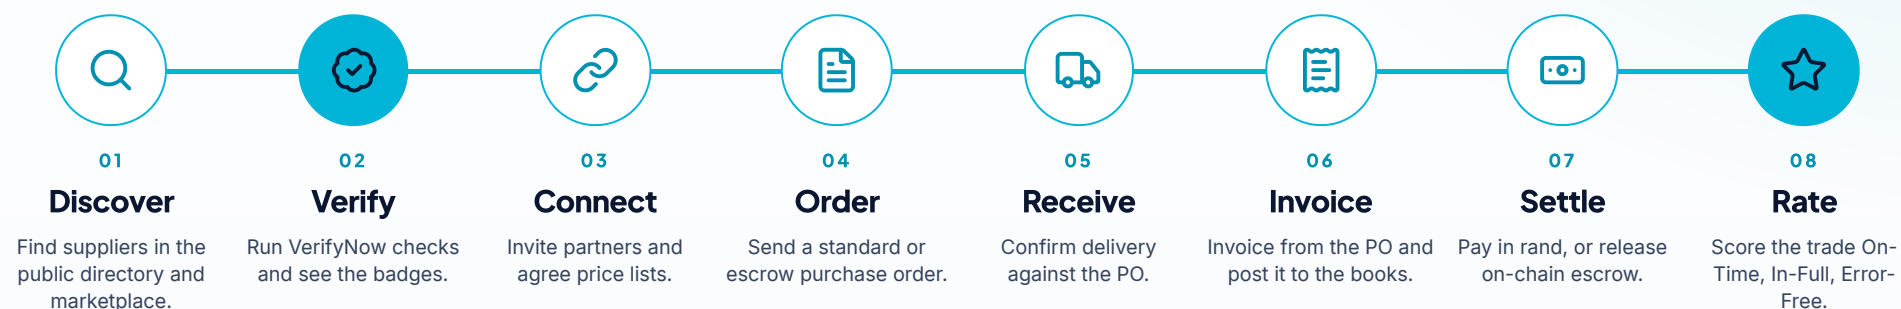

Government programmes with audit-ready packs

B2C

Industry apps, storefronts and tills

The whole trade loop on one workspace, *with trust built in.*

Company check

Paid VerifyNow checks against CIPC, Home Affairs, AML/PEP lists and bank accounts, shown as badges.

OTIFEF scorecard

Every trade can be rated On-Time, In-Full and Error-Free, building a scorecard over time.

RIAD on the relationship

A shared log of Risks, Issues, Actions and Decisions for each customer and supplier.

Everything a company needs, *in every plan.*

Every company gets the same core operating system on the base plan. It's priced per company, not per seat, so the whole team is in.

Profile and verification

A company profile buyers trust, with VerifyNow badges, team roles and several workspaces under one login.

Network and connections

Invite the partners you trade with, agree price lists, and earn referral fees on their subscriptions.

Suppliers and marketplace

A supplier book with dossiers, contracts, ratings and RIAD, plus a public directory and marketplace.

Purchase orders and escrow

Standard or escrow POs, a buyer portal, and an inbound inbox where sellers accept or decline.

Inventory

Raw materials, finished goods, lots, warehouses, transfers, counts, scanning and GS1 data.

Accounting and finance

Bank reconciliation, live management accounts, VAT, P&L, balance sheet, cash flow and AFS.

Customers and credit

Leads, quotes, orders and invoices, credit applications, AR aging and reminders.

SHEQ and quality

QA inspections, holds and release, OH&S and NCR/CAPA on the same books.

Intelligence and SAM

Pulse insights, scorecards and forecasts, and SAM, the assistant that shows you how.

Buy from suppliers *you can prove.*

Find suppliers in the public directory, check their badges and ratings, then send a purchase order from their catalogue. They accept it in their inbound inbox, and you track it to delivery.

Directory and marketplace

Search by industry, city and country, shortlist suppliers and open a full profile dossier.

Supplier book (SRM)

Documents, contracts, performance, ratings and the RIAD log in one place.

