One platform to *run and grow* your business.

SupplierAdvisor® is the supply-chain operating system with a verified trade and trust layer. Suppliers, customers, orders, stock, money and compliance live in one company workspace, with counterparties you can check and score.

B2B

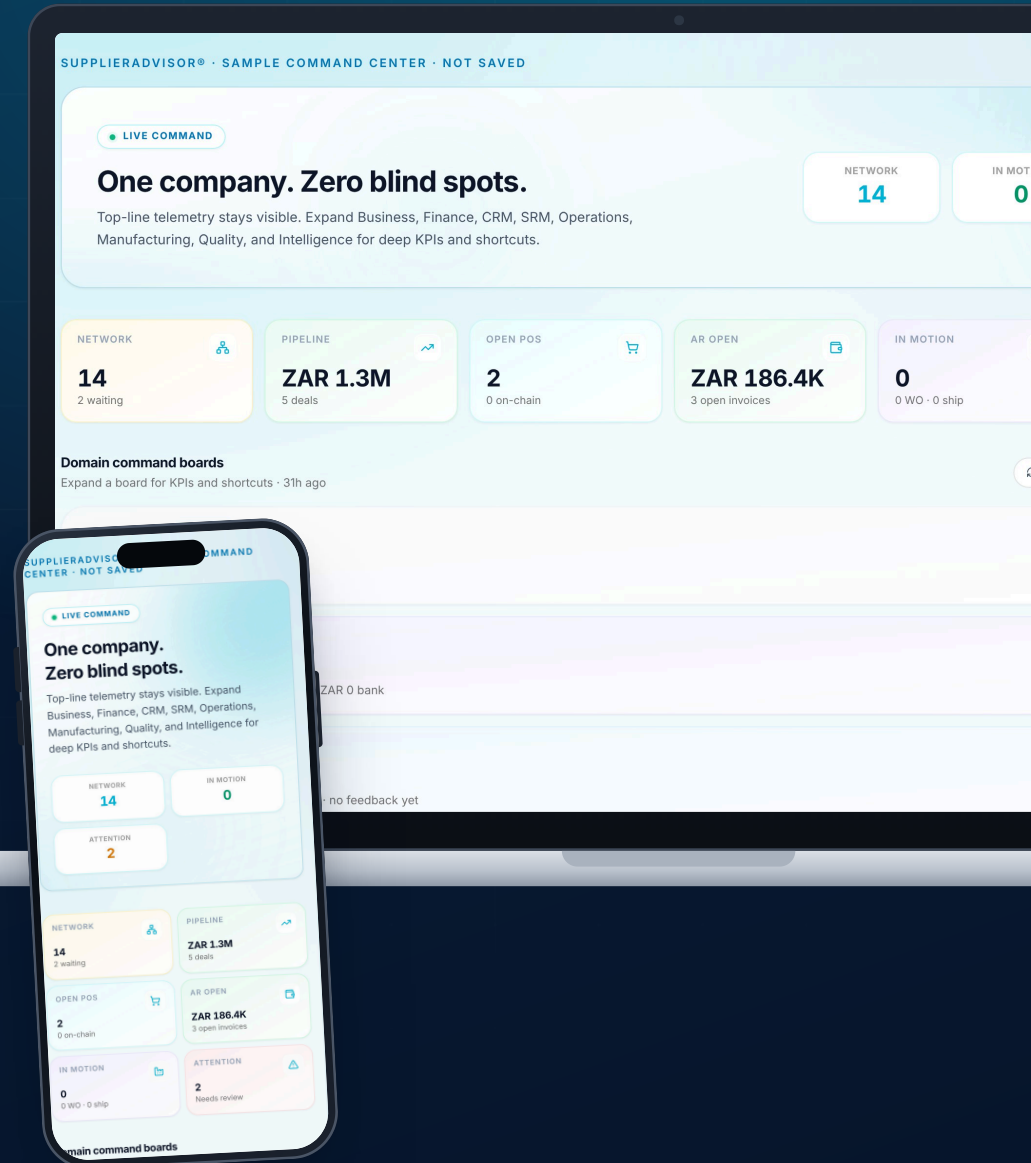

Manufacturers, distributors, brands and trades

B2G

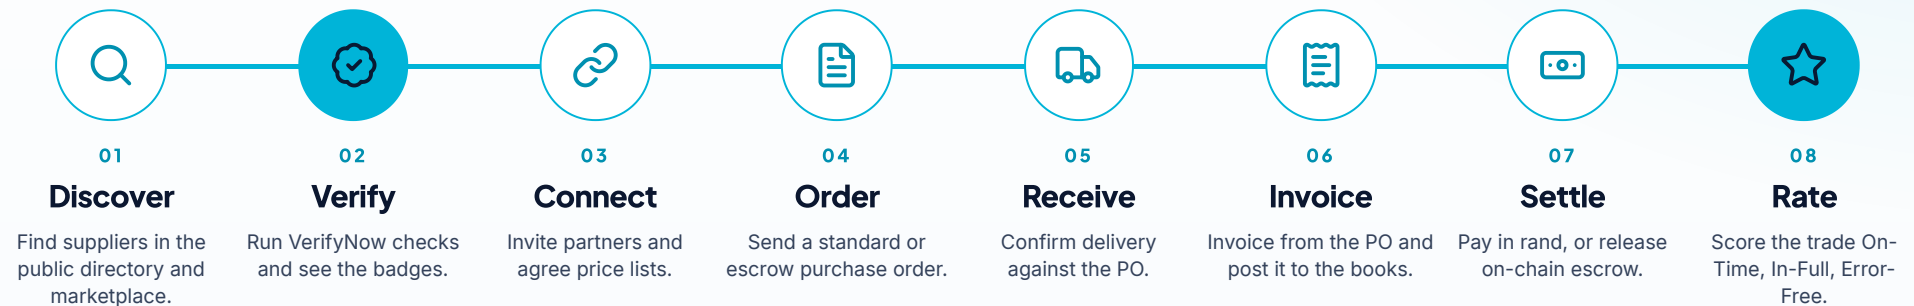

Government programmes with audit-ready packs

B2C

Industry apps, storefronts and tills

The whole trade loop on one workspace, *with trust built in.*

Company check

Paid VerifyNow checks against CIPC, Home Affairs, AML/PEP lists and bank accounts, shown as badges.

OTIFEF scorecard

Every trade can be rated On-Time, In-Full and Error-Free, building a scorecard over time.

RIAD on the relationship

A shared log of Risks, Issues, Actions and Decisions for each customer and supplier.

Everything a company needs, *in every plan.*

Every company gets the same core operating system on the base plan. It's priced per company, not per seat, so the whole team is in.

Profile and verification

A company profile buyers trust, with VerifyNow badges, team roles and several workspaces under one login.

Network and connections

Invite the partners you trade with, agree price lists, and earn referral fees on their subscriptions.

Suppliers and marketplace

A supplier book with dossiers, contracts, ratings and RIAD, plus a public directory and marketplace.

Purchase orders and escrow

Standard or escrow POs, a buyer portal, and an inbound inbox where sellers accept or decline.

Inventory

Raw materials, finished goods, lots, warehouses, transfers, counts, scanning and GS1 data.

Accounting and finance

Bank reconciliation, live management accounts, VAT, P&L, balance sheet, cash flow and AFS.

Customers and credit

Leads, quotes, orders and invoices, credit applications, AR aging and reminders.

SHEQ and quality

QA inspections, holds and release, OH&S and NCR/CAPA on the same books.

Intelligence and SAM

Pulse insights, scorecards and forecasts, and SAM, the assistant that shows you how.

Buy from suppliers *you can prove.*

Find suppliers in the public directory, check their badges and ratings, then send a purchase order from their catalogue. They accept it in their inbound inbox, and you track it to delivery.

Directory and marketplace

Search by industry, city and country, shortlist suppliers and open a full profile dossier.

Supplier book (SRM)

Documents, contracts, performance, ratings and the RIAD log in one place.

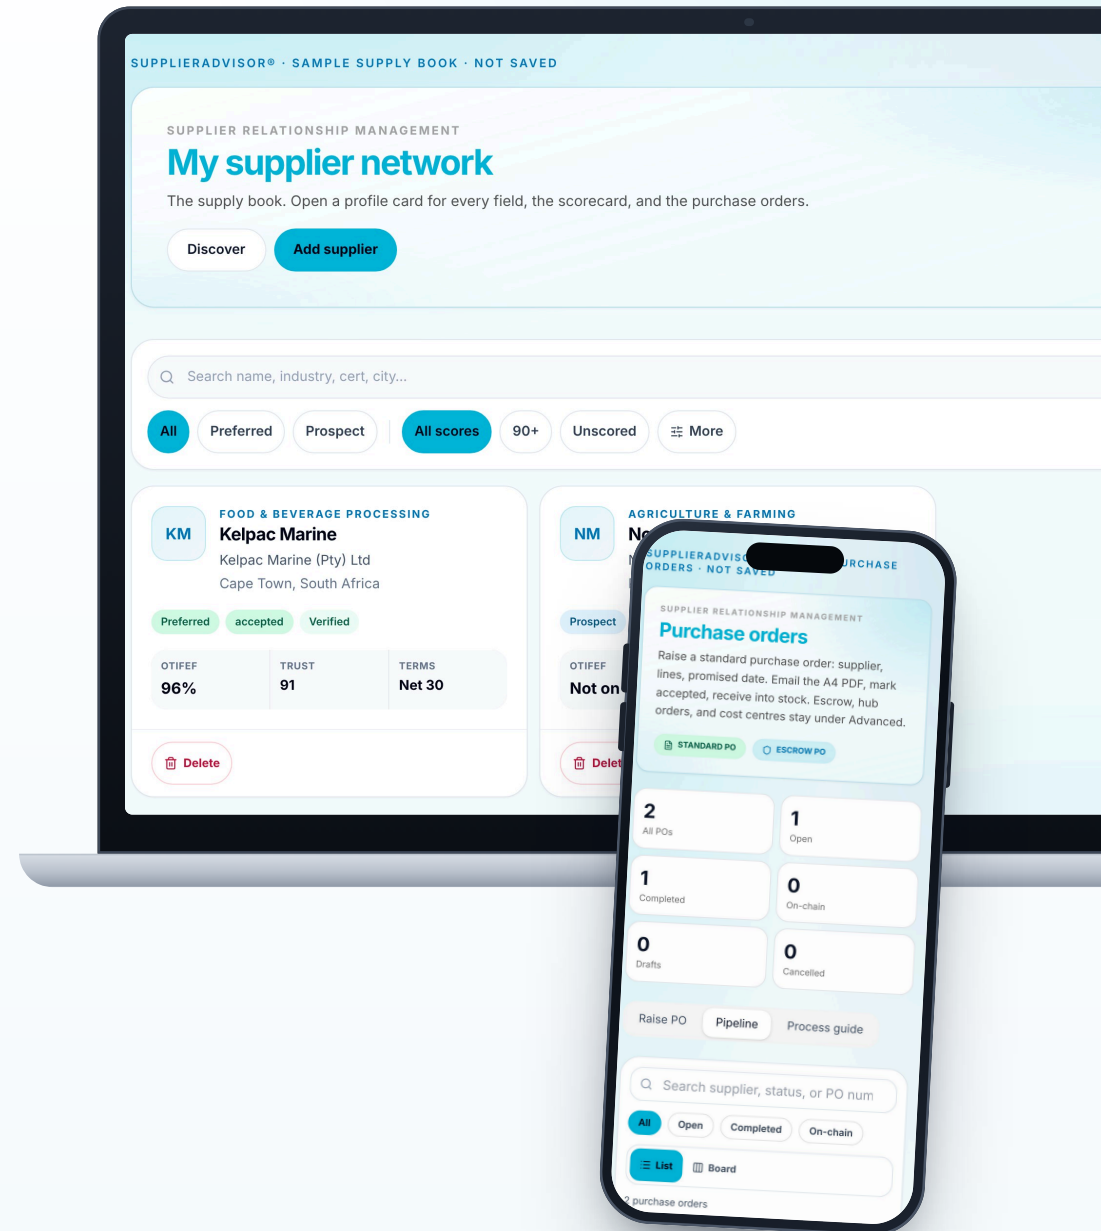

Standard or escrow PO

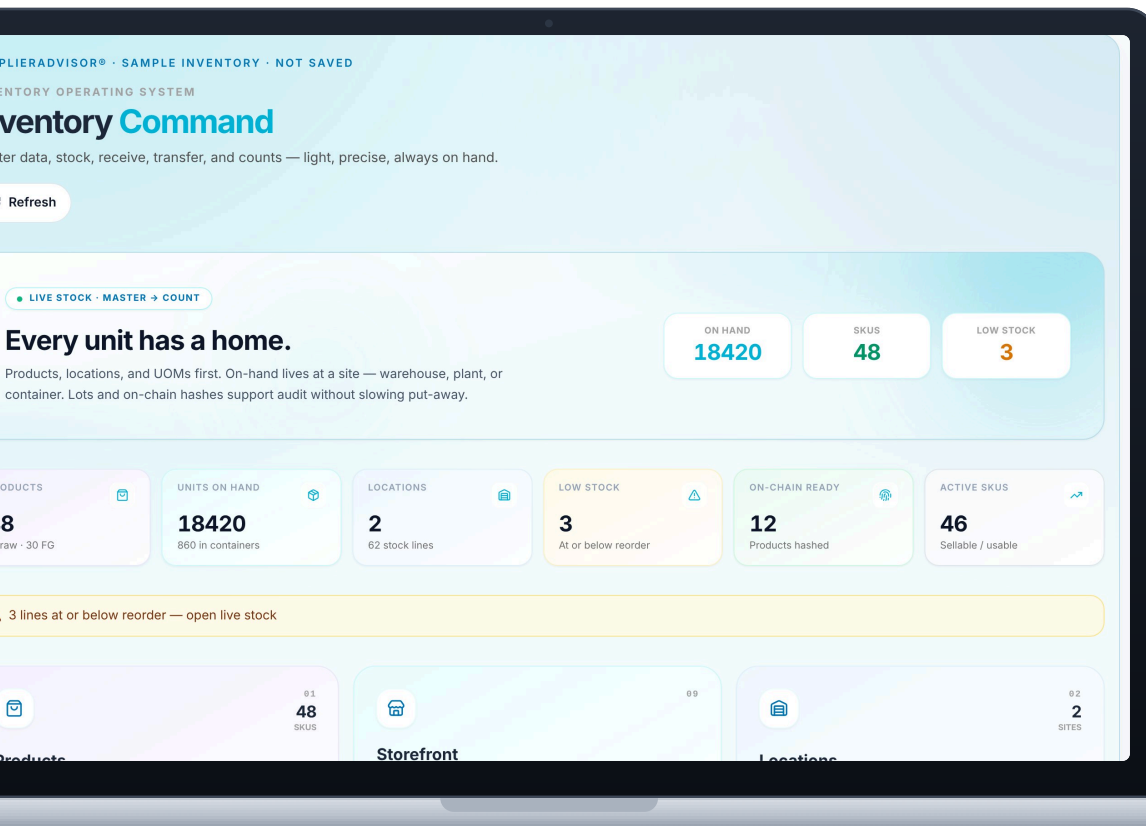

Lines from the supplier's catalogue or agreed price list, with a promised date.

Email and push alerts

Inbound, accepted, invoiced and fulfilment events reach the right people.

INVENTORY

Stock that *follows the trade.*

Goods land in warehouses by lot when a purchase order is received, and move out on sales, transfers and production. Every movement has a place in the books.

Inventory by lot and warehouse

Products, locations and units first, then on-hand by site, lot and container.

Counts and scanning

Transfers, stock takes, cycle counts, barcode scanning, EDI and GS1 helpers.

Purchase orders to stock

Receive against the PO, and the supplier invoice posts to accounts payable.

Cost of sales in the ledger

Stock costs flow to cost of sales, so gross profit in the reports is real.

Know your numbers *today, not at month-end.*

Sales, purchases, stock and the bank all post to one general ledger, so the management accounts are live for any period you pick: revenue through gross profit to operating profit, with the bank beside it.

Bank and reconciliation

Live management reports

VAT and the VAT return

Financial statements

- ✓ Period P&L bridge, expense mix and budget vs actual
- ✓ Ratios: margins, current and quick ratio, debt to equity, ROA and ROE
- ✓ Forecasts, AR and AP aging, and a management cash flow against budget
- ✓ One click to a management pack PDF for the board or the bank

SUPPLIERADVISOR® · ACCOUNTING

ILLUSTRATION · SAMPLE DATA

BANK INTEGRATION AND RECONCILIATION

The bank, *coded for you.*

SupplierAdvisor® is connected with FNB. FNB transactions and imported statement lines land in one allocation queue.

Proposals learn from how you post journals and VAT, then you post or change the account.

Statement import

Bring in bank statements as PDF, CSV or OFX, for as many accounts as you run.

Auto-match

Scores unallocated lines against open invoices, bills and your rules.

Settle AR and AP in one step

A matched receipt or payment clears the invoice and posts to the ledger.

Bank vs ledger, always visible

Set statement balances any time and see what is still unallocated.

Connected with FNB

FNB transactions come into the same allocation queue, ready to reconcile.

CONNECTED BANKS

FNB

● **Connected**

Other banks to follow. Until then, import statements.

VAT you can *stand* behind.

Invoices, bills and bank lines carry a South African VAT code, so the VAT return box builds itself for the period you choose: output VAT, input VAT and the amount payable to SARS or the refund due.

South African VAT codes

Standard rate 15%, zero-rated, exempt and out of scope, set up for you.

VAT return box

Standard-rated sales and purchases, zero-rated and exempt supplies, and net VAT: the figures for your VAT201.

Find and fix wrong codes

Filter every VAT line by type and reallocate a wrong code before you file.

Submit the VAT201 to SARS eFiling

LAUNCHING SOON

File the return from SupplierAdvisor®.

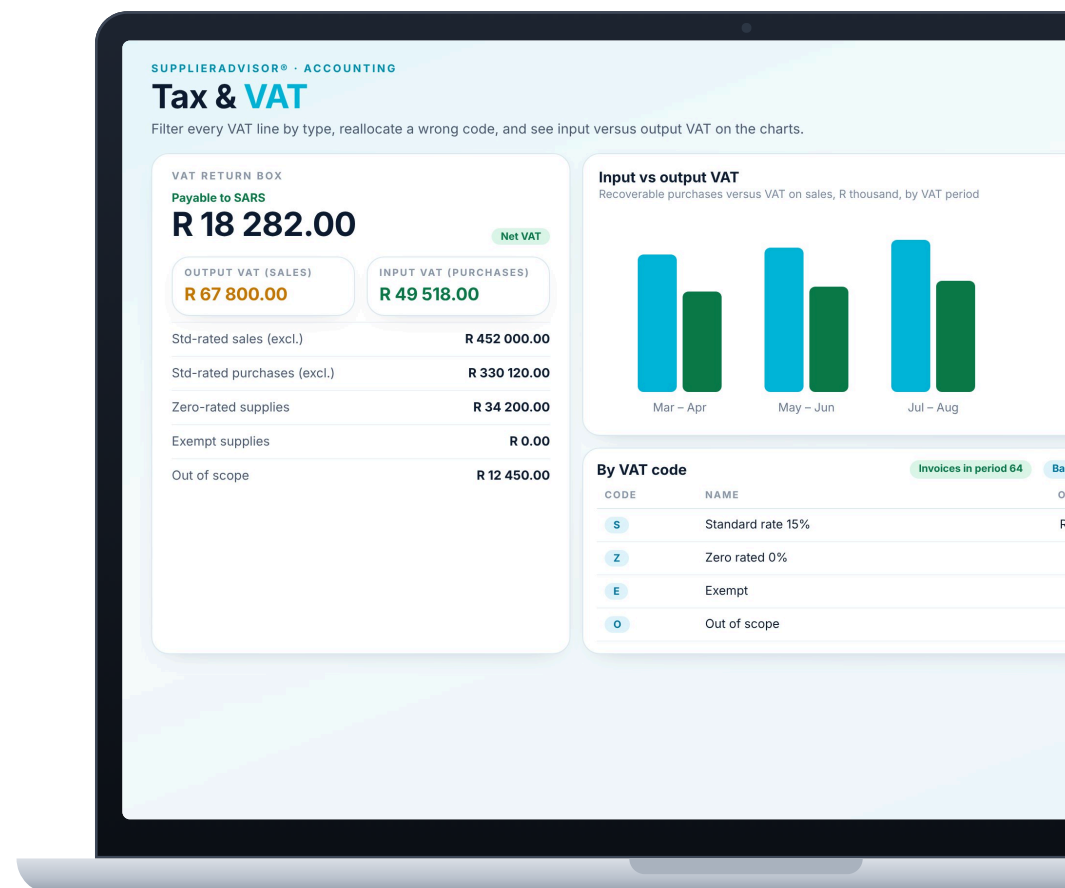

ILLUSTRATION · SAMPLE DATA

Year-end, *without the scramble.*

The statements come straight from posted journals, so they are ready when your accountant asks.