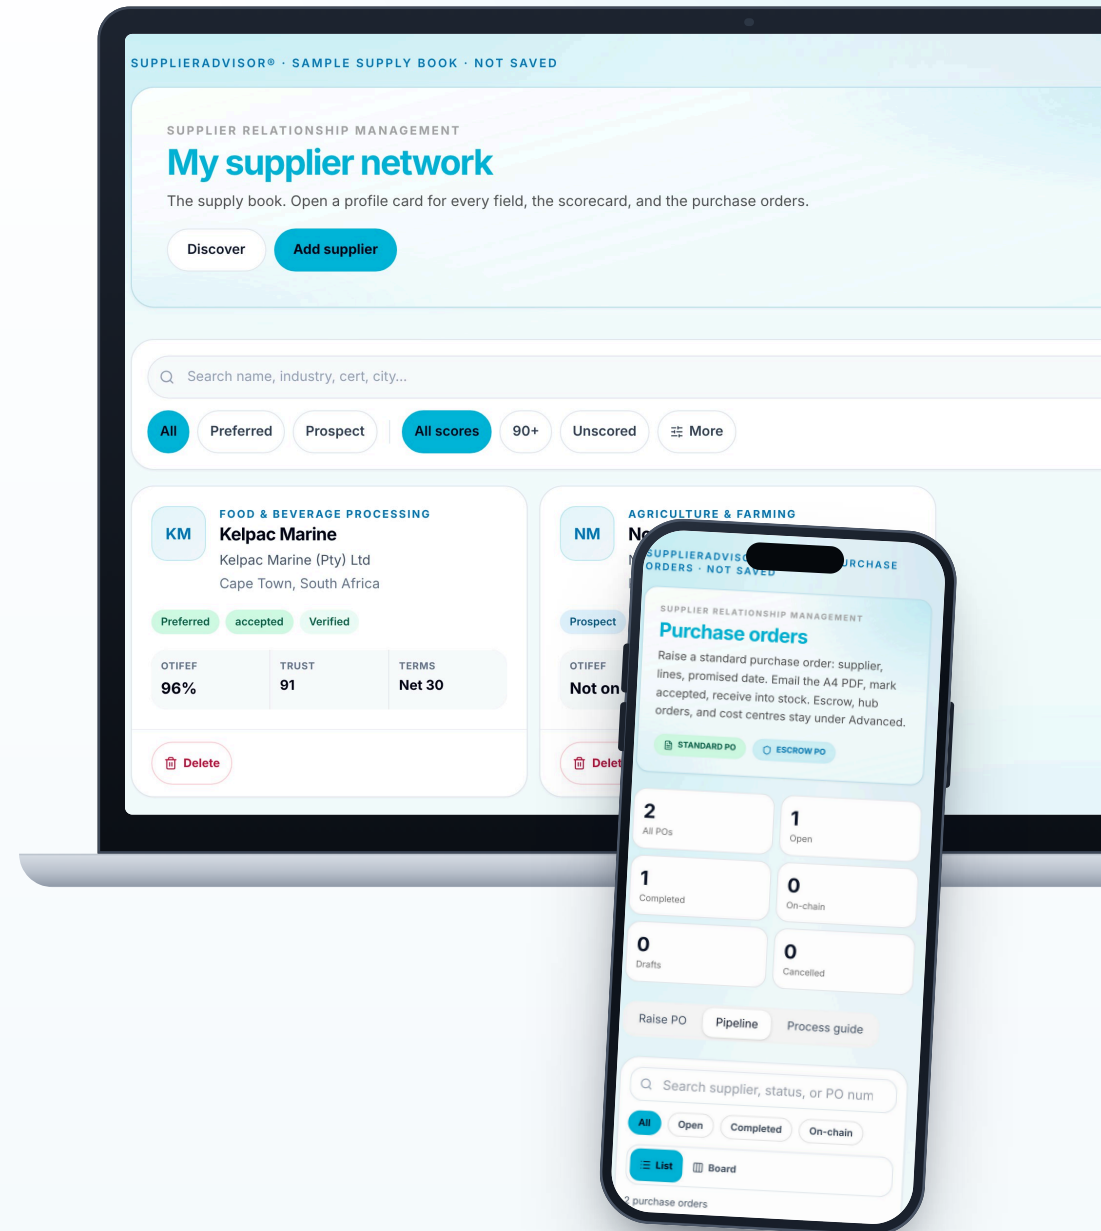

Standard or escrow PO

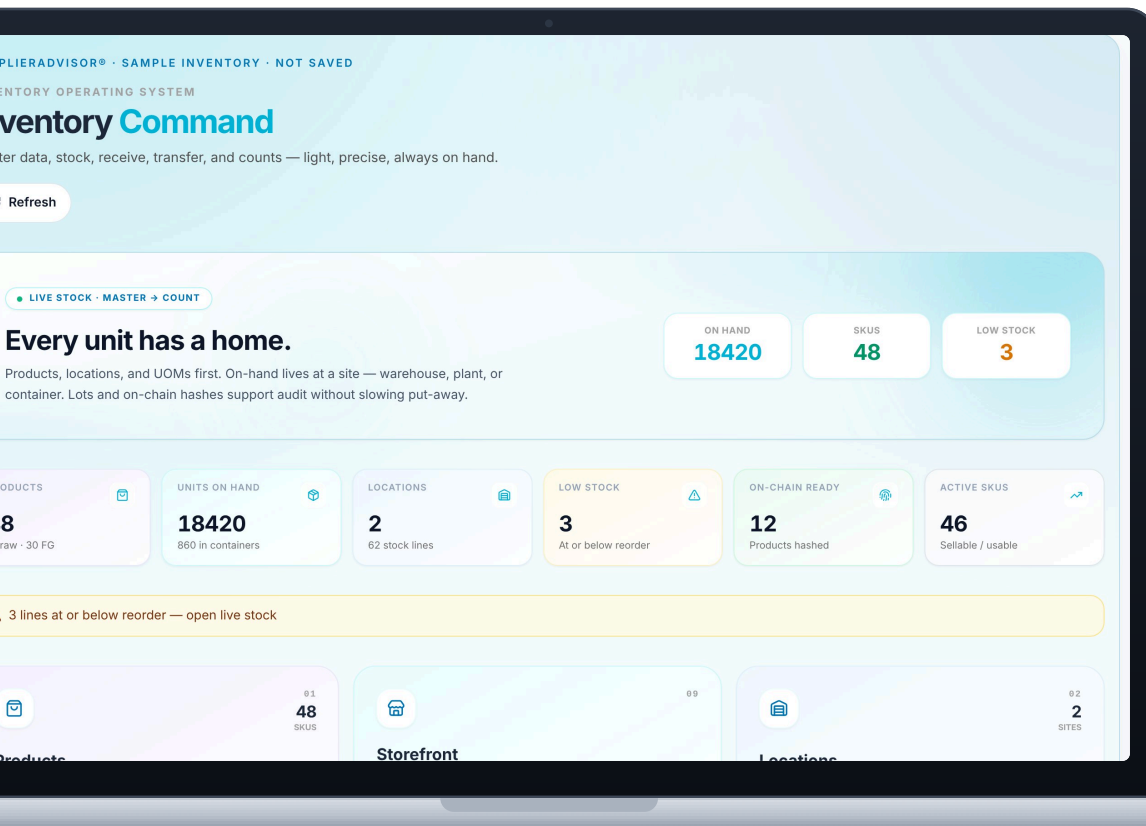

Lines from the supplier's catalogue or agreed price list, with a promised date.

Email and push alerts

Inbound, accepted, invoiced and fulfilment events reach the right people.

INVENTORY

Stock that *follows the trade.*

Goods land in warehouses by lot when a purchase order is received, and move out on sales, transfers and production. Every movement has a place in the books.

Inventory by lot and warehouse

Products, locations and units first, then on-hand by site, lot and container.

Counts and scanning

Transfers, stock takes, cycle counts, barcode scanning, EDI and GS1 helpers.

Purchase orders to stock

Receive against the PO, and the supplier invoice posts to accounts payable.

Cost of sales in the ledger

Stock costs flow to cost of sales, so gross profit in the reports is real.

Know your numbers *today, not at month-end.*

Sales, purchases, stock and the bank all post to one general ledger, so the management accounts are live for any period you pick: revenue through gross profit to operating profit, with the bank beside it.

Bank and reconciliation

Live management reports

VAT and the VAT return

Financial statements

- ✓ Period P&L bridge, expense mix and budget vs actual
- ✓ Ratios: margins, current and quick ratio, debt to equity, ROA and ROE
- ✓ Forecasts, AR and AP aging, and a management cash flow against budget
- ✓ One click to a management pack PDF for the board or the bank

BANK INTEGRATION AND RECONCILIATION

The bank, *coded for you.*

SupplierAdvisor® is connected with FNB. FNB transactions and imported statement lines land in one allocation queue.

Proposals learn from how you post journals and VAT, then you post or change the account.

Statement import

Bring in bank statements as PDF, CSV or OFX, for as many accounts as you run.

Auto-match

Scores unallocated lines against open invoices, bills and your rules.

Settle AR and AP in one step

A matched receipt or payment clears the invoice and posts to the ledger.

Bank vs ledger, always visible

Set statement balances any time and see what is still unallocated.

Connected with FNB

FNB transactions come into the same allocation queue, ready to reconcile.

CONNECTED BANKS

FNB

● **Connected**

Other banks to follow. Until then, import statements.

VAT you can *stand* behind.

Invoices, bills and bank lines carry a South African VAT code, so the VAT return box builds itself for the period you choose: output VAT, input VAT and the amount payable to SARS or the refund due.