Profit or loss

Revenue through net profit, for any period, with comparatives.

Balance sheet

IAS 1 statement of financial position at the period end, with working capital.

Cash flow

IAS 7 direct method from the cash and bank ledger, with the reconciliation of profit to operating cash.

Annual financial statements

An IFRS-oriented AFS pack: financial position, profit or loss and OCI, changes in equity, cash flows, notes and policies.

Also in the box: trial balance, period locks, year-end close to retained earnings, IFRS 9 credit-loss allowance and multi-entity books. Statements are marked unaudited; your auditor signs off.

ILLUSTRATION · SAMPLE DATA

SAMPLE TRADING (PTY) LTD · ANNUAL FINANCIAL STATEMENTS

Illustration · sample data from a fictional company.

Sell more, *collect faster.*

Leads, quotes, orders and invoices sit on one customer record. Trade credit and overdue reminders keep cash moving, and SAM is on hand when you're stuck.

CRM with a 360° view

Leads, enquiries, quotes, orders, contracts, claims, loyalty and ratings for each customer.

Trade credit applications

From draft to approved or declined. Approval sets the customer's credit limit.

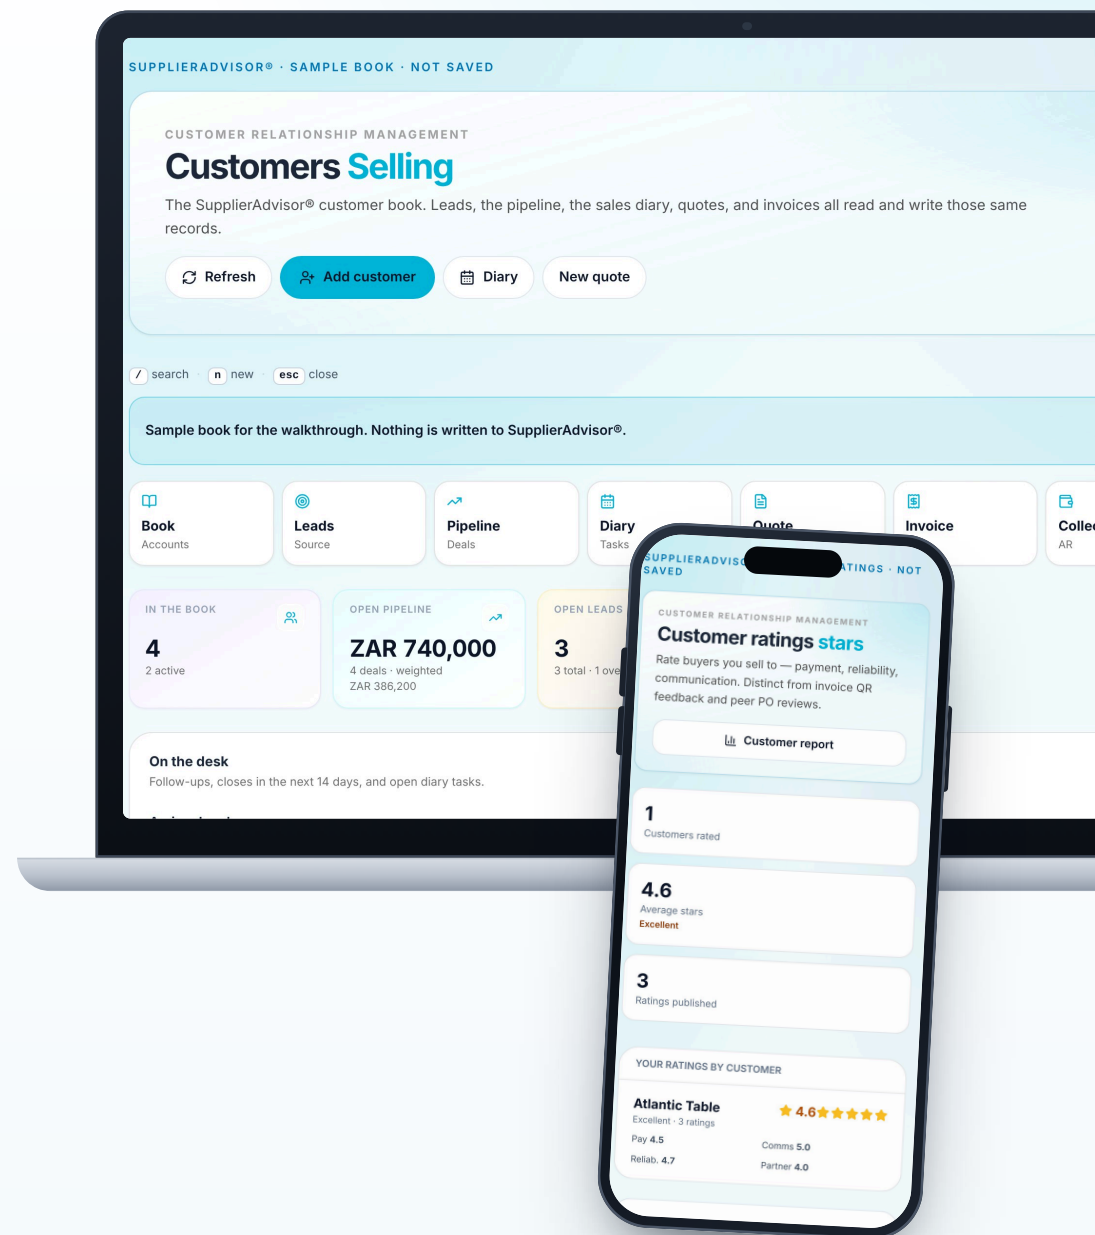

AR aging and reminders

From current to 90+ days, partial payments, and reminders by email or WhatsApp.

SAM assistant and insights

Rule-based insights with clear thresholds. SAM answers how-to questions and links to the right screen.

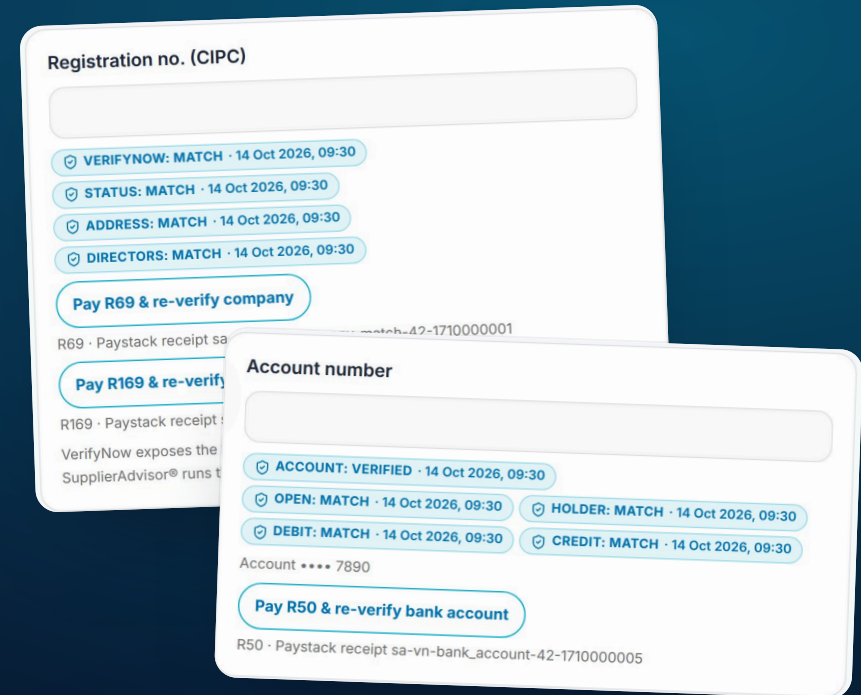

Trust you can *show*.

SupplierAdvisor® uses VerifyNow, a South African verification provider. You pay per check through Paystack, the check runs, and the badge and receipt are saved on the profile.

CIPC company match	Name, registration status, address and directors	R69
CIPC director search	Directors on record; VAT cross-check	R69
Director SA ID	Home Affairs check of a South African ID	R15
AML, PEP and sanctions	Screens a name against watch lists	R15
Company bank account	Account open, holder, accepts debits and credits	R50
Capitec Business / Mercantile	Business bank check by signed callback	R55
Supplier Bundle	Company + directors + AML/PEP + bank (list R203)	R169
Supplier Bundle, Capitec bank	As above with the Capitec check (list R208)	R179

Prices are VAT inclusive, per check. Personal checks (ID, AML/PEP) need recorded POPIA consent first.

Verified badges with their Paystack receipts on a company profile.

Two ways to move money, *both on the record.*

Paystack, in rand

- ✓ Subscriptions and prepaid terms
- ✓ VerifyNow checks, paid one at a time
- ✓ Invoice pay links that clients open in the industry apps
- ✓ Paystack's signature is checked before any action

Optional on-chain escrow

- ✓ Chosen per purchase order: send an escrow PO
- ✓ USDC, a dollar stablecoin, held by a smart contract
- ✓ The supplier is paid when the buyer confirms delivery
- ✓ Rand settlement stays the default for South African trade

THE ESCROW PURCHASE ORDER, IN FIVE STEPS

Buyer creates the PO

PO and amount

Buyer funds it

USDC held by the contract

Supplier ships

It works like a trust account run by code: every step leaves a tamper-evident record.

Your business, *on their home screen.*

Industry packs come with installable web apps (PWAs). No app store: open the link and add it to the home screen. Each one reads from the same company books.

TradeAdvisor®

Owner, technician and client apps. Clients follow the job, sign quotes and pay invoices.

GymAdvisor®

Member app: classes, progress and account.

Clinic packs

Patient apps to book, see the diary, and follow rehab, charts, records or pets.

RetailAdvisor®

Shoppers pay at the till by QR or tap on the SA Member app.

ApparelAdvisor®

A buyer app for wholesale ranges and available-to-sell stock.

Clients pay invoices in the app.

The TradeAdvisor® client app shows the statement balance and every invoice, and clients pay issued invoices in the app with Apple Pay, card or EFT through Paystack.

TradeAdvisor® client and owner apps · sample book, fictional business

Locked down *by design.*

Security is layered, so no single control carries the load. Every request passes each layer before it touches company data.

Edge and transport HTTPS, an enforced Content-Security-Policy and rate limits on sensitive APIs.

Identity Privy sign-in by email, Google, Apple or wallet. Every API call carries a verified token.

Tenancy Company membership is checked on the server, and every query is scoped to that company.

Role permissions Eight roles, from owner to sales contractor. Critical writes need named roles.

Database Row-level security on every table. Browser keys get no direct access.

Audit and monitoring Sensitive actions go to an activity log, with health checks for operations.

Built for POPIA

The Protection of Personal Information Act asks that personal data is processed lawfully, kept secure and seen only by the right people.

Consent

Personal checks will not run without recorded POPIA consent.

Need to know

Company-scoped data, a role matrix, and Finance limited to owner and finance roles.

Minimal exposure

Only a short list of public routes answers without sign-in.

Safeguards

Signed webhooks and share links, server-only keys, and rate limits.

Sector depth, *same core.*

Switch on a pack from Company → Modules for +R199 a month each. Government programmes are set up by administrators. Practice and trade fees stay with your business.

02

PART 2

PhysioAdvisor® *for physio and allied health.*

The full showcase: the problems it solves, every feature, the patient and physio apps, a day in the practice, and what it costs.

Great hands. *Messy* admin.

Most practices run on a paper chart, a phone diary and a WhatsApp group. PhysioAdvisor® puts patients, rehab, claims and money on one system.

“The charts are paper and the claims are scattered.”

THE FIX One patient record with the chart, medical aid and scheme submissions, and claims drafted from the visit.

“Every rebooking is a phone call.”

THE FIX Patients book open diary slots in their own app, family included.

“Two physios, one room, same slot.”

THE FIX Exclusive practitioner books and rooms on one diary, so nothing is double-booked.

“Hand-offs live in personal chat apps.”

THE FIX In-app messages between desk, physios and patients, by system user ID.

“Home exercises are a printout that gets lost.”

THE FIX Home programmes from the movement library, on the patient's Rehab tab with a clip.

“We lose patients between visits.”

THE FIX Rehab and review recalls list who is due back, and the waitlist fills freed slots.

From the first assessment to *paid*, on one record.

PhysioAdvisor® is the clinic OS inside SupplierAdvisor® for physios, OTs, biokinetics and allied health. Practitioners run their day from a phone, patients book and follow rehab in the clinic app, and the money lands in your books.

People

Practitioners with contracts and rates, and one patient book with the chart.

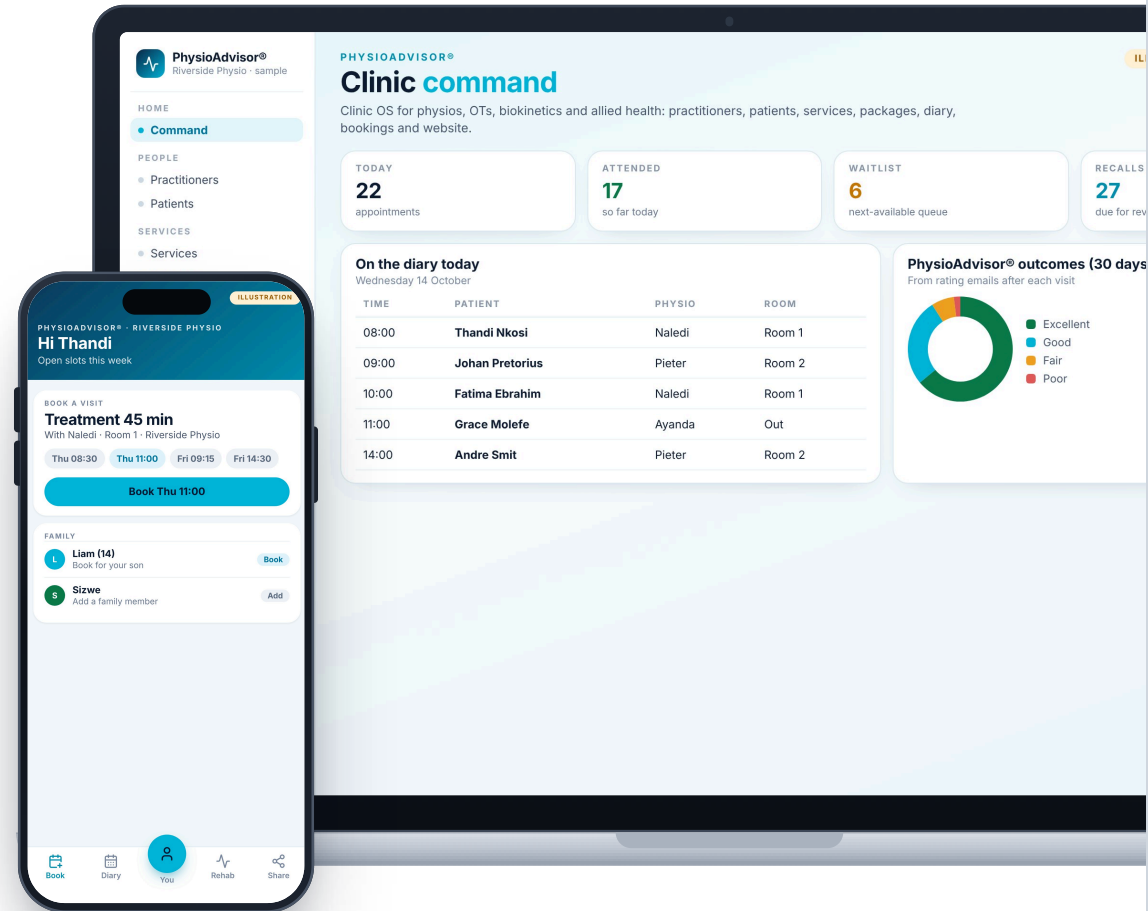

The diary

Exclusive books, rooms, waitlist, reminders and recalls.

Money

Claims from the visit, co-pays on the app and receipts in the ledger.

R199 /month

PhysioAdvisor® pack on top of the SupplierAdvisor® core plan

0 double-bookings

Exclusive physio books on a shared diary

2 apps

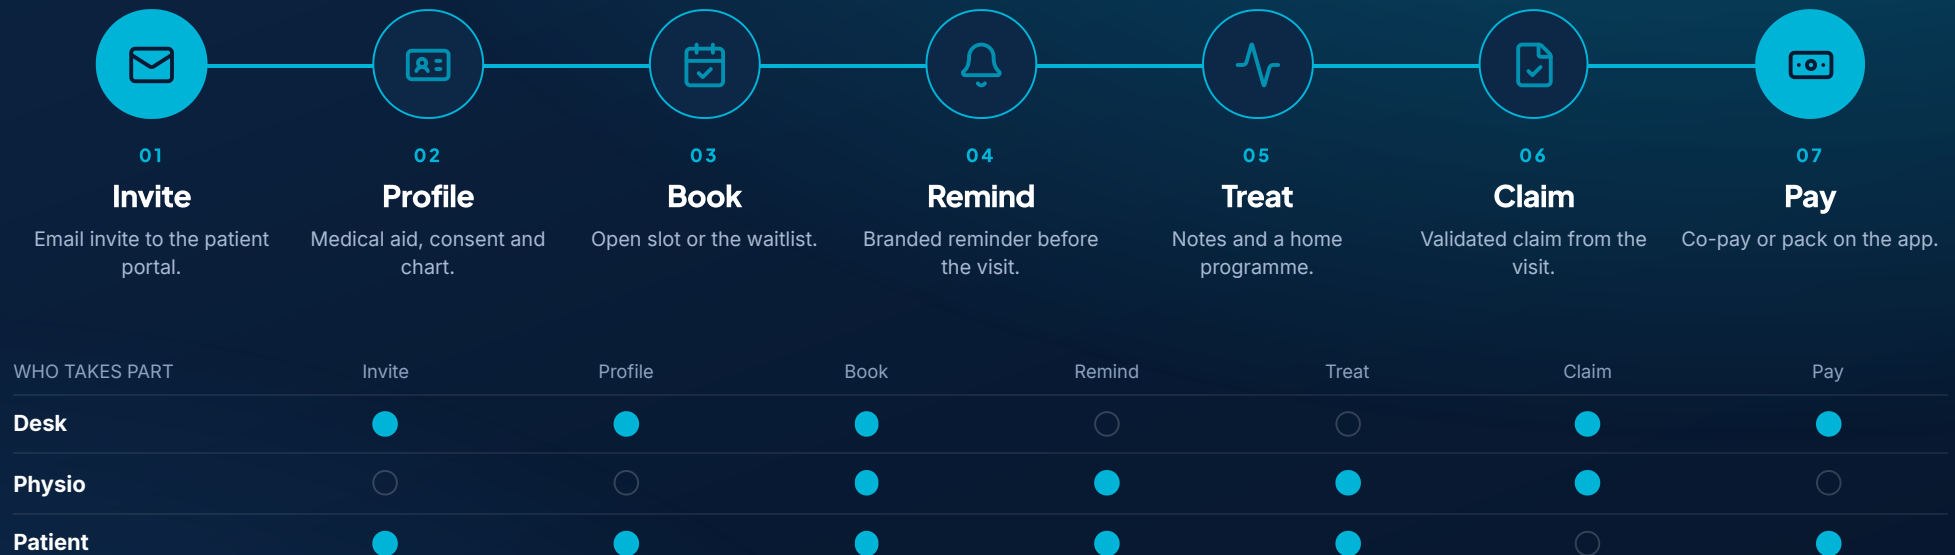

Patient app and physio work app, installable from the browser

∞ users

Priced per company, so every physio is included

Seven steps. *One* patient record.