- 

South African VAT codes

Standard rate 15%, zero-rated, exempt and out of scope, set up for you.
- 

VAT return box

Standard-rated sales and purchases, zero-rated and exempt supplies, and net VAT: the figures for your VAT201.
- 

Find and fix wrong codes

Filter every VAT line by type and reallocate a wrong code before you file.
- 

Submit the VAT201 to SARS eFiling

LAUNCHING SOON

File the return from SupplierAdvisor®.

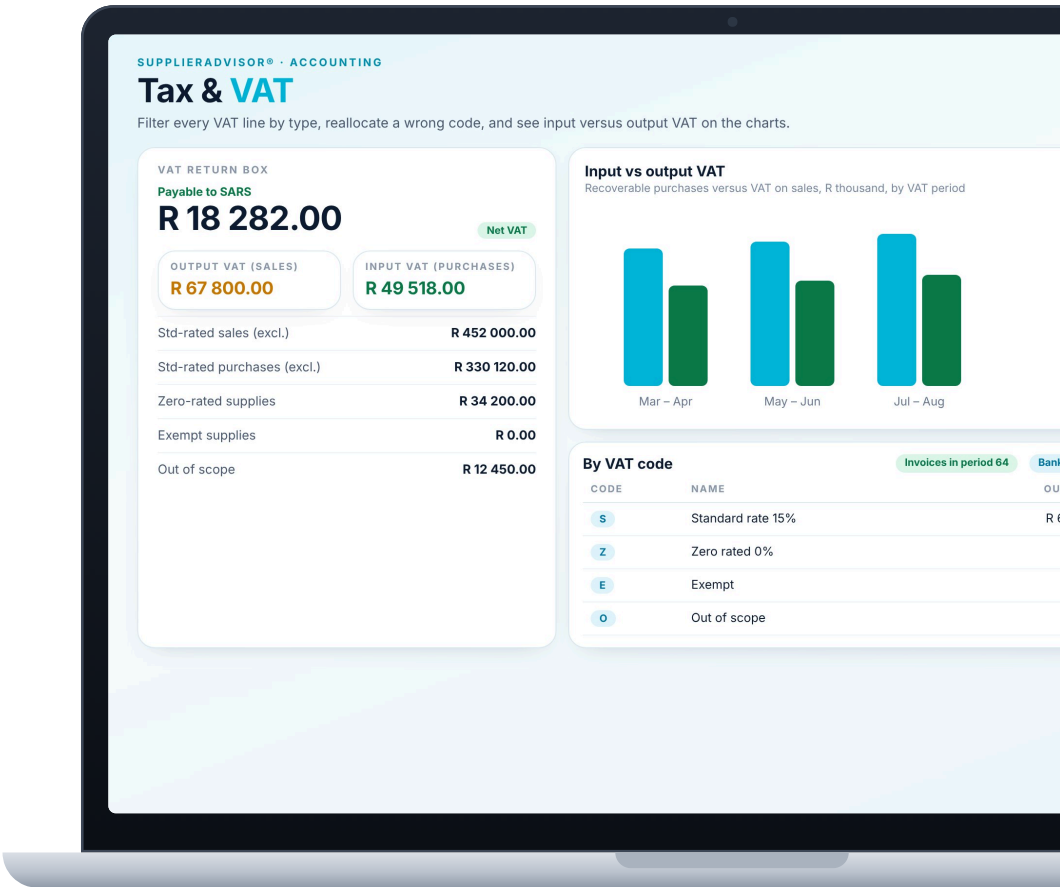

ILLUSTRATION · SAMPLE DATA

Year-end, *without the scramble.*

The statements come straight from posted journals, so they are ready when your accountant asks.

Profit or loss

Revenue through net profit, for any period, with comparatives.

Balance sheet

IAS 1 statement of financial position at the period end, with working capital.

Cash flow

IAS 7 direct method from the cash and bank ledger, with the reconciliation of profit to operating cash.

Annual financial statements

An IFRS-oriented AFS pack: financial position, profit or loss and OCI, changes in equity, cash flows, notes and policies.

Also in the box: trial balance, period locks, year-end close to retained earnings, IFRS 9 credit-loss allowance and multi-entity books. Statements are marked unaudited; your auditor signs off.

Locked down *by design.*

Security is layered, so no single control carries the load. Every request passes each layer before it touches company data.

Edge and transport HTTPS, an enforced Content-Security-Policy and rate limits on sensitive APIs.

Identity Privy sign-in by email, Google, Apple or wallet. Every API call carries a verified token.

Tenancy Company membership is checked on the server, and every query is scoped to that company.

Role permissions Eight roles, from owner to sales contractor. Critical writes need named roles.

Database Row-level security on every table. Browser keys get no direct access.

Audit and monitoring Sensitive actions go to an activity log, with health checks for operations.

PART 2

HireAdvisor® *for hire and rental.*

The full showcase: the problems it solves, every feature, the hire app, a day in the yard, and what it costs.

Great gear. *Messy* bookings.

Most hire businesses run on a WhatsApp book, a whiteboard and a cash box of deposits. HireAdvisor® puts the gear, the rules and the money on one system.

“Our hire book is a WhatsApp chat.”

THE FIX Bookings on a calendar per unit, with a quote that follows the rate unit.

“There are no safety rules for kids party gear.”

THE FIX A kids party category that enforces flat ground, power, adult supervision and age and weight limits.

“Plant goes out without a licence or insurance check.”

THE FIX Category rules for licence, insurance and site access before gear can go out.

“The same excavator got booked twice.”

THE FIX Each unit has its own calendar, so it cannot be double-booked, and extensions only fit free days.

“Damage notes are nowhere near the booking.”

THE FIX Handover OUT and RETURN with condition notes on the hire, and damage against the deposit.

“Fees and deposits are never clear.”

THE FIX Members pay rental plus a refundable deposit. The listing business pays a 2.5% take-rate on completed hires.

From listing to *returned*, on one system.

HireAdvisor® is the hire and rental marketplace inside SupplierAdvisor®. List gear from Inventory, let people hire it on the free SA Member app, and run handover, deposits and settlement on the same books.

Supply

Suppliers, categories and a catalogue built from Core Inventory.