Every visit runs on the same record, from the invite to the paid account. The desk, the physio and the patient all see their part of it.

A shared diary, *without the double- bookings.*

One clinic diary by physio and room. Every physio has an exclusive book, so a slot can never be sold twice, and treatment rooms let two people work at the same time.

Week, day and room view

Click an appointment to open it; click empty time to schedule.

Treatment rooms and equipment

Add rooms, attach equipment and optionally assign a room to a physio.

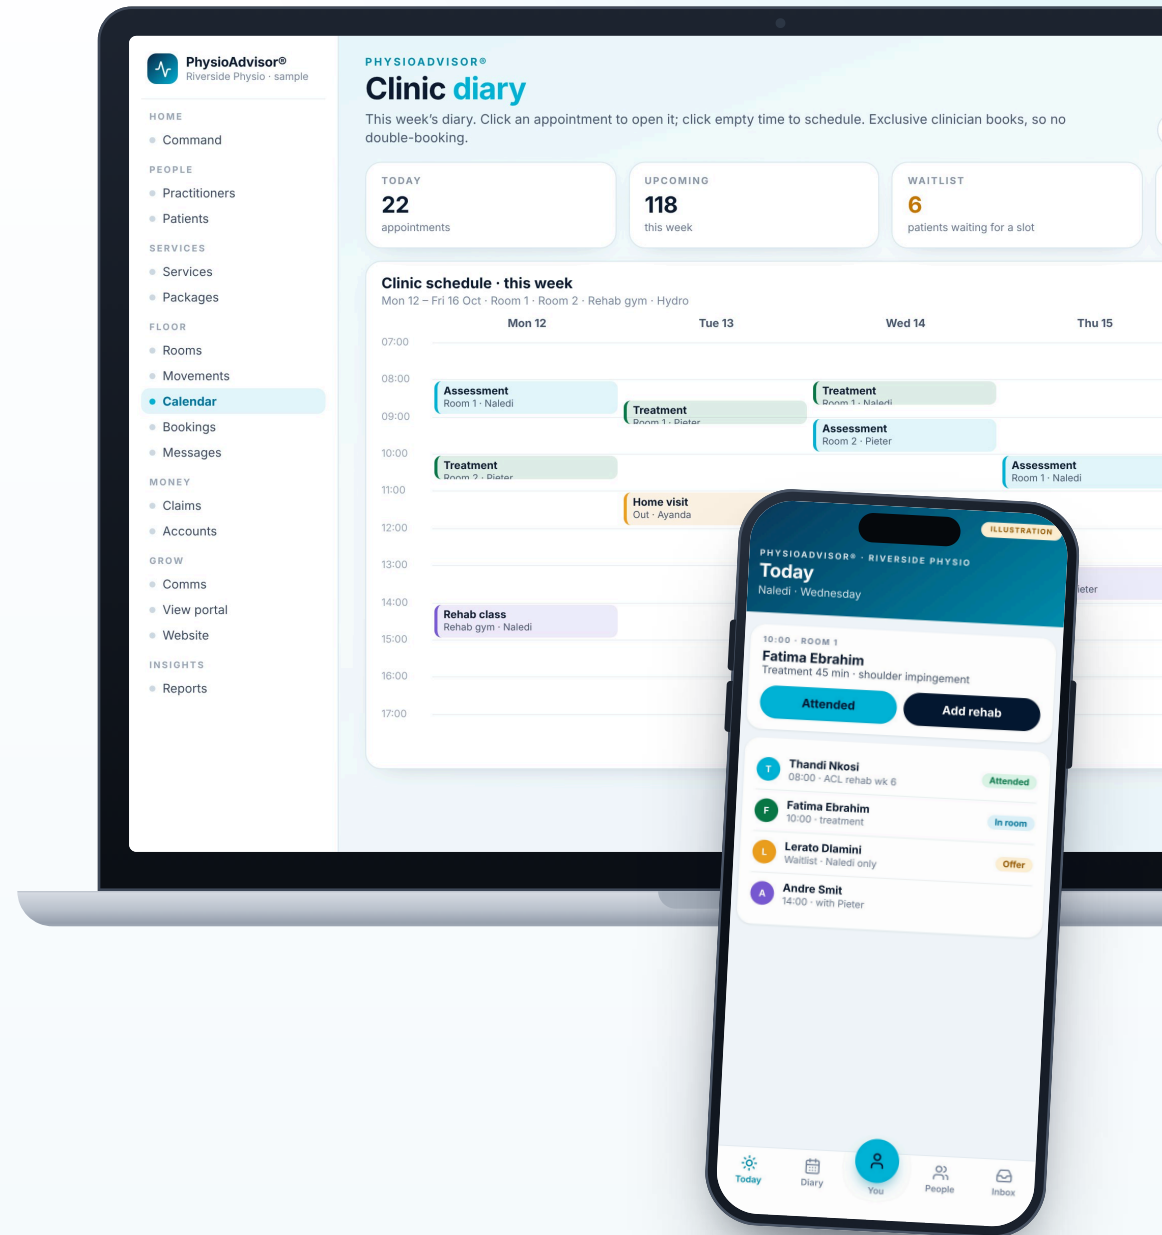

Working hours and closed days

Closed days are dimmed and the day view follows your open window.

Physios run their own diary

Each physio gets the work app: Today, Diary, People and Inbox.

One record, *from intake to discharge.*

The patient book holds the clinical profile, medical chart, medical aid, attachments and scheme submissions. Email an invite and the patient joins their own portal.

Clinical profile

Demographics, medical aid, attachments and scheme submissions on one record.

Email invite to the portal

Patients join the app to book, rate visits and see shared information.

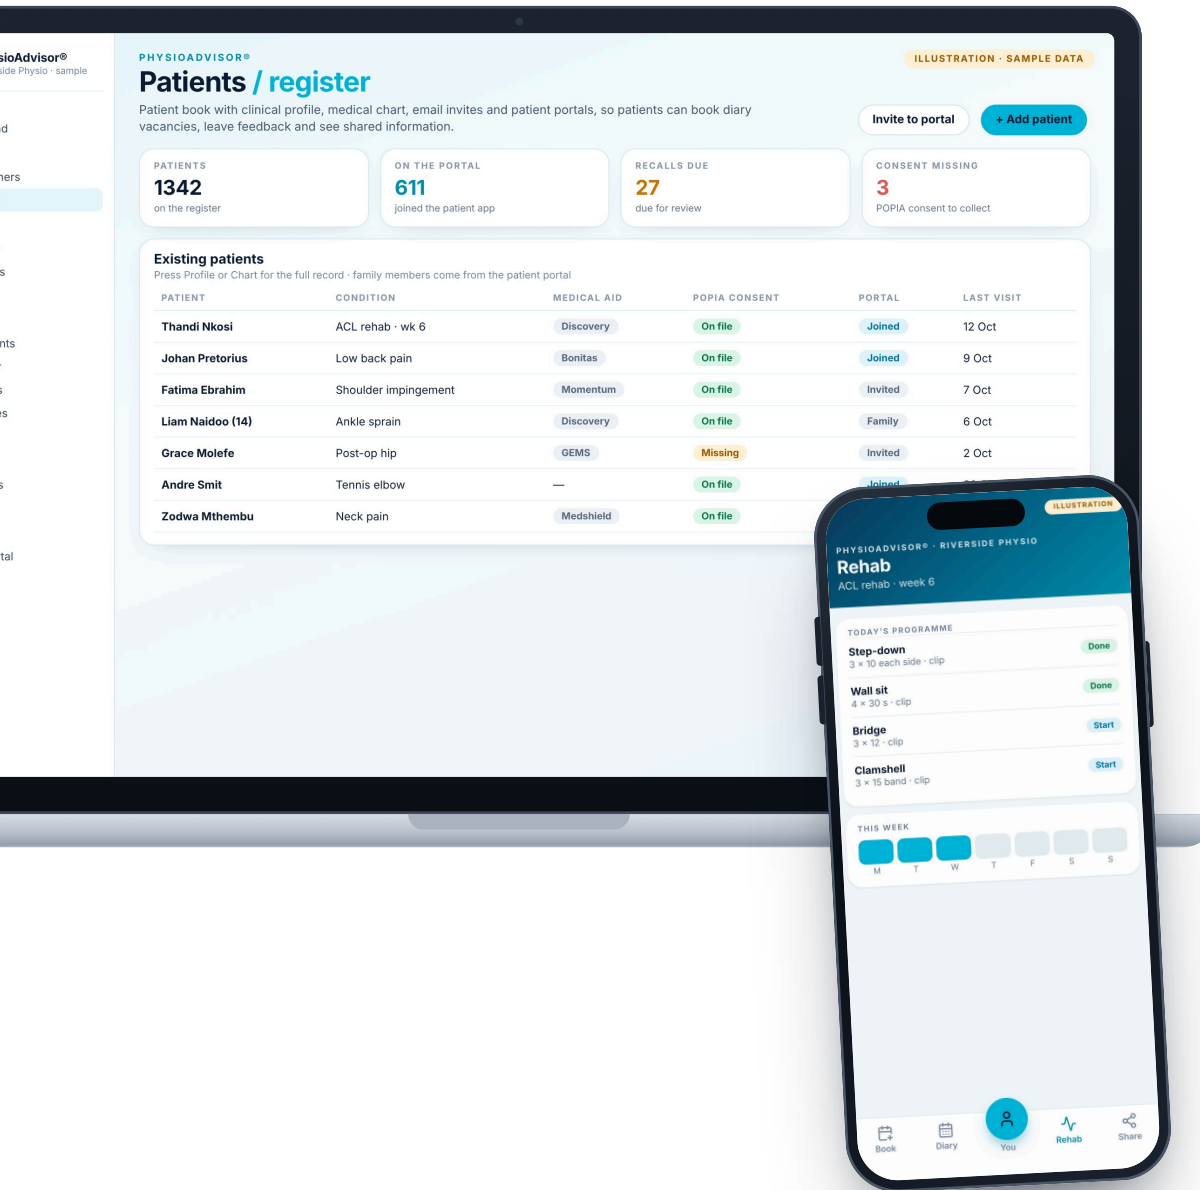

POPIA consent on file

Consent recorded on the record, with a flag when it is missing.