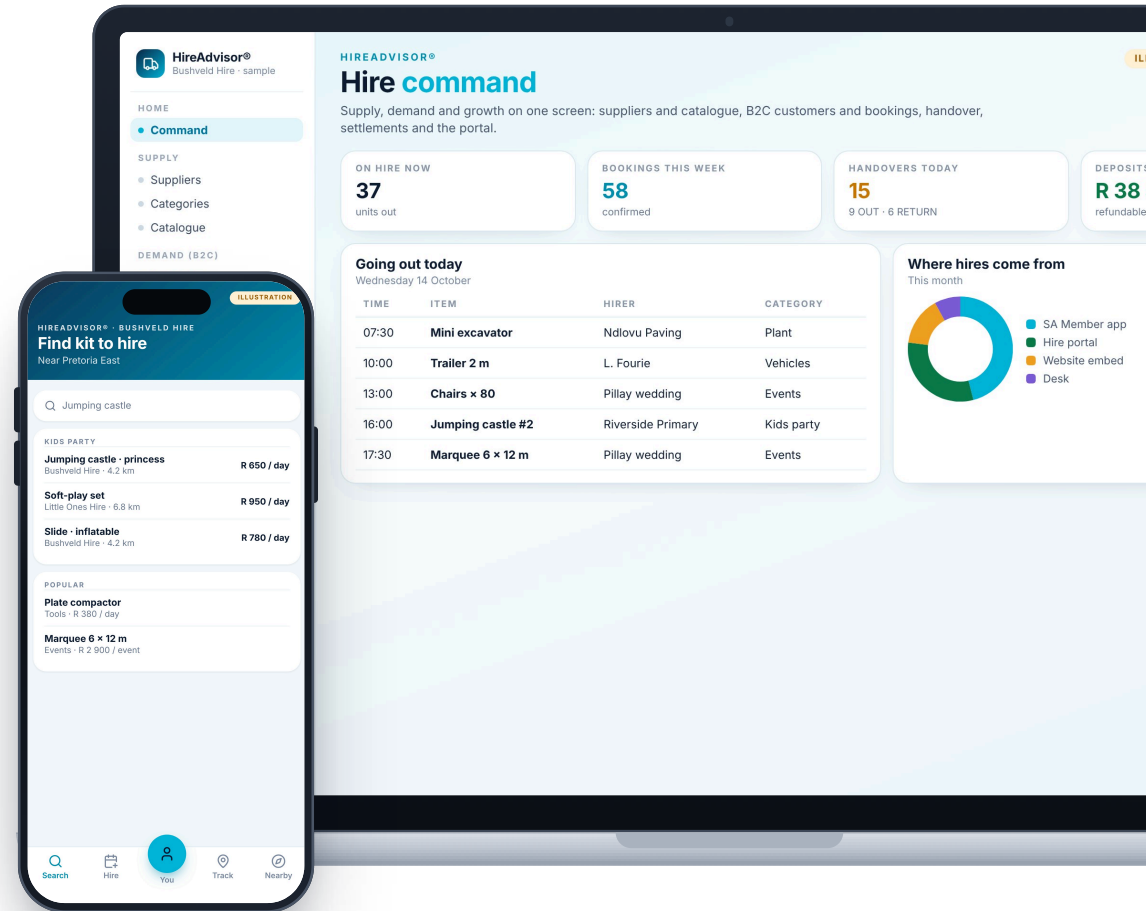

Demand

per unit, so nothing is double-booked

Seven steps. *One* hire record.

Every hire runs on the same record, from the listing to the returned deposit. The desk, the supplier and the hirer all see their part.

Every unit, *every day,* *at a glance.*

Every hire on a day, week or month grid. Toggle a category to see only plant, vehicles, kids party or tools. Click a block for duration and whether it can be extended.

Day, week and month

Every hired item on one grid.

Category toggles

Plant, vehicles, kids party, tools and events.

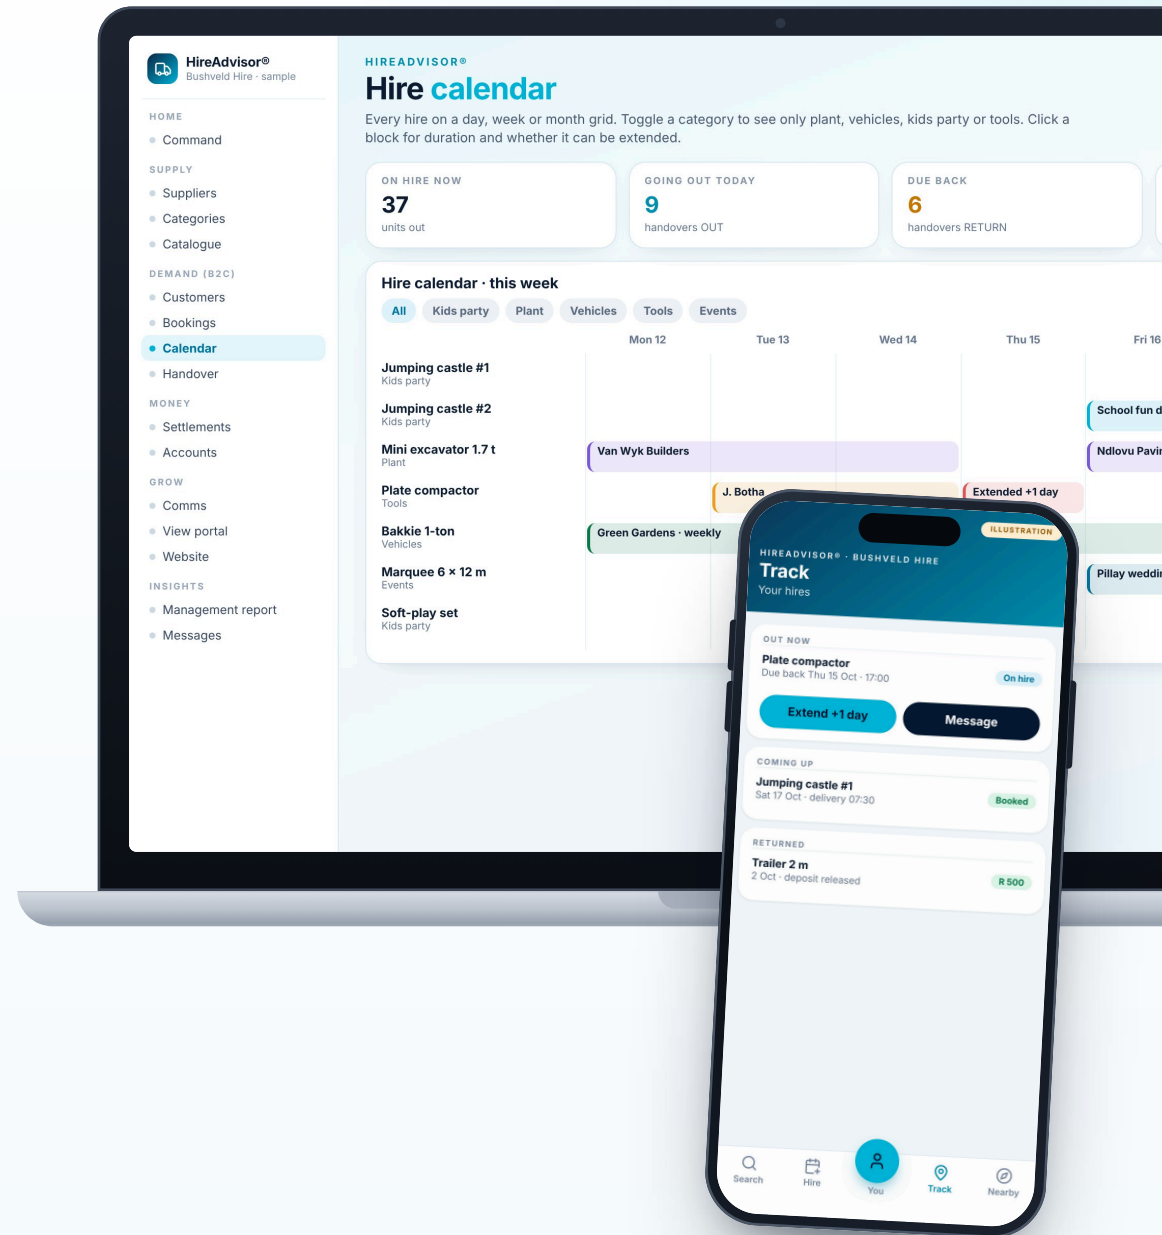

Extend in a click

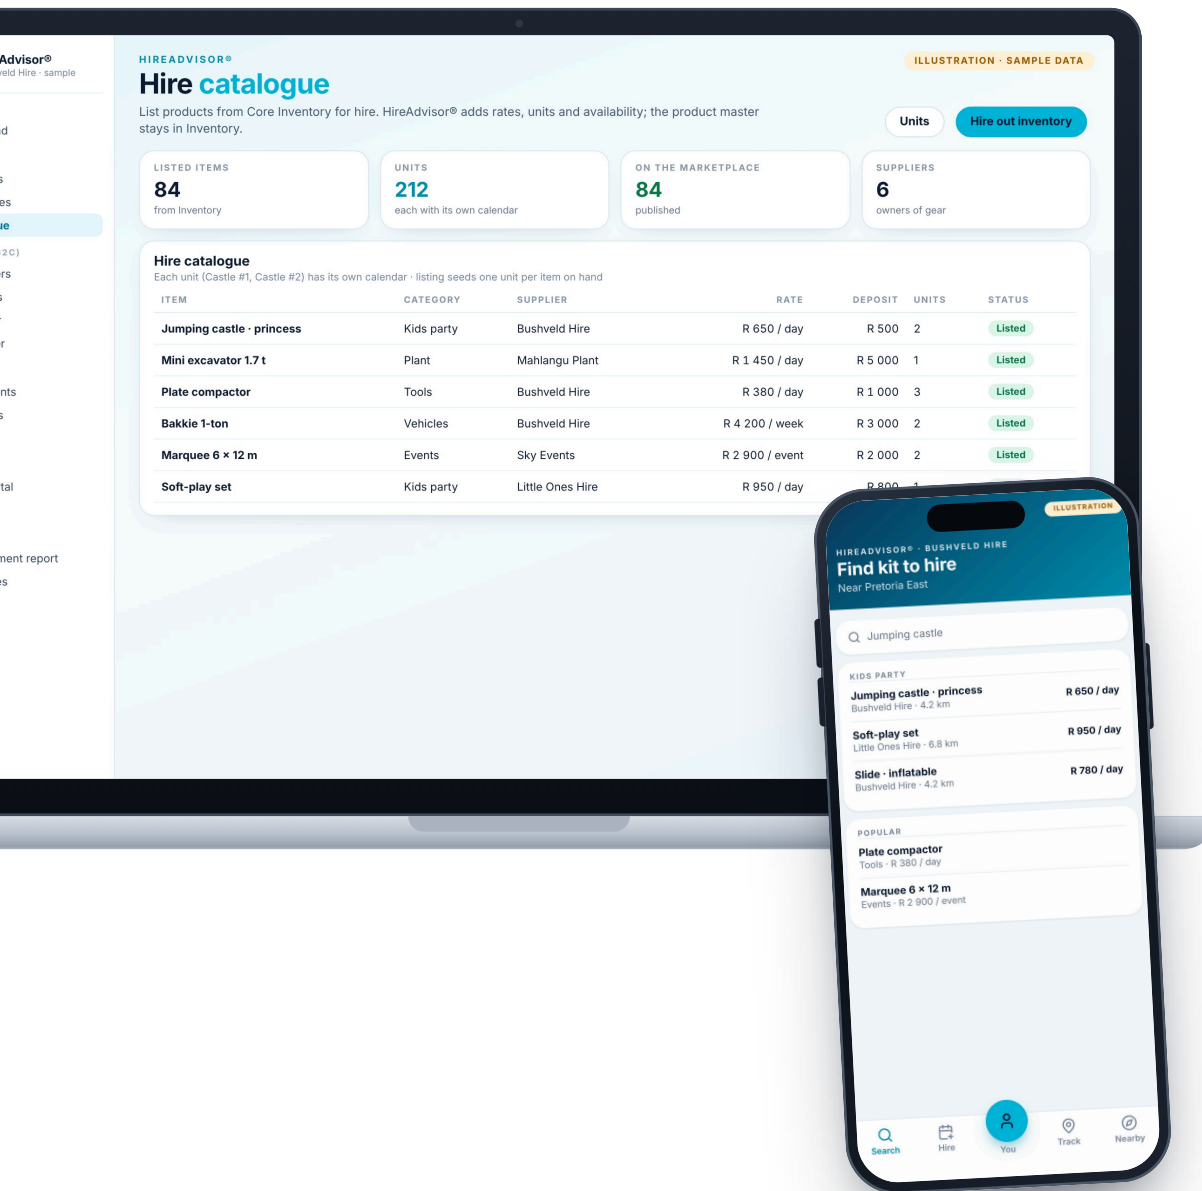

Only when the extra days are free.

One calendar per unit

Castle #1 and Castle #2 are booked separately.

FEATURE 02 · CATALOGUE FROM INVENTORY

List your gear *once*.

Pick a product from Core Inventory and HireAdvisor® adds rates, units and availability. It is published on the marketplace, and the product master stays in Inventory.

Hire out inventory

Listing seeds one unit per item on hand.

Rates and deposits

Per day, per week or per event, with a deposit.

Supplier-owned gear

Owners of gear live in Core Suppliers; list items against them.

On the marketplace

Published for people to find and hire.

The right rules, *before gear goes out.*

Each hire category enforces different customer and site requirements. Jumping castles need flat ground, power, adult supervision and age and weight limits; plant needs a licence, insurance and site access.

Kids party

Jumping castles, soft play and slides with safety rules.

Plant

Operator licence, insurance and site access.