Family members

Parents book for children from the patient portal.

Fewer gaps. *Fewer phone calls.*

Patients book open slots in their own app. The desk works a next-available waitlist, and recalls show who is due back.

Self-booking on the app

Patients see open diary vacancies and book themselves, family included.

Next-available waitlist

The desk offers a freed slot to the next person in the queue.

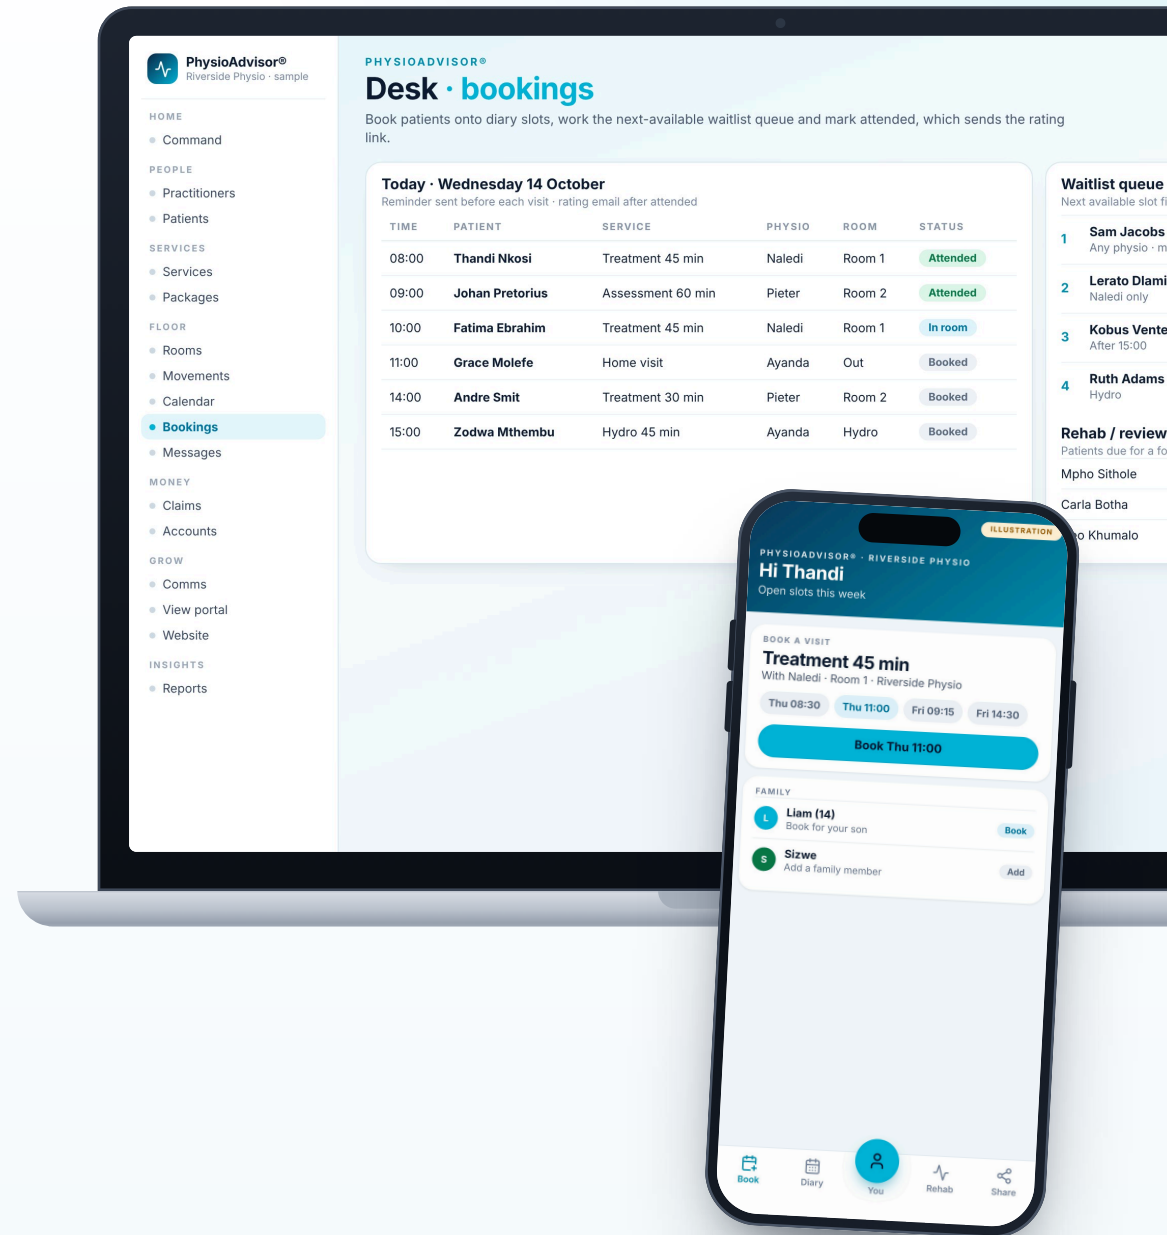

Reminder and rating email

A branded reminder before the visit and a rating email after it is marked attended.

Rehab / review recalls

Patients due for a follow-up visit, listed for the desk to call or message.

Home programmes that *patients actually follow*.

The GymAdvisor® exercise catalogue plus physio rehab extras. Build a home programme in the visit and it lands on the patient's Rehab tab with a still and a 5-second clip for every movement.

Shared movement catalogue

The full exercise library plus rehab extras, ready on day one.

Your own clinic movements

Add your own exercise and replace any still or clip.

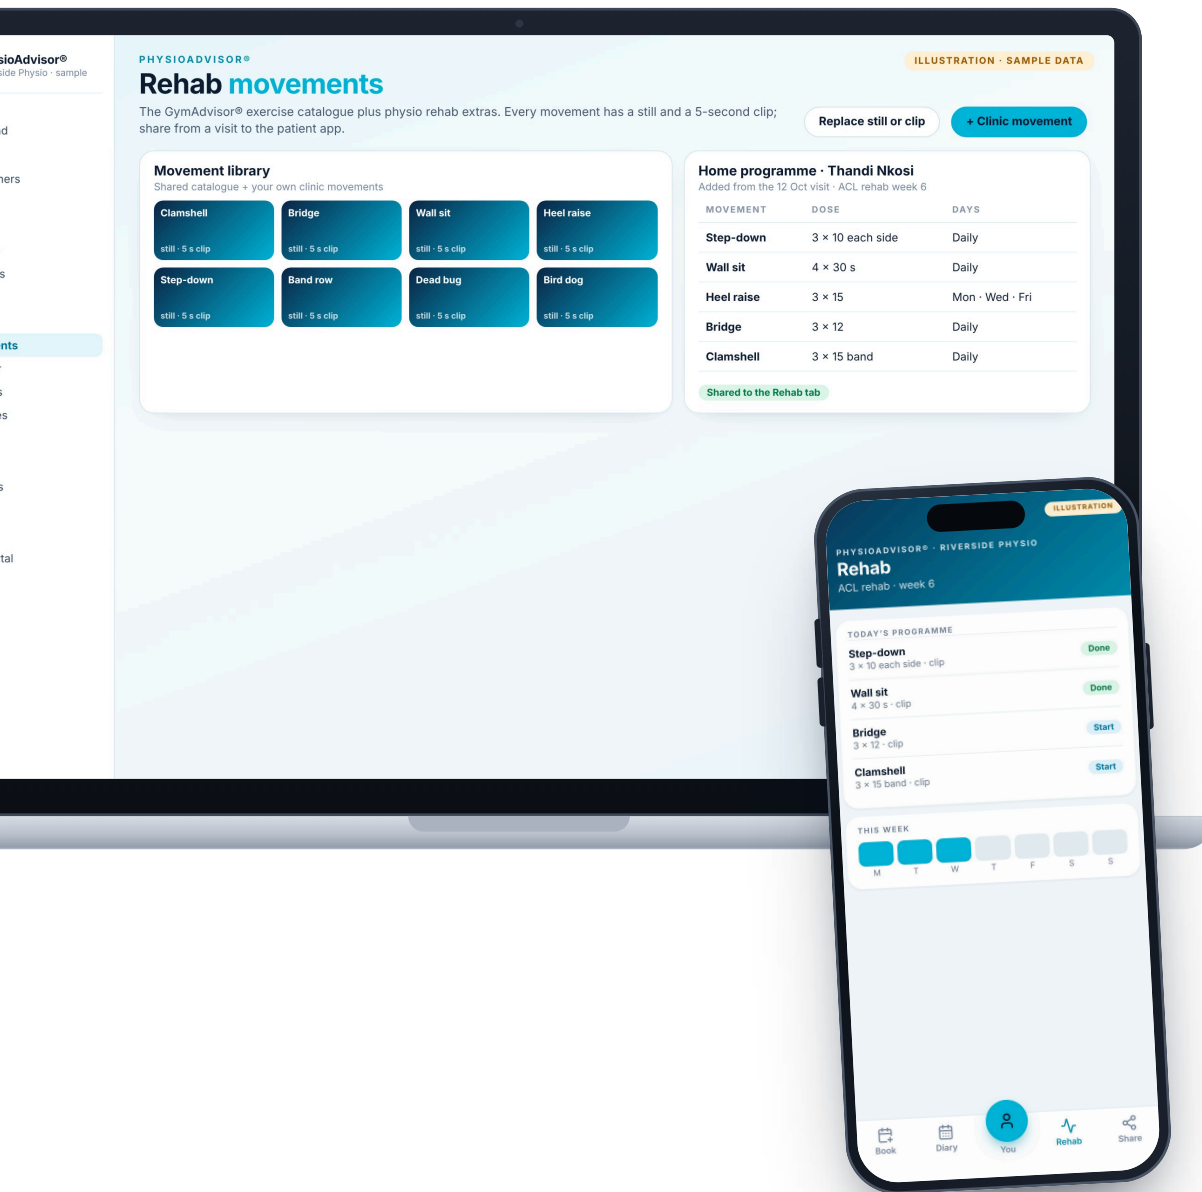

Rehab for this visit

From a booking, open Rehab and add the home programme to the record.