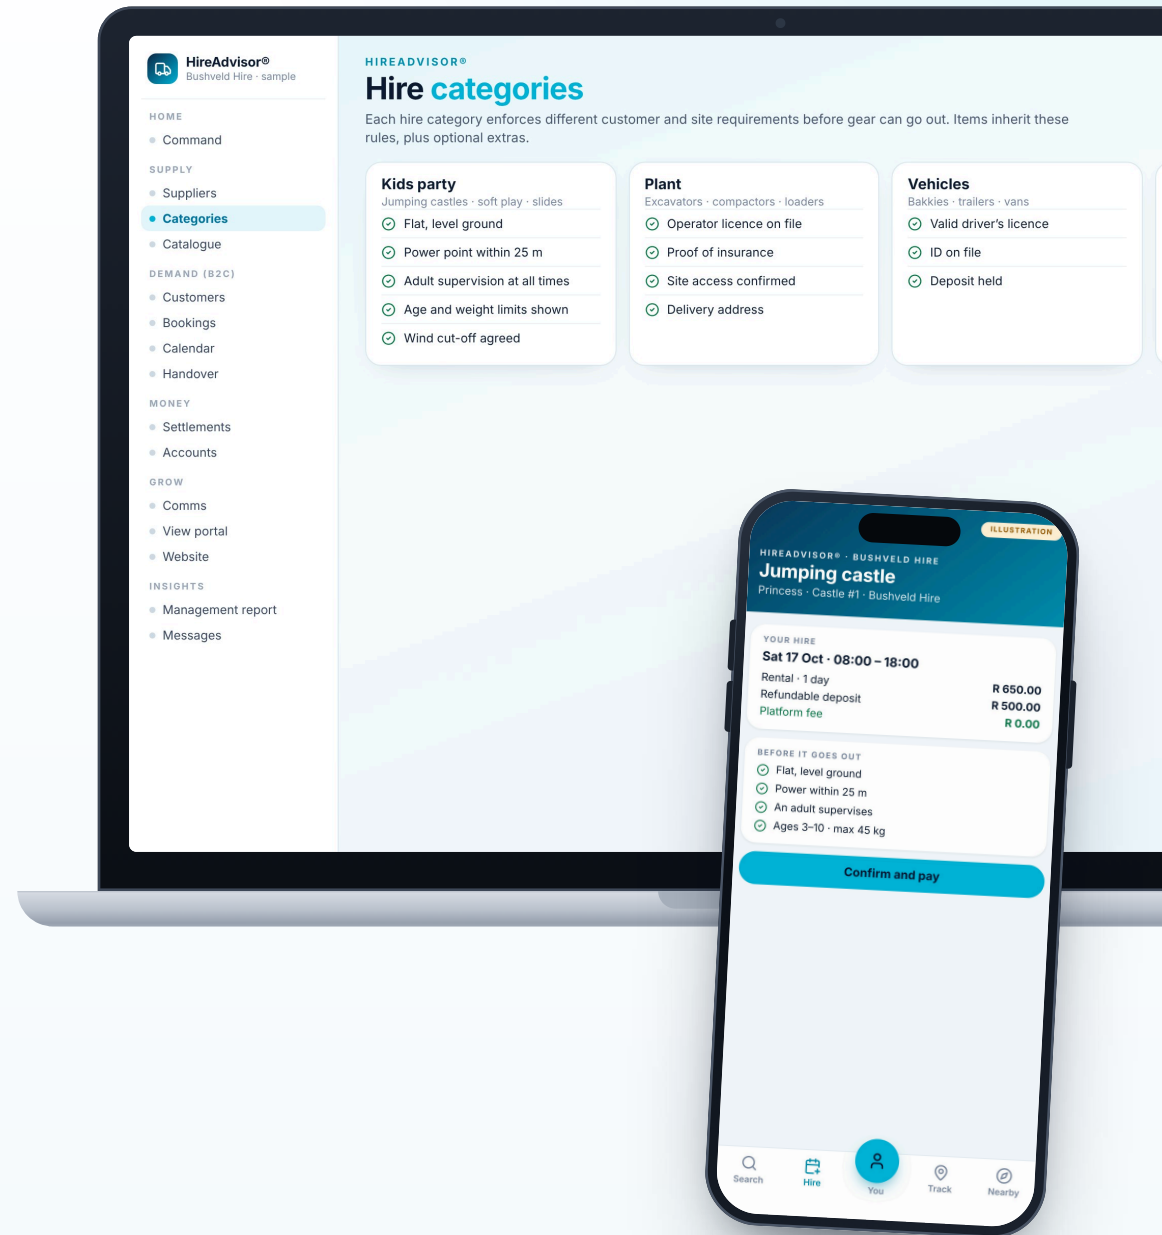

Vehicles

Licence, ID and deposit.

Items inherit rules

Plus optional extras per item.

Book it, quote it, *never double-book it.*

Set start and end; duration and quote follow the item's rate unit. A unit cannot be double-booked, and the booking shows when all category requirements are met for the customer.

Start, end and quote

Duration and price follow the rate unit.

Requirements met

Checked against the category before confirming.

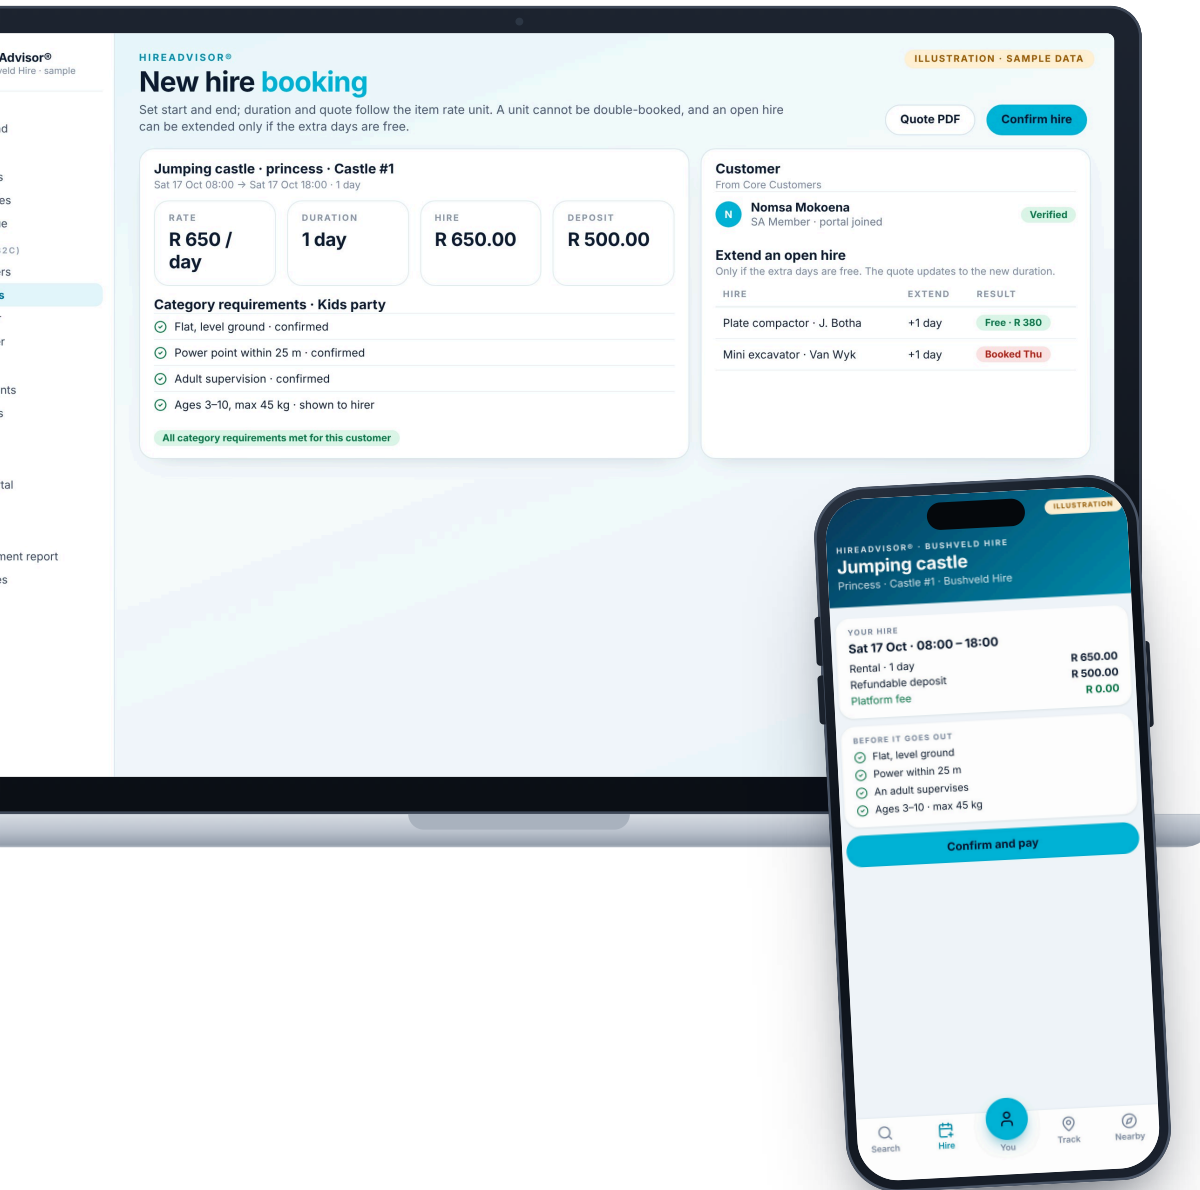

Extensions

Only if the extra days are free; the quote updates.

Customers in Core

Renters live in Core Customers with a portal link.

OUT, RETURN *and a fair deposit.*

Record condition notes when gear leaves and when it comes back. Damage can be taken from the deposit, and deposit release is never commissionable.

Handover OUT

Condition, hours, fuel and accessories counted.

Handover RETURN

Checked in against the OUT notes.

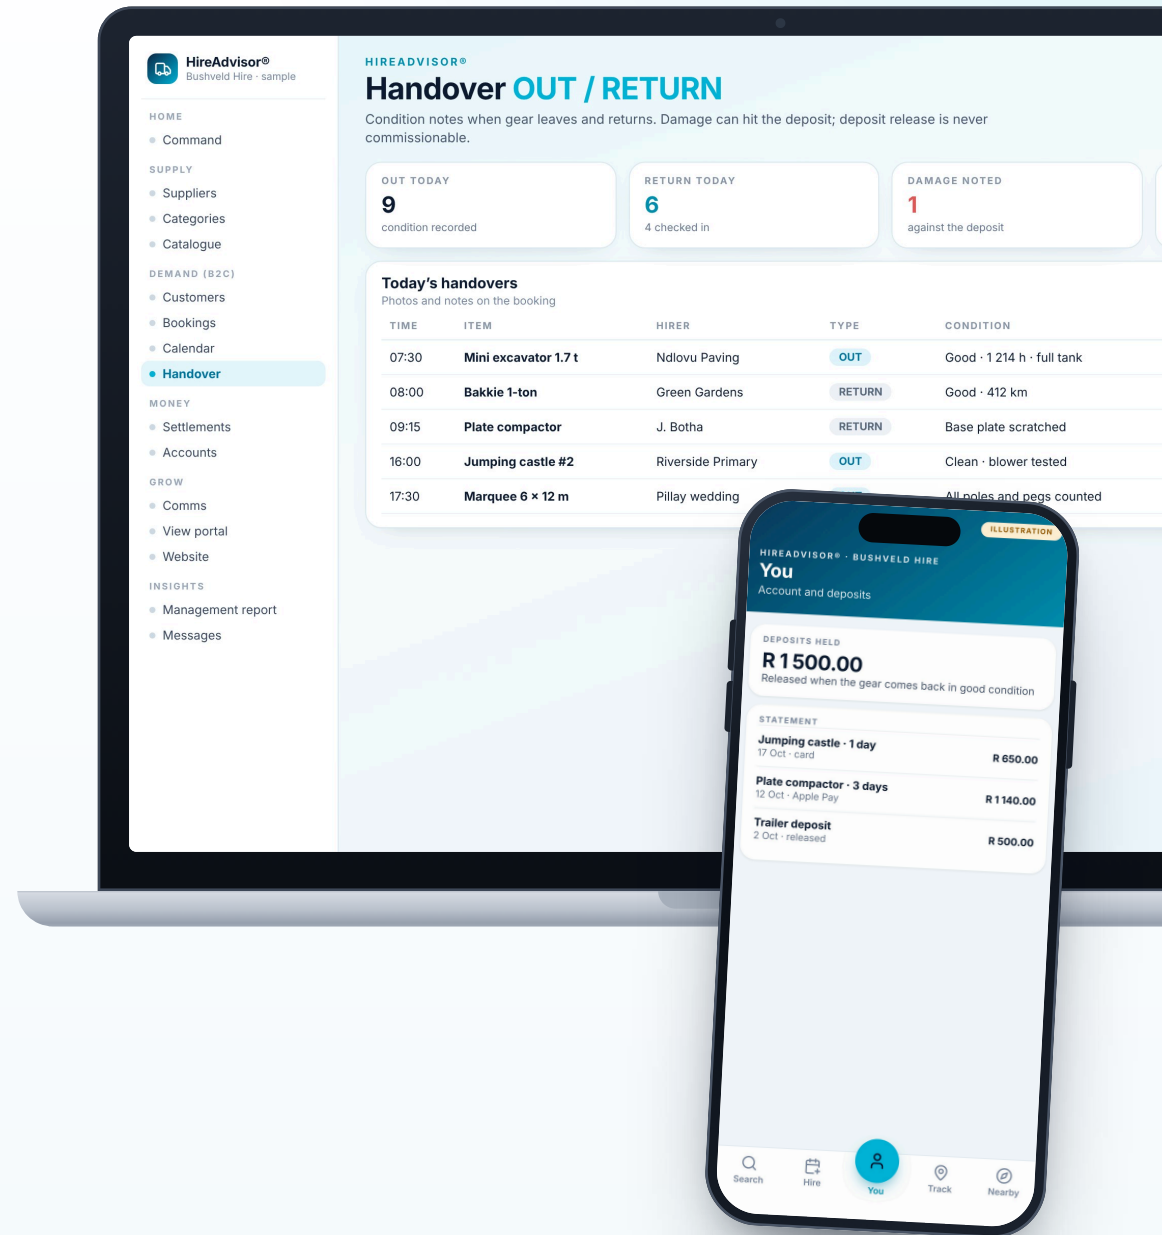

Deposits

Held, part-kept for damage or released.