On the Rehab tab

Patients see dose, days and the clip on their phone.

Claims from the visit, *not a week later.*

Claims are drafted from attended visits and validated for PCNS, ICD-10 and tariff before they go. Import the ERA, and any co-pay appears on the patient's app to pay by card.

Draft from attended visits

Nothing to re-key: the visit becomes the claim.

PCNS, ICD-10 and tariff checks

Problems are flagged before submission.

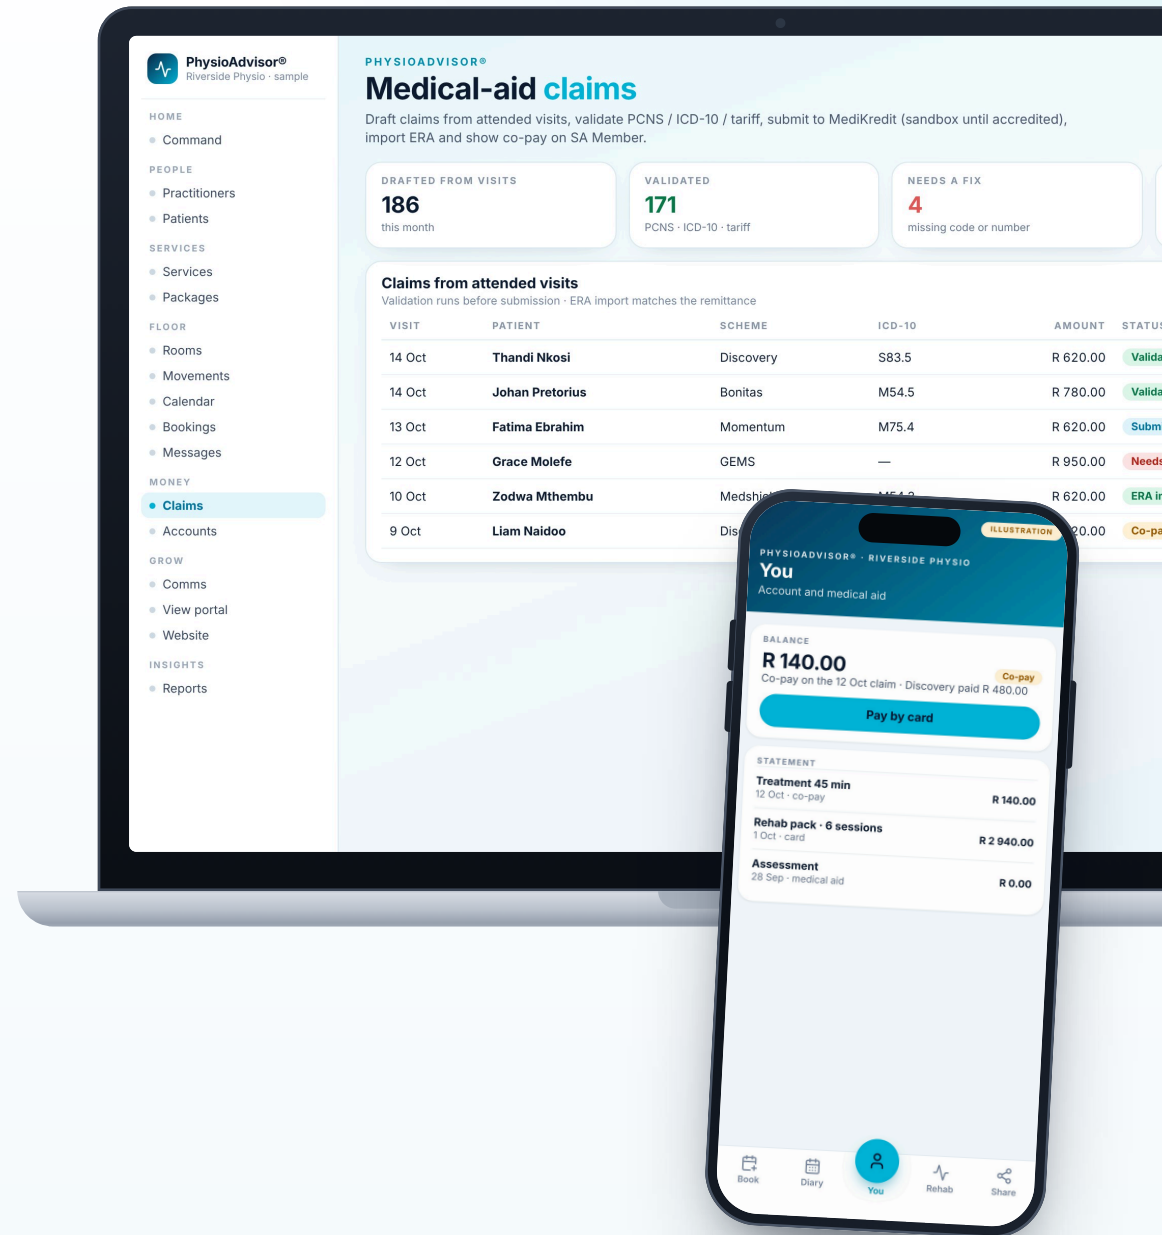

Submit to MediKredit

Sandbox until accredited. ERA import matches the remittance.

Co-pay on the app

Card / Apple Pay settles to your bank (1% admin), or proof of EFT.

Your team, *on one thread.*

Practitioners with skills, bios, photos, contract PDFs, rates and dates. Clinical hand-offs move into in-app messages instead of personal chat apps.

Physio profiles

Skills from a catalogue you create, bio and photo for the website.

Contracts and rates

Contract PDFs and pay rates, owner only and never on the public site.

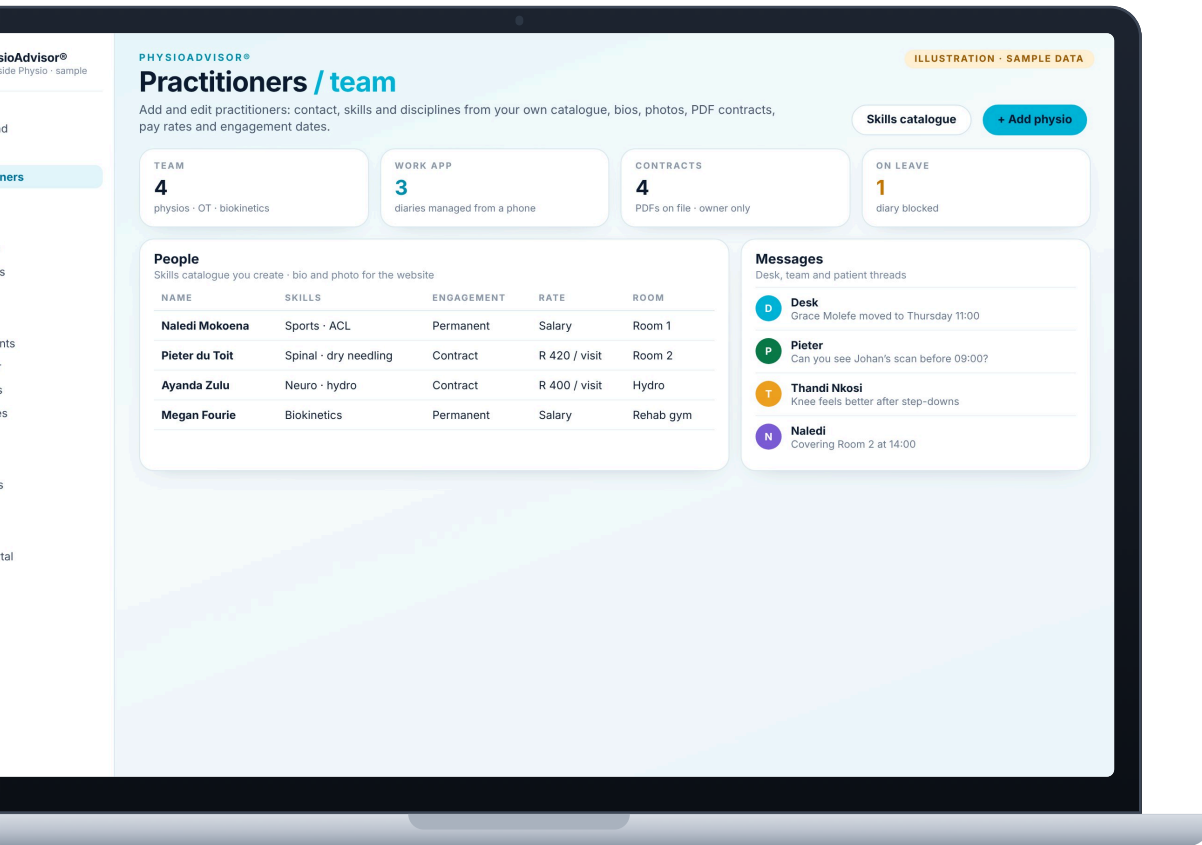

In-app messages

Desk ↔ physio and physio ↔ patient threads for care plans, injury updates and follow-ups.