Never commissionable

The 2.5% applies to hire value, never to the deposit.

Clear money *for everyone.*

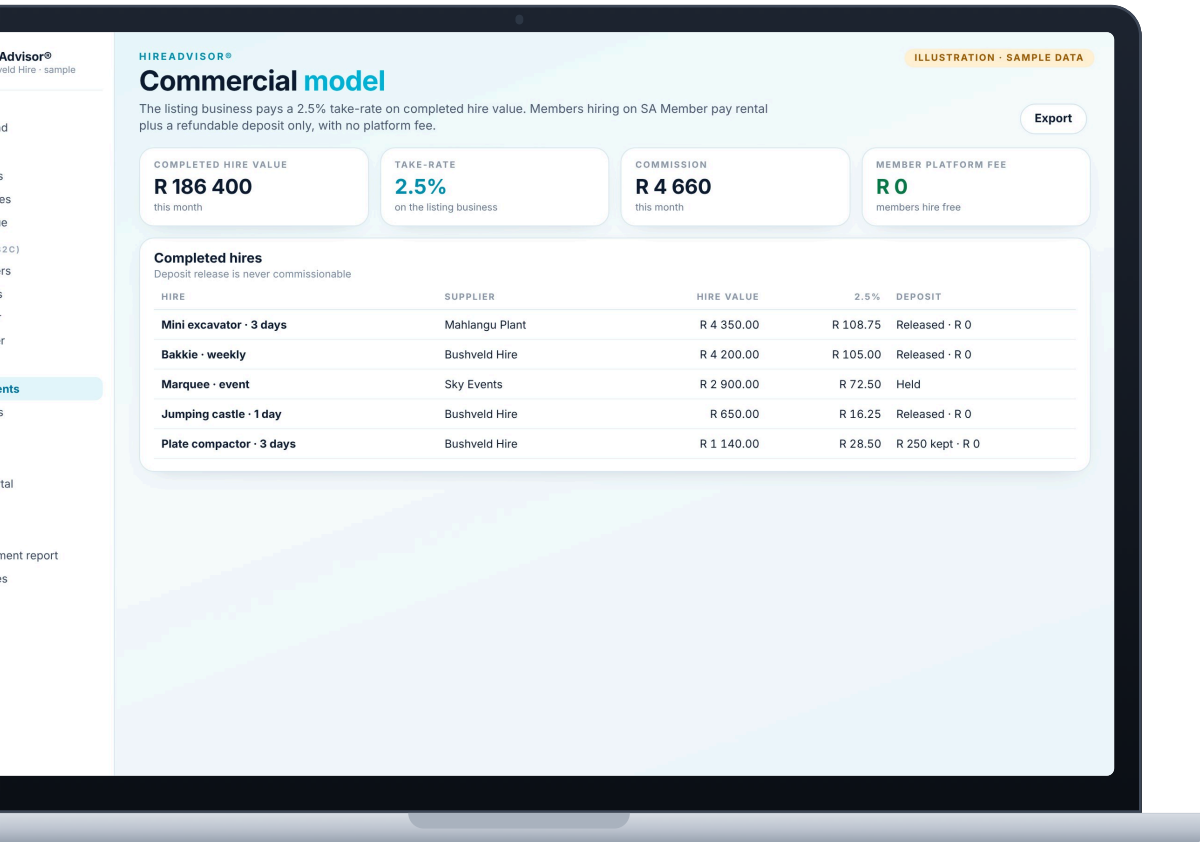

The listing business pays a 2.5% take-rate on completed hire value, and members pay no platform fee. Hirer accounts take card or Apple Pay (settles to your bank, 1% admin) or proof of payment, with receipts posted to Customers invoices.

A Saturday at *Bushveld Hire.*

An illustrative day with HireAdvisor®. Bushveld Hire is a fictional hire company with a yard, two drivers and supplier partners.

- 06:30** ● **Yard**
The calendar shows 9 going OUT and 6 due back. Kids party is toggled on for the castles.
- 07:30** ○ **Handover OUT**
The excavator leaves with hours, fuel and condition recorded on the booking.
- 08:00** ○ **A parent**
Hires a jumping castle on SA Member, confirms flat ground, power and supervision, and pays R 650 plus deposit.
- 09:15** ○ **RETURN**
The compactor's base plate is scratched. R 250 is kept from the deposit; the rest is released.
- 11:00** ○ **Extension**
A builder asks for one more day. The calendar shows the day is free and the quote updates.
- 13:00** ○ **Supplier**
Sky Events' marquee goes out from their stock, listed through HireAdvisor®.
- 17:00** ○ **Deposits**
Four deposits are released. None of them count towards commission.
- 19:00** ● **Owner**
The management report shows 71% utilisation and the month's 2.5% settlement.

Start free trial →

Q Do hirers have to download an app?

No. The hire app opens from a link and installs on the home screen, and members can hire on the free SA Member app.

Q What is the 2.5%?

A take-rate on completed hire value, paid by the listing business. Deposit release is never commissionable.

Q How do the kids party rules work?

The category requires flat ground, power, adult supervision and age and weight limits before a castle can go out.

Q Do I keep my product list in two places?

No. The catalogue is listed from Core Inventory, which stays the product master.

Q Do I need SupplierAdvisor® as well?

Yes. HireAdvisor® is an industry pack on the SupplierAdvisor® core plan, which also gives you accounting, inventory, suppliers and SAM.

Q What does it cost the hirer?

Rental plus a refundable deposit. Members pay no platform fee.

Q Can a unit be double-booked?

No. Each unit has its own calendar, and an extension is only allowed if the extra days are free.

Q Can we list partners' gear?

Yes. Add gear owners under Core Suppliers and list catalogue items against them.

Q How do hirers pay?

Card or Apple Pay on the app (settles to your bank, 1% admin), or proof of an EFT.

Q Is our data safe?

Every API call checks your sign-in and company role on the server, and the database refuses direct browser access. Personal data is handled with POPIA in mind.