Leave and engagement dates

Start and end dates and leave that keep the diary honest.

Your brand on their phone, *your numbers on one page.*

Publish a branded home-screen app for patients and an optional public website with booking, then run the practice from one slicer and an A4 PDF pack.

Branded patient app

Book · Diary · You · Rehab · Share, installed from the browser.

Website and booking embed

Public profile, booking page and embed, plus a marketplace listing.

Comms

Push notices, ads and offers to every patient on the portal.

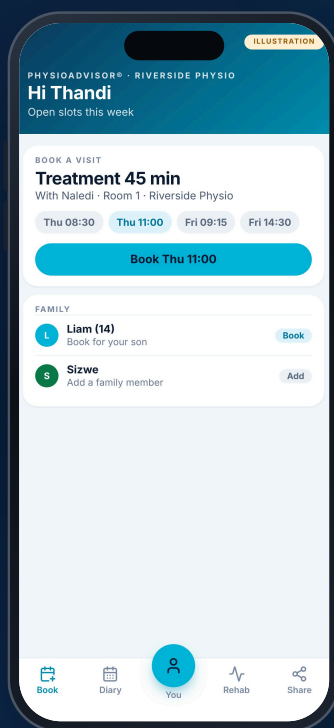

Reports and A4 PDF

Slice and dice visits, fill, no-shows and revenue, with trends.

One clinic. *Everyone* in step.

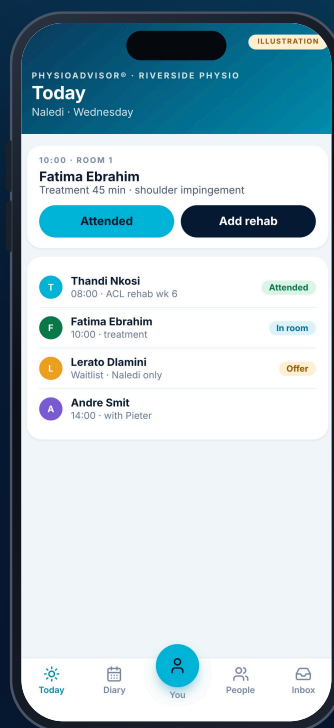

Each app opens in the browser and installs on the home screen as a progressive web app. No app store, nothing for your patients to set up.

PATIENT APP

Book and see

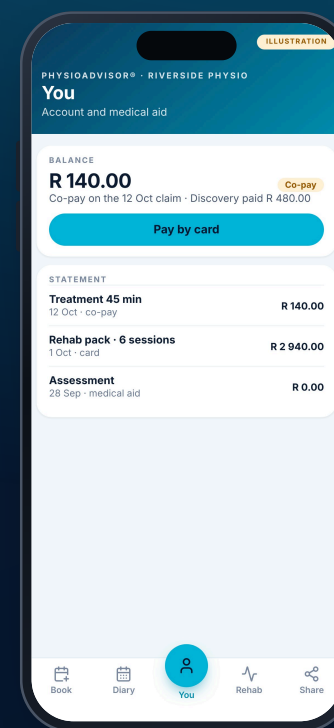

Book · Diary · You · Rehab · Share: slots, family, visits and rehab.

PHYSIO APP

Run the day

Today · Diary · You · People · Inbox: the day's list, patients and messages.

PATIENT ACCOUNT

See and pay

Balance, co-pay and statement, paid by card on the app.

A Wednesday at *Riverside Physio.*

An illustrative day with PhysioAdvisor®. Riverside Physio is a fictional practice with four practitioners and a front desk.

- 07:30** ● **Naledi, physio**
Opens Today on her phone: eight patients, and Thandi's week-6 programme is due for progression.
- 08:00** ○ **Treatment**
Thandi is marked attended. Her rating email goes out and the claim drafts itself.
- 09:15** ○ **Desk**
A 14:00 cancellation: the waitlist offers the slot to the next patient, who books it on the app.
- 10:30** ○ **Rehab**
Naledi adds a new home programme from the visit. It appears on Fatima's Rehab tab.
- 12:00** ○ **Messages**
Pieter asks the desk to move Johan; the thread stays on the patient record, not on a personal phone.
- 14:00** ○ **Claims**
The desk validates the morning batch. One is missing an ICD-10 code and is fixed before submission.
- 16:00** ○ **Recalls**
The review list shows 27 patients due back. The desk sends a Comms notice to book.
- 18:00** ● **Owner**
Reports show 84% diary fill and the A4 PDF pack is ready for the partners.

Illustrative story. The business, people and amounts are fictional sample data, not a real customer.

From paper, phone calls and spreadsheets *to one system.*

	Before: paper, WhatsApp, spreadsheets	With PhysioAdvisor®
Diary	✗ A paper book or a shared spreadsheet	✓ Exclusive practitioner books on one diary with rooms
Booking	✗ Phone calls and WhatsApp	✓ Patients book open slots in their app
Charts	✗ Paper files in a cabinet	✓ Clinical profile, chart and attachments on one record
Home programmes	✗ Printed sheets	✓ Movements with clips on the Rehab tab
Claims	✗ Typed up at month-end	✓ Drafted from the visit and validated first
Co-pays	✗ Chased by phone	✓ Shown on the app and paid by card
Hand-offs	✗ Personal chat apps	✓ In-app messages by system user ID
Reporting	✗ Counting the diary	✓ Fill, no-shows and revenue with an A4 PDF pack

Built for South African practices, *on a real business system.*

A booking app stops at the appointment. PhysioAdvisor® also runs your claims, accounts, team and books on SupplierAdvisor®.

Real accounting underneath

Receipts post to the ledger, with bank matching, VAT and financial statements.

Medical-aid claims

PCNS, ICD-10 and tariff validation, ERA import, MediKredit (sandbox until accredited).

A rehab movement library

Every movement with a still and a 5-second clip.

Two apps included

A patient app and a practitioner work app, no app store.

No double-booking

Exclusive practitioner books and rooms.

POPIA consent on file

Recorded on each patient record.

Website and marketplace

Public booking page, embed and listing.

Priced per company

Unlimited users. Add a practitioner without paying for a seat.

See it on your own data.

Click through the sample screens at supplieradvisor.com/demo, then start a 30-day free trial.

Start your free trial →

Not another app. *Part of your business system.*

PhysioAdvisor® runs inside your SupplierAdvisor® company workspace: one login, one team, one set of roles, one set of books.

— Connected - - - - Same workspace

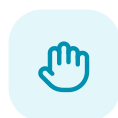

Made for the people *in the treatment room.*

From a single-physio practice to a multidisciplinary clinic with rooms, a hydro pool and a front desk.

Physiotherapy practices

Assessments, treatments and rehab packs.

Occupational therapy

Services, home visits and family booking.

Biokinetics

Rehab programmes from the movement library.

Sports clinics

Return-to-play programmes and reviews.

Multidisciplinary clinics

Many practitioners, rooms and one diary.

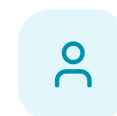

Home-visit practices

Home visits as a service with a duration and price.

Hydrotherapy

Pools and rehab gyms as rooms.

Solo practitioners

No desk needed: run the day from the work app.

See the industry page.

PHYSIOADVISOR® INDUSTRY PACK

+R199

 /month

On top of the core plan. Prepaid terms discount the pack by the same percentage.

Together: R498 a month

That is about R16.60 a day for the whole company, with no per-seat fees.

30-day free trial · no card

What R199 a month replaces

- ✓ A diary and booking app
- ✓ Paper charts and a filing cabinet
- ✓ A separate claims tool
- ✓ Printed home-exercise sheets
- ✓ Co-pay invoices by email
- ✓ The practice WhatsApp group
- ✓ Month-end diary counts

VerifyNow checks are paid per check (R15 to R179, VAT inclusive) and are not part of the subscription. Prices from www.supplieradvisor.com/pricing, October 2026.

Try both free for 30 days.

Full access to SupplierAdvisor® and PhysioAdvisor®. No card needed to start.

Start your 30-day free trial →

Good questions, *straight answers.*

Book a demo 

Start free trial →

Q Do patients have to download an app?

No. The patient app opens from a link and installs on the home screen as a progressive web app.

Q Is our data safe?

Every API call checks your sign-in and company role on the server, and the database refuses direct browser access. Consent is recorded on each record and data is handled with POPIA in mind.

Q Can we submit medical-aid claims?

Claims are drafted from attended visits and validated for PCNS, ICD-10 and tariff. Submission to MediKredit runs in sandbox until accreditation; ERA import and co-pay on the app are included.

Q Can patients see their exercises?

Yes. Add rehab from the visit and it appears on the patient's Rehab tab, with a still and a 5-second clip for each movement.

Q Do practitioners see each other's contracts?

No. Contract PDFs and rate letters are owner only and never shown on the public website.

Q How do patients pay?

Raise the charge on their account. They pay by card or Apple Pay on the app (settles to your bank, 1% admin), or upload proof of an EFT.

Q Do I need SupplierAdvisor® as well?

Yes. PhysioAdvisor® is an industry pack on the SupplierAdvisor® core plan, which also gives you accounting, suppliers and the SAM assistant.

Q Can two physios use one room?

Each practitioner has an exclusive book and rooms are diary resources, so the diary stops a room or a physio being double-booked.

Q Can parents book for children?

Yes. Family members are added from the patient portal and can be booked by the parent.

Q Can we put booking on our website?

Yes. Publish the clinic profile, a public booking page and an embed, and list on the marketplace.

Your next patient: booked, treated and *paid*, on one system.

Start a 30-day free trial with full access, no card needed. Switch on PhysioAdvisor® from Company → Modules and invite your first patients today.
